Questionnaire 39

October 2016

Aberdeen City  *Voice!*

ABERDEEN'S CITIZENS PANEL

Community Planning Aberdeen has introduced four new themes to achieve its vision for a place where all people can prosper. The four themes are:

ECONOMY

Aberdeen has a flourishing, thriving and successful local economy

PEOPLE

People in Aberdeen are happy and healthy and enjoy positive life outcomes

PLACE

People experience Aberdeen as the best place to invest, live and visit

TECHNOLOGY

Innovative, integrated and transformed public services.

Aberdeen City Voice, Aberdeen's citizen panel, is run by Community Planning. Members of Community Planning Aberdeen are Aberdeen City Council, Scottish Fire and Rescue Service, Police Scotland, NHS Grampian, Aberdeen Council of Voluntary Organisations (ACVO), and the universities and college. City Voice gives Community Planning partners the opportunity to engage directly with Aberdeen's citizens. In order to make sure that the results gained through this process are used in the most effective way, it is important that the City Voice reflects the vision of Community Planning Aberdeen. Including the themes into the newsletter and the questionnaire will help us to ensure continuity. The questions in this questionnaire are therefore grouped into the above themes. This way it will be possible to directly link your answers to the relevant themes.

EQUALITY AND DIVERSITY

Aberdeen City Council has been working on delivering services which promote your council area as a fairer and more just place to live. Your answers to the following questions will help the Council to monitor the progress we have achieved in different areas of equality since 2015.

Older people form a growing population within Aberdeen City. This population is diverse in its needs and is one of the main users of public services and may have experienced inequality at some point.

We want to improve the access to Council services for older people. In order to do this we would like to find out what you feel the main barriers to accessing Council services are.

The questions relate to older people (aged 60 years and above).

You can answer these questions based on your own experience or the experience of an older person that you know.

COMMUNITY JUSTICE

Crime in Aberdeen fell by 43% between 2006 and 2015 – in 2014-15 alone it fell by 10%! - and, with the help of communities, we would like to work to reduce offending even further. A new model for Community Justice will come into effect from 1st April 2017. It is intended to increase communities’ awareness and understanding of community justice and promote participation in the planning, delivery and evaluation of community justice services and policy.

To start this process we would welcome your responses and suggestions to the questions set out below.

Community Justice is described as “the collection of individuals, agencies and services that work together to support, manage and supervise people who have committed offences, from the point of arrest, through prosecution, community disposal or custody and alternatives to these. Local communities and the third sector are a vital part of this process which aims to prevent and reduce further offending and the harm that it causes”.

1. Please indicate the extent of your agreement or disagreement with the following statements.

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know
Communities / individuals have a responsibility to report crime	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People who have committed less serious offences should be given community-based sentences as an alternative to custody, to allow them to maintain social / family / employment links to reduce re-offending	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Communities have a responsibility to support people who have offended	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Prison should be reserved for the highest risk offenders who pose a danger to the public.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

2. What are the three main kinds of crime that you are most concerned about in your area?

- i) _____
- ii) _____
- iii) _____

3. The factors below have been shown to contribute to preventing crime. Which of these options could be used in your community to help prevent crime? (Please tick all that apply):

b) Providing opportunities for employment and / or volunteering	<input type="checkbox"/>
c) Provision of parenting support and advice	<input type="checkbox"/>
d) Improving the neighbourhood	<input type="checkbox"/>
e) Planting trees / creating green spaces, to help to reduce vandalism	<input type="checkbox"/>

Please provide any additional information about how you could become involved:

6. Are you aware of the Multi Agency Public Protection Arrangements, known as 'MAPPA'?

a) Yes	<input type="checkbox"/>
b) No	<input type="checkbox"/>

The purpose of MAPPA is public protection and the reduction of serious harm. MAPPA aims to achieve this by providing a framework for agencies to share information, jointly assess risk and apply resources proportionately to manage the risk of serious harm posed to the public by relevant offenders.

This includes registered sex offenders, mentally disordered restricted patients and other offenders managed in the community who, by reason of their conviction, pose a risk of serious harm to the public.

COMMUNITY PAYBACK ORDERS (CPOS)

Community Payback Orders (previously Probation and Community Service) are imposed by the courts and are intended to enable people who have committed offences to 'payback' to communities: firstly by requiring an offender to make reparation, often in the form of Unpaid Work; and secondly by requiring them to address and change their offending behaviour.

During 2015-16 a total of 1,132 Community Payback Orders were imposed on offenders in Aberdeen, 90% of which included an Unpaid Work Requirement. Approximately 80,000 hours of unpaid work were carried out on a wide range of individual placements and work parties. Work included helping with the revitalisation of the St Nicholas Centre rooftop seating area, and maintaining parks and green spaces.

The information you give us will be used to help us understand your awareness of the scheme and gauge your views on how CPOs could be used in the future to positively impact on your community.

- c) Parks improvement
- d) Environmental projects, e.g. recycling, footpath improvement
- e) Shopping services for sheltered housing tenants

Do you have any other ideas about Unpaid Work projects which would be of benefit to your local area? Please give details:
