

Seaton Recovery Project

What is the Aim?

30 clients supported with social and welfare issues and 10 people supported into groups by Jul 18.

How does this support prevention and early intervention?

The Seaton Rehab project is refocusing on supporting people in recovery and to better align with supporting people access and engage commissioned services. The redesigned service will deliver a peer-led, co-produced recovery service, significantly improving support for clients in the community. The service will contribute to LOIP, Locality Plan, Community Justice Plan and the ADP improvement measures.

The model will be tested in Seaton in the first instance and consideration given to further development in other parts of the locality and other localities. Improved services for clients, increased number of people supported, improved partner working, improved community safety.

What changes are we currently testing?

- Moving Seaton Recovery Project to Seaton Learning Centre with the aim that it is more inclusive within the community.
- Referrals to recovery services – Seaton Recovery Project will be seen as a source of referrals and progression for clients into other services that are seen as appropriate to their recovery needs.
- Service redesign – clients who use the project will be consulted on and included in design and delivery
- Community recovery activities – programmes will be inclusive of all those in Recovery.
- ADP, ADA, AiR – the Recovery Project will engage, consult and work in partnership with our partners to ensure design and delivery links into wider provision within Aberdeen.
- Big Lottery – the Recovery is working in partnership with ADA to support a bid to the Big Lottery fund which will allow additional resources (DART) to be created.
