

2.1 Community Benefits

Project Aim	Start Date	Testing End Date	Progress Scale								
Increase the impact and measured value of Partnership wide community benefits programme by 2022. Project Manager: Lori Manson (ACC) Project Charter Approved July 2019	Jul 2019	Dec 2020	6 – Testing Underway								
Changes Being Tested (Specify location/ test group)	Are our changes resulting in improvement?										
<ul style="list-style-type: none"> Establishing a group of participants from the Tillydrone community who will co-design the community benefits requirements for the new primary school to be built on the site of former St Machar Primary school. Drop in sessions for community members to raise awareness of the project and opportunity to be involved during Feb/ March. Post-award meeting with the community and contractor for additional community participation. 	Following community engagement session in March, 10 out of the 15 (67%) community suggestions were converted into agreed options, a further 3 will be incorporated elsewhere (communications plan & overall contract management) with only 2 not incorporated. Contract going out to tender delayed due to COVID. Challenge for the team is going to be identifying another contract to run further tests pre-advertising. There would be more opportunity for post-award meeting with the community/ successful contractor which from the initial Tilly test may prove to be an even more opportune stage for community participation and will be taken forward as a change to be tested.
