

6.4 Parenting Pathways

Project Aim	Start Date	Testing End Date	Progress Scale
<p>Increase the number of opportunities for parents and carers to gain an insight into how to meaningfully contribute to the educational progress of their children and young people by 30% by 2021</p> <p>Project Manager: Alex Duncan (ACC) Project Charter Approved September 2019</p>	Sep 2019	Jul 2021	5 – Designing Changes
Changes Being Tested (Specify location/ test group)	Are our changes resulting in improvement?		
<p>No changes currently being tested. Plan to test a learner journey pathways booklet to promote learner pathways to parents and staff – Scheduled for end of Jan/start of Feb to coincide with personalisation and choice events</p> <p>The pandemic impacted on the ability of the service to host face to face events for families. Schools were asked to identify and maintain contact with families who were identified as vulnerable and establish virtual working arrangements with Parent Councils. All children (over 3000) identified as vulnerable by the service were contacted regularly (at least twice a week) by school staff successfully and all Parent Councils continued to meet remotely over the course of the lockdown period.</p> <p>The wellbeing needs of families has been prioritised in the short to medium term. An extensive wellbeing survey was undertaken to identify vulnerability and plan next steps. An updated Child’s Planning and Request for Assistance processes puts an increased focus on the parent and learner voice. This is designed to engender and scaffold partnership working to get it right for children and young people, the support they need, and their pathway through education and into a sustained, positive destination.</p> <p>Parental involvement will soon commence around the development of our Wellbeing Hubs and also in changes being proposed to the Senior Phase.</p>
