Page 3

Topic	Discussion/Decision	Action By
1. Declarations of Interest	There were no declarations of interest. The Chair welcomed Luan Grugeon and Caroline Hiscox to their first meeting of the Board.	
2. Minute of Previous	The Board had before it the minute of its previous meeting of 22 February 2021, for approval. The Chair advised that further papers had been circulated to Board Members in respect of:	

Agenda Item 1.1

Topic	Discussion/Decision	Action By
Meeting of 22 February 2021	<ul style="list-style-type: none"> • Item 6 Independent Review of Adult Social Care in Scotland – a further paper identifying the implications of the Feeley Report from a Community Planning perspective; • Item 8 Socio Economic Rescue Plan – People Action 4.7 Creation of Online Jobs Portal – further information had been circulated; and • Item 10 LOIP Refresh Update and Aberdeen City Population Needs Assessment 2021 – Executive Summary document. <p><u>The Board resolved:-</u> (i) to note the information circulated; and (ii) to otherwise approve the minute as a correct record.</p>	
3. Draft Minute of the CPA Management Group meeting of 24 March 2021 Page 4	<p>The Board had before it the minute of the CPA Management Group meeting of 24 March 2021, for information.</p> <p><u>The Board resolved:-</u> to note the draft minute.</p>	
4. CPA Board Forward Business Planner	<p>The Board had before it the Forward Business Planner.</p> <p><u>The Board resolved:-</u> to agree the Forward Business Planner.</p>	
5. National Update – Scottish Government	<p>Richard McCallum advised that they were entering a pre election period and therefore any actions would be the responsibility of the new administration to deliver.</p> <p>Mr McCallum provided a Scottish Government update covering the following areas:</p> <ul style="list-style-type: none"> • Social Renewal Advisory Board – the Scottish Government had accepted the Board’s recommendations where further work was required; • A joint statement from The Scottish Government and The Convention of Scottish Local Authorities (COSLA) on progress with the Local Governance Review was published on 18 March 2021; • Scottish Welfare Fund was investigating a minimum income guarantee; and • MSPs had voted in March 2021 on the UN Right of Children to become law. In response to a comment from Jonathan Smith regarding Aberdeen child friendly city status, Mr McCallum 	Richard McCallum, SG

Topic	Discussion/Decision	Action By
	<p>agreed to feed back to the Scottish Government lead to ensure there was a local and national connection.</p> <p><u>The Board resolved:-</u> to note the updates.</p>	
<p>6. Community Engagement on Priorities for Improving Local Outcomes Summary Results</p> <p style="writing-mode: vertical-rl; transform: rotate(180deg);">Page 5</p>	<p>The Board had before it a report presenting the summary results of the CPA communities engagement 'values simulator' held throughout March 2021.</p> <p>Michelle Cochlan spoke to the report and thanked Martin Wyllie and Ann McAteer for their work, and all Board members for encouraging participation. It was noted that there had been 2,642 respondents compared to an average of 500-600 in similar studies throughout other areas of Scotland. Ms Cochlan advised that the next steps were:</p> <ul style="list-style-type: none"> • Result being analysed by the Outcome Improvement Groups and the Locality Empowerment Groups and informing the development of the refreshed Local Outcome Improvement Plan and Locality Plans which would be considered by the CPA Board on 7 July 2021. • Final detailed simulator results report prepared and published. • Following approval of the refreshed LOIP and Locality Plans, the Plans would be published and opportunities for citizens to participate in the Partnership's improvement activity promoted. <p>The report recommended: that the CPA Board:</p> <ol style="list-style-type: none"> i) consider the summary of the results as appended and contained at the results dashboard https://communityplanningaberdeen.org.uk/simulator-results/ and agree that summary and the results dashboard be published and promoted; ii) note that a detailed results report was being prepared and agree that this be shared across the Partnership and published once available; iii) note that the summary results, dashboard and comments were being used by the Outcome Improvement Groups and Locality Empowerment Groups to inform the development of the refreshed LOIP and Locality Plans; iv) agree that Partners take the summary results and dashboard into their respective organisations to consider the key findings alongside their own strategic plans; 	

Topic	Discussion/Decision	Action By
	<p>v) agree that the summary results/dashboard be reported to the Fairer Aberdeen Board for consideration of the findings when allocating future funding; and</p> <p>vi) agree that once the refresh LOIP and Locality Plans have been approved that opportunities for citizens to participate in the Partnership's improvement activity both city wide and at a locality level be promoted.</p> <p><u>The Board resolved:</u> to agree the recommendations.</p>	
<p>7. CPA Improvement Programme Dashboard, Quarterly Update and Appendices</p> <p style="writing-mode: vertical-rl; transform: rotate(180deg);">Page 6</p>	<p>The Board had before it a report providing an update on the projects within the Local Outcome Improvement Plan 2016-26 which had started, or were due to start, to deliver the Partnership's 15 Stretch Outcomes by 2026 on the basis of the revised improvement programme approved by the Board on 16 September 2020; and presented the project updates via the improvement project dashboard. This report also included new charters for approval for project initiation.</p> <p><u>The report recommended:</u> that the Board</p> <p>i) note the overview of progress against the revised CPA Improvement Programme as contained at Appendix 1;</p> <p>ii) approve the two new charters included at Appendix 2;</p> <p>iii) note that the outstanding charters were postponed pending the LOIP refresh; and</p> <p>iv) consider the progress and updates provided on live improvement projects contained at the Improvement Project Dashboard.</p> <p><u>The Board resolved:</u> to approve the recommendations.</p>	
<p>8. Project End Report: Increase the number of Distress Brief Interventions opportunities for people</p>	<p>The Board had before it a report presenting the results of the LOIP Improvement Project Aim to increase the number of Distress Brief Interventions opportunities for people presenting to frontline services in distress by 10% by 2021 and sought approval to end the project.</p> <p><u>The report recommended:</u> that the Board:</p> <p>i) agree that testing is concluded and that this Improvement Project is brought to an end on the basis that the project aim has been achieved and that the tests of change have now been</p>	

Topic	Discussion/Decision	Action By
<p>presenting to frontline services in distress by 10% by 2021</p>	<p>fully implemented and are sustainable and that a new referral pathway is being tested with Education and will be monitored by the National DBI Programme and Scottish Government; and</p> <p>ii) agree that the Resilient, Included and Support Group consider as part of the LOIP refresh whether a new aim reflecting on the opportunities for scale up should be taken forward.</p> <p>In response to a question regarding to what degree of follow up there was and information on sustained improvement, Ms Swanson undertook to find out this information from the Project Lead and to circulate the information.</p> <p><u>The Board resolved:</u> to approve the recommendations.</p>	<p>Allison Swanson</p>
<p>Page 7</p> <p>Project End Report: 10.3 Increase to 30% the number of individuals who are involved in cuckooing incidents who undertake effective interventions or who are referred to relevant support services (as a % of all those identified as being involved in cuckooing incidents) in priority localities by 2021.</p>	<p>The Board had before it a report presenting the results of the LOIP Improvement Project Aim to increase to 30% the number of individuals who are involved in cuckooing incidents who undertake effective interventions or who were referred to relevant support services in priority localities by 2021 and sought approval to end the project as the aim has been achieved.</p> <p><u>The report recommended:</u> That the Board agree that testing is concluded and that this Improvement Project is brought to an end on the basis that the project aim has been achieved and that the multi-agency change ideas are now business as usual and no opportunities have been identified to make further significant gains and that the Community Justice Group will continue to monitor the data.</p> <p><u>The Board resolved:</u> to approve the recommendation.</p>	

Topic	Discussion/Decision	Action By
10. Aberdeen City Local Fire Plan 2020	<p>The Board had before it the Aberdeen City Local Fire Plan 2020, for information and noting. Bruce Farquharson – Scottish Fire and Rescue Service, introduced the paper and spoke to the report.</p> <p>The report recommended: that the Board note the Aberdeen City Local Fire Plan 2020.</p> <p><u>The Board resolved:-</u> to approve the recommendation.</p>	
11. Draft Community Planning Budget 2021/22 Page 8	<p>The Board had before it a report setting out the proposed contributions from Community Planning Aberdeen Partners to the Community Planning Budget 2021/22 and proposals for how this money would be spent.</p> <p>The report recommended: that the Board:</p> <ul style="list-style-type: none"> (i) agree the proposed Community Planning Budget 2021/22; (ii) agree the proposed spend on budget commitments 2021/22; (iii) note the grant funding secured for 2021/22 to date; and (iv) agree that the Community Justice Transition Fund is used to fund the continuation of the fixed term Community Justice Officer post for 2021/22. <p><u>The Board resolved:-</u> to approve the recommendations.</p>	
12. Date of Next Meeting	The Board noted that its next meeting would be held on 7 July 2021 at 2pm.	

**COMMUNITY PLANNING ABERDEEN MANAGEMENT GROUP
2 JUNE 2021**

Present:- Angela Scott (Aberdeen City Council), Murray Main (Police Scotland) (Vice Chair), Gale Beattie (Sustainable City and Aberdeen City Council), Mervyn Bain (University of Aberdeen), Jamie Bell (Scottish Enterprise), Jillian Evans (NHSG and Sustainable City), Jill Franks (Sport Aberdeen), Allison Carrington (Aberdeen Prospers), Nicola Graham (Skills Development Scotland), Maggie Hepburn (ACVO), Derek McGowan (Community Justice Group and Resilient, Included and Sustainable), Graeme Simpson (Integrated Children’s Services), Lavina Massie (Civic Forum) and Dave Black (GREC)

Also Present:- Dermot Craig (Aberdeen in Recovery), Elaine McConnachie, Anna Gale and Simon Rayner (Heath and Social Care Partnership), Michelle Cochlan, Martin Murchie, Neil Carnegie, Paul Tytler, Martin Smith, Colin Wright, Ishbel Greig, Matthew Reid (All Aberdeen City Council).

Apologies:- Richard Craig (Alcohol and Drugs Partnership), Sandra MacLeod (RIS and Health and Social Care Partnership), Pauline May (Nescol), Rab Dickson (Nestrans), and Scott Symon (Scottish Fire and Rescue Service)

Topic	Discussion/Decision	Action By
1. Welcome	<p>The Chair welcomed everyone to today’s meeting and announced that Gale Beattie has been appointed as the Council’s Director of Commissioning. Gale will take on the Chairmanship of the Management Group after the summer recess and will represent the Management Group on the CPA Board. Murray Main will continue as Vice Chair. Angela Scott will join the CPA Board as the Chief Executive of Aberdeen City Council.</p> <p>Members of the CPA Management Group congratulated Gale on her appointment.</p>	
2. Minute of Previous Meeting of 27 January 2021 for approval	<p>The Management Group had before it the minute of its meeting of 24 March 2021, for approval.</p> <p><u>The Management Group resolved:</u></p> <ul style="list-style-type: none"> (i) to agree the minute as a correct record; and (ii) to note all actions had been undertaken. 	

Topic	Discussion/Decision	Action By
3. Minute of Meeting of the CPA Board of 22 February 2021	<p>The Management Group had before it the draft minute of the CPA Board meeting of 22 February 2021 for information.</p> <p><u>The Management Group resolved:</u> to note the draft minute.</p>	
4. Draft Refreshed Local Outcome Improvement Plan 2016-26 and CPA Development Plan 2021-2022	<p>The Management Group had before it a report which presented the draft refreshed Local Outcome Improvement Plan 2016-26 following a nine month development process.</p> <p>Michelle Cochlan spoke to the report and summarised the key changes which have been made to the LOIP which include:</p> <ul style="list-style-type: none"> • Increased focus on poverty through new Stretch Outcome 1 and new Anti-Poverty Outcome Improvement Group • 15 stretch outcomes remain but have been refreshed. • Contraction of improvement projects from 120 to 75 to sharpen focus on areas of greatest need • Lead Partner, baseline data and target population identified from the outset <p>A development plan has also been prepared to complement the LOIP, taking forward cross cutting themes for improvement which support all improvement work and ensure the partnership works better together.</p> <ul style="list-style-type: none"> • Quality Improvement Capacity building • Advice, support and coaching • Data and research • Cross cutting campaigns which have been identified to support multiple improvement projects, and would benefit from a coordinated approach • Leadership development 	

Topic	Discussion/Decision	Action By
Page 11	<p>Thanks were given by the Chair and Vice Chair for the comprehensive report and the appended LOIP and Development Plan. The Management Group went on to discuss the points below.</p> <p>Murray Main emphasised the importance of the partners using the document to influence individual partner organisational plans at either a strategic, tactical or operational level. The Policing Plan takes the LOIP into consideration for service delivery in the North East. The LOIP will require strong leadership by the organisations represented on the Partnership and to use the document to influence services across the City. Angela Scott agreed and advised that the Chair and the Vice Chair of the Board have also raised this issue with her and intend on meeting with the Chief Executives of partner organisations to push for that alignment.</p> <p>Graeme Simpson welcomed the focus on poverty which is a cross cutting issue. He also raised that this might be an opportunity to review the improvement project charter documentation to ensure that focus and on other cross cutting issues, in particular the rights respecting agenda. Dave Black was introduced as a new member of the CPA Management Group, representing Grampian Region Equalities Council and agreed that equalities, protected characteristics and seldom heard groups might also be cross cutting themes to be explored in the charters. Michelle Cochlan was asked to consider how the charter could be adapted to reflect feedback.</p> <p>Dave Black raised the importance of communicating back to communities how people have influenced the LOIP. He also questioned how realistic new Stretch Outcome One is – No one will suffer due to poverty by 2026. Derek McGowan explained that the stretch outcome had been introduced in response to increased poverty following the pandemic. Although we may not be able to eradicate poverty, we aspire to alleviate the immediate and acute suffering it can cause. Derek McGowan agreed to take comments back to the Anti Poverty Group to consider further.</p> <p>Under Stretch Outcome 10, Dave also queried how realistic the Hate Crime Project aim of 100% of incidents being reported is; and whether we are sending the right message with the improvement project aim to decrease the number of domestic abuse incidents</p>	<p>All partners</p> <p>Michelle Cochlan/ Allison Swanson</p> <p>Derek McGowan</p>

Topic	Discussion/Decision	Action By
Page 12	<p>reported. On the latter, Derek McGowan explained that an initial increase in reporting is expected to provide richer data that will support targeted interventions that will lead to the decrease in incidents. Graeme Simpson suggested that the project might be better framed as 100% of domestic abuse victims feeling supported than decreasing reporting. Derek McGowan, Chair of Community Justice Group undertook to take comments back to the Community Justice Group to consider further.</p> <p>A final point was made by Dave Black about the need to check the aims against the ultimate measures of improvement listed at the beginning of the LOIP against the refreshed stretch outcomes, in particular the carbon emissions aims needs to be realigned.</p> <p>Lavina Massie remarked on the cross cutting nature of poverty across all themes in the LOIP, noting that food poverty was previously part of the Place theme and could easily be part of the people theme as well as economy. The important point is how quickly we act to mitigate against the effects of poverty and that we do not wait for two years to do this but should instead aim for six months. Angela Scott reminded the Group that the LOIP is just the tip of the iceberg in terms of what we do collectively to tackle poverty and that individual organisations are also taking action individually.</p> <p>Jamie Bell observed that there seems to be a shift in thinking by national organisations and agencies. There is a clearer alignment between national strategy and local priorities in tackling inequalities.</p> <p>The report also advises that following approval of the LOIP by the CPA Board in July, the CPA Improvement Programme will be revised to ensure we are testing with communities at pace and to achieve all 75 improvement project aims over the next 2 years. A review of the CPA Structure will also be conducted to ensure it remains fit for purpose and that partners have the chance to refresh their membership on the Outcome Improvement Groups.</p>	<p>Derek McGowan</p> <p>Michelle Cochlan</p> <p>Allison Swanson</p>

Topic	Discussion/Decision	Action By
Page 13	<p>The report recommended:- that the Management Group</p> <p>(a) Endorse the draft LOIP presented at Appendix 1 for submission to the CPA Board on 7 July 2021 and subject to approval by the Board agree that Partners be asked to update their strategic plans to align to the refreshed LOIP;</p> <p>(b) Endorse the proposal to introduce a new Anti Poverty Group to the CPA structure to lead on the delivery of new Stretch Outcome 1;</p> <p>(c) Consider the LOIP in conjunction with the draft Locality Plans (Item 2.2) which seek to connect the priority issues being tackled within the LOIP to community assets;</p> <p>(d) Consider the draft Development Plan at Appendix 2 and identify any further partner contributions to address the areas for improvement;</p> <p>(e) Note the analysis included at Appendix 3; and v) Agree next steps, specifically the public consultation on the draft LOIP to be held between 2-17 June prior to submission to the CPA Board.</p> <p><u>The Management Group resolved:</u></p> <p>(i) to approve recommendation (a), noting that further changes may be made before submission to the Board to address the feedback above;</p> <p>(ii) and approve recommendation (b), (c), (d) and (e).</p>	Michelle Cochlan/ Allison Swanson/ Derek McGowan
5. Draft Integrated Locality Plans 2021-26 - North, South and Central	<p>The Management Group had before it a report which presented the first draft Locality Plans following approval by the CPA Board and IJB to the integration of Locality Planning for Community Planning Aberdeen and Aberdeen Health & Social Care Partnership. The plans underpin the refreshed Aberdeen City Local Outcome Improvement Plan, as well as individual partner plans, to cement a joint and coordinated approach between professionals and local communities to improve outcomes city wide and at a locality level.</p> <p>Michelle Cochlan spoke to the report and advised that an integrated locality planning group came together to progress the development of three plans for the North, South and Central localities with members of the communities. Paul Tytler, Martin Smith and Colin Wright who are responsible for leading locality planning for our most deprived communities are in attendance today. Also, Anna Gale and Elaine McConnachie who</p>	

Topic	Discussion/Decision	Action By
<p style="writing-mode: vertical-rl; transform: rotate(180deg);">Page 14</p>	<p>are the public health coordinators who have been leading the process and engagement with communities in the wider North and Central Localities on behalf of the Community Planning Partnership. Michelle highlighted the power of work which has been taken forward by the joint team. The draft plans are testament to the excellent collaboration that has taken place between the public health coordinators and the locality inclusion managers and the relationships they have built with community members living in the areas. Also, working with the Community Planning Team, it has been possible to make the links between the aspirations and ideas of communities and what the Partnership is trying to achieve through the City wide LOIP. This alignment ensures we are taking an asset based approach and making the most efficient and effective use of partner and community resources.</p> <p>Lavina Massie reported that community members are very pleased with the extent to which they have been consulted on the development of the Locality Plans. On behalf of the Civic Forum, Lavina passed on thanks to the team behind the community events and producing the plans. A lot of people felt that they were getting the chance to be heard on issues important to them. Lavina also commented that looking across the three plans, although there is some similarity, there are some quite different ideas also. Whilst the Civic Forum agrees that support should be given to those communities that need it most, this approach helps provide a route for all community members voices to be heard.</p> <p>Gale Beattie agreed that is great to see the three locality plans come together and the effort to link in with the spatial planning team on the local place plans. It highlights the importance of all partners being quite deliberate in making sure we are using these structures to feedback to the community on any work we are doing in the localities. We need to capitalise on the work we have done so far.</p> <p>Graeme Simpson highlighted the pictorial approach used in the plans to present data and asked if we might take inspiration from the approach in the broader LOIP to engage communities. Angela Scott agreed that user friendly versions are important but that there is a substance to the full plans which we need to hold ourselves to account for delivery. Michelle Cochlan was asked to consider.</p>	<p>Michelle Cochlan</p>

Topic	Discussion/Decision	Action By
Page 15	<p>Murray Main asked the Locality Managers about the level of support there is from partners to take the plans forward. Martin Smith advised that from a North perspective the Partnership approach has been fundamental to what has been achieved so far and that local policing teams have been heavily involved in the preparation of the plans. Elaine McConnachie advised that a number of workshops were held specifically for frontline staff to contribute and attendance at these has been good. Michelle Cochlan added that the Locality Empowerment Groups are relatively new and partners will really be put to the test in the next stage when frontline staff are asked to work with community members to test their change ideas. However, we would take some confidence from how we have seen this working in or priority neighbourhoods.</p> <p>Angela Scott thanked public health colleagues and the locality inclusion managers for all the work that has been done on the plans and working with communities.</p> <p>The report recommended:-</p> <ul style="list-style-type: none"> (a) Endorse the draft Locality Plans presented at Appendix 1, 2 and 3 for submission to the CPA Board on 7 July 2021; (b) Consider the report in conjunction with the draft LOIP (Item 2.1) to understand the link with the priority issues being tackled by the wider Community Planning Partnership; (c) Note that plans for asset based community development to support the locality planning process will come forward as part of the revised Aberdeen City Community Learning and Development Plan in September 2021; (d) Note intentions to support communities to drive the further development of the locality plans, including the incorporation of 'local place plans' as explained at para 4.2; and (e) Agree next steps, specifically the public consultation on draft Locality Plans between 2-17 June prior to submission to the CPA Board <p><u>The Management Group resolved:</u> to approve the recommendations</p>	

Topic	Discussion/Decision	Action By
6. Socio-Economic Rescue Plan 2020/2021 Page 16	<p>The Management Group had before it a report which provides a final update to Committee on the delivery of the Socio-Economic Rescue Plan 2020/21.</p> <p>Ishbel Greig introduced the report and explained that all actions are now completed, business as usual or will be incorporated in the refreshed LOIP.</p> <p>The report recommended:- that Management Group –</p> <p>(a) Note the completion of the Socio-Economic Rescue Plan in its current form and integration with the LOIP and CPA structure.</p> <p><u>The Management Group resolved:</u> to approve the recommendations</p>	
Locality Recovery Plans 2020/21 Page 16	<p>The Management Group had before it a report which update on the Locality Recovery Plans 2020/21 to support the recovery of our priority localities</p> <p>The report recommended:-</p> <p>(a) Note progress against the Locality Recovery Plans for submission to the Community Planning Aberdeen Board on 7 th July 2021.</p> <p>(b) Request that Locality Inclusion Managers prepare a succinct easy read report setting out progress made through the delivery of the plans for approval by the Community Planning Board and subsequent publication</p> <p><u>The Management Group resolved:</u></p> <p>(i) to note the completion of the Locality Recovery Plans; and</p> <p>(ii) ensure that anything of continued relevance and importance is included within the Locality Plans</p>	Paul Tytler/ Martin Smith/ Colin Wright
8. Project End Report: Improve the Health and Wellbeing Outcomes for at	<p>The Management Group had before it a report which presented the results of the LOIP Improvement Project Aim to [Improve the Health and Wellbeing Outcomes for at least 50% of homeless people/program participants (30 individual participants) in the Housing First (HF) Pathfinder Program in Aberdeen City by Dec 2021] and seeks approval to end the project</p>	

Topic	Discussion/Decision	Action By
<p>least 50% of homeless people/program participants (30 individual participants) in the Housing First Pathfinder Program in Aberdeen City by Dec</p> <p style="writing-mode: vertical-rl; transform: rotate(180deg);">Page 17</p>	<p>Derek McGowan introduced the report and provided a summary of the work undertaken by the project team to achieve the aim of the project. Angela Scott thanked the project team for the work carried out in relation to this project and for the good result achieved.</p> <p>The report recommended:- that the Management Group</p> <p>(a) Agree to recommend to the CPA Board on 7 July 2021 that testing is concluded and that this Improvement Project is brought to an end on the basis that it has achieved its outcomes target earlier than predicted and the Housing First model has now been accepted locally and nationally as the most appropriate intervention for those with multiple complex needs who experience cyclical homelessness.</p> <p>(b) Agree that there should be ongoing monitoring and evaluation of the local and national picture as reflected in the National Pathfinder Tracker attached, the purpose of this would be to establish a national KPI system to evidence the outcomes established through the Pathfinder programme and ensure that the fidelity of the Housing First model is maintained nationally.</p> <p><u>The Management Group resolved:</u> to approve the recommendation.</p>	
<p>9. Child Friendly City</p>	<p>The Management Group had before it a report which provided an update on our current status in regards to the Unicef Child Friendly City programme and outline of our next steps for progression within the accreditation process.</p> <p>Matt Reid introduced the report and highlighted that there has been some challenges in taking forward the programme due to the operational demands placed on partners during Covid. This has slightly delayed progress but the project plan has been adapted to take account of this and partners are coordinating and leading delivery of the revised programme.</p>	

Topic	Discussion/Decision	Action By
Page 18	<p>Angela Scott explained that, with the incorporation of children’s rights in Scots Law and the duties it will place on public bodies, it is important to keep a close watching brief and keep this as a standing agenda item for future meetings. Matt Reid to include in a future update an assessment of how we measure up against Scottish Government guidance due to be released in the summer.</p> <p>The report recommended:- that the Management Group</p> <ul style="list-style-type: none"> (a) Continues to endorse our Child Friendly City work, promoting children’s rights and engages with relevant training opportunities. (b) Receive future progress reports and monitor actions where necessary. (c) Note next steps. <p><u>The Management Group resolved:</u></p> <ul style="list-style-type: none"> (i) to approve the recommendations; (ii) request a further update at future meetings of the CPA Management Group; and to include in a future update an assessment of the CPA position against Scottish Government Guidance. 	Matt Reid
10. CPA Funding Tracker	<p>The Management Group had before it the CPA Funding Tracker.</p> <p><u>The Management Group resolved:</u> to note the CPA Funding Tracker.</p>	
11. CPA Forward Planner	<p>The Management Group had before it the CPA Forward Planner.</p> <p><u>The Management Group resolved:</u> to note the CPA Forward Planner.</p>	
12. Date of Next Meeting	<p>The Management Group noted that its next meeting would be held on 11 August 2021 at 2pm.</p>	

Topic	Discussion/Decision	Action By
13. Local Governance Review	<p>The Management Group has before it a report providing an update on the Scottish Government's local governance review to inform speculation on the potential implications for the planning of services.</p> <p><u>The Management Group resolved:</u> to note the report.</p>

Community Planning Aberdeen

Progress Report	Final Draft Refreshed Local Outcome Improvement Plan 2016-26 and CPA Development Plan 2020-2022.
Lead Officer	Angela Scott, Chair of CPA Management Group and Chief Executive of Aberdeen City Council
Report Author	Michelle Cochlan, Community Planning Manager Allison Swanson, Improvement Programme Manager
Date of Report	29 June 2021
Governance Group	CPA Board, 7 July 2021

Purpose of the Report
This report presents the final draft refreshed Local Outcome Improvement Plan 2016-26 following a nine month development process. The refresh takes place in the context of the Covid-19 pandemic and at a time of recovery, as well as renewal. The Partnership’s ambition for improvement is as bold as ever and we continue to work towards achieving our vision of Aberdeen as a place where all people can prosper. The LOIP refreshed for 2021 sets out how we will go about this in the face of our changed circumstances.

Summary of Key Information
<p>1. BACKGROUND</p> <p>1.1 Community Planning Aberdeen has agreed to the bi-annual review of the Local Outcome Improvement Plan (LOIP) to ensure it remains relevant and focussed on priority outcomes. This is the second refresh of the LOIP since it was first published in 2016. The process for undertaking the current refresh started in November 2020 with the update of the Aberdeen City Population Needs Assessment (PNA). The PNA reflects the significant challenges posed by the Covid-19 pandemic and the social, environmental and economic impacts which are to be long lasting. Public spending, which could help mitigate this impact, is likely to be under sustained pressure. The crisis highlights the importance of the role of Community Planning Aberdeen in pulling together partners, resources and community assets to work together towards the longer term recovery of the City.</p> <p>1.2 Over the last nine months partnership staff and community members involved in the Partnership’s Outcome Improvement Groups and Locality Empowerment Groups have been considering the data and insights within the PNA to make recommendations for amendment to the LOIP. The draft LOIP presented with this report reflects the final submissions from the Outcome Improvement Groups, having considered feedback from the online public simulator which ran throughout March, stakeholder sessions held in April and a final public consultation on the plan during the first two weeks of June. See LOIP Refresh webpage for further information.</p> <p>1.3 The LOIP is complemented and underpinned by three Locality Plans for North, South and Central areas of the City. These describe the Partnership’s asset based approach to working with communities to harness the skills, knowledge, experience and ideas of communities in tackling priority issues.</p>

2 REFRESHED LOIP 2021

2.1 The draft LOIP presented in Appendix 1 to this report is the product of work which has taken place since November 2020 when we first started the update of the Population Needs Assessment for the City. Over the last six months Outcome Improvement Groups have been reviewing the stretch outcomes and improvement aims within the LOIP to ensure they remain relevant and focussed on priority issues, particularly in the face of the COVID-19 pandemic.

2.2 **Summary of the key changes:**

- Increased focus on poverty through new Stretch Outcome 1
- 15 stretch outcomes remain but have been refreshed
- Contraction of improvement projects to sharpen focus
- Lead Partner, baseline data and target population identified from the outset

2.2.1 **Increased focus on poverty through new Stretch Outcome 1.** Central to the LOIP is the ambition to reduce inequalities of outcome which exist across the City as a result of socio-economic disadvantage. The LOIP in its entirety demonstrates how, over the course of the ten year plan, partners are working together to prevent people, families and communities falling into and suffering the consequences of poverty. However, the coronavirus pandemic is expected to push more people into immediate and acute poverty and therefore a new stretch outcome 'No one will suffer due to poverty by 2026' has been proposed by the Chief Officer of Early Intervention and Community Empowerment. This communicates the Partnership's commitment to supporting the shorter term recovery of the City as well as longer term renewal.

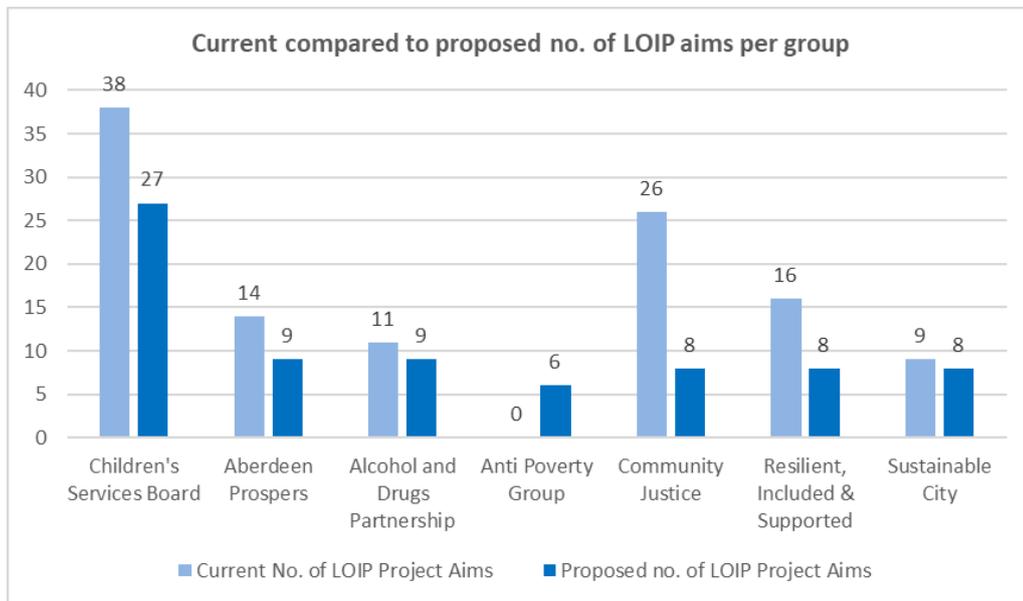

The stretch outcome incorporates the improvement projects which were previously set out within former stretch outcome 13 'No one in Aberdeen will go without food due to poverty'. New stretch outcome one seeks to mitigate the causes of immediate and acute poverty through projects which will ensure all people across the City have access to food, fuel, shelter and finance. Whilst the stretch outcomes within the LOIP are not ordered in terms of importance, placing the new stretch outcome upfront signals the Partnership's dedication to tackling poverty in all forms to improve outcomes for people in the short, medium and longer term. To support delivery of the stretch outcome, a new Anti-Poverty Outcome Improvement Group is proposed be included in the CPP structure, see page 45 of the LOIP in Appendix 1. The group builds on the of City's current Welfare Reform Group.

2.2.2 **15 stretch outcomes remain but have been refreshed.** The refresh process has provided the opportunity to revisit all priority stretch outcomes and in most cases changes have been made, to varying degrees. As well as the addition of new stretch outcome 1, we also have a new stretch outcome 15 which seeks to protect and sustain our natural environment. The UK Government commissioned [Dasgupta Review on the Economics of Biodiversity](#) published in April 2021 sets the context of this Stretch Outcome and explains the importance of biodiversity to our society.

The table below provides a comparison of the stretch outcomes agreed as part of the refresh in 2019 and those proposed in 2021.

Stretch Outcomes 2019	Stretch Outcomes 2021
Economy	
<p>1. 10% increase in employment across priority and volume growth sectors by 2026.</p> <p>2. 90% of working people in Living Wage employment by 2026.</p>	<p>1. No one will suffer due to poverty by 2026</p> <p>2. 400 unemployed Aberdeen City residents supported into Fair Work by 2026.</p> <p>3. 500 Aberdeen City residents upskilled/ reskilled to enable them to move into, within and between economic opportunities as they arise by 2026.</p>
People (Children & Young People)	
<p>3. 95% of children (0-5years) will reach their expected developmental milestones by the time of their child health reviews by 2026.</p> <p>4. 90% of children and young people will report that they feel mentally well by 2026.</p> <p>5. 95% of care experienced children and young people will have the same levels of attainment in education, emotional wellbeing, and positive destinations as their peers by 2026.</p> <p>6. 95% of children living in our priority localities will sustain a positive destination upon leaving school by 2026.</p> <p>7. Child Friendly City which supports all children to prosper and engage actively with their communities by 2026.</p> <p>8. 25% fewer young people (under 18) charged with an offence by 2026.</p>	<p>4. 95% of children (0-5 years) will reach their expected developmental milestones by the time of their child health reviews by 2026.</p> <p>5. 90% of Children and young people will report that their experiences of mental health and wellbeing have been listened to by 2026. This is reflected in interactions, activities, supports and services.</p> <p>6. As corporate parents we will ensure 95% of care experienced children and young people will have the same levels of attainment in education, health and emotional wellbeing, and positive destinations as their peers by 2026.</p> <p>7. 95% of children living in our priority neighbourhoods will sustain a positive destination upon leaving school by 2026.</p> <p>8. Child friendly city where all decisions which impact on children and young people are informed by them by 2026.</p> <p>9. 30% fewer young people (under 18) charged with an offence by 2026.</p>
People (Adults)	
<p>9. 25% fewer people receiving a first ever Court conviction each year by 2026.</p> <p>10. 2% fewer people reconvicted within one year of receiving a community or custodial sentence by 2026.</p> <p>11. Healthy life expectancy (time lived in good health) is five years longer by 2026.</p> <p>12. Rate of harmful levels of alcohol consumption reduced by 4% and drug related deaths lower than Scotland by 2026.</p>	<p>10. 25% fewer people receiving a first ever Court conviction and 2% fewer people reconvicted within one year by 2026.</p> <p>11. Healthy life expectancy (time lived in good health) is five years longer by 2026.</p> <p>12. Rate of harmful levels of alcohol consumption reduced by 4% and drug related deaths lower than Scotland by 2026.</p>
Place	
<p>13. No one in Aberdeen will go without food due to poverty by 2026.</p> <p>14. Addressing climate change by reducing Aberdeen's carbon emissions by 42.5% by 2026 and adapting to the impacts of our changing climate.</p> <p>15. 38% of people walking and 5% of people cycling as main mode of travel by 2026.</p>	<p>13. Addressing climate change by reducing Aberdeen's carbon emissions by 61% by 2026 and adapting to the impacts of our changing climate.</p> <p>14. Increase sustainable travel: 38% of people walking and 5% of people cycling as main mode of travel by 2026.</p> <p>15. Addressing the nature crisis by protecting/ managing 26% of Aberdeen's area for nature by 2026.</p>

2.2.3 Contraction of improvement projects to sharpen focus. In refreshing the stretch outcomes, Outcome Improvement Groups have also reviewed the shorter term improvement project aims which have been identified to deliver the longer term outcomes. There has been a contraction of improvement project aims which results in a sharpened focus on areas which require collaboration from partners and application of improvement methodology. Partners have removed any improvement aims which, on reflection, are considered single system issues or business as usual. The number of LOIP projects has therefore reduced from 120 to 75. See chart below.

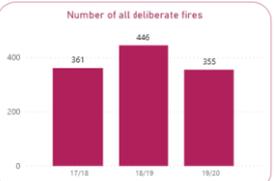

2.2.4 Lead Partner, baseline data and target population identified from the outset.

The inclusion of this information in the LOIP is to ensure Community Planning Aberdeen is clear about what it is committing to achieve as a Partnership and as individual partners. The leadership of improvement projects has been an issue in the delivery of the current improvement programme, with some projects struggling to progress due to lack of project manager. In making proposals for the inclusion of project aims within the LOIP, Outcome Improvement Groups were asked to confirm a lead organisation which will identify a project manager to lead the project.

Baseline data has also been included where this is available, not only to put the improvement aim in context of the current trend but also to be transparent about which projects will need to put a system in place to establish a baseline against which they will measure improvement.

Finally, each project aim has an identified target population. This helps clarify which projects will be tested city wide and which will be targeting specific areas and communities of interest. This helps clarify the linkages between the city wide LOIP and underpinning locality plans, ensuring there is a read across and synergy between the work of Outcome Improvement Groups and Locality Empowerment Groups/ Priority Neighbourhood Partnerships. See example below.

Improvement Project Aim	Baseline Trend Data	Target Population	Lead Partner								
Reduce the number of wilful fires by 10% by 2022.	 <table border="1"> <caption>Number of all deliberate fires</caption> <thead> <tr> <th>Year</th> <th>Number of fires</th> </tr> </thead> <tbody> <tr> <td>17/18</td> <td>361</td> </tr> <tr> <td>18/19</td> <td>446</td> </tr> <tr> <td>19/20</td> <td>355</td> </tr> </tbody> </table>	Year	Number of fires	17/18	361	18/19	446	19/20	355	Initial testing in Torry then gradually scaling up city wide	Scottish Fire & Rescue Service
Year	Number of fires										
17/18	361										
18/19	446										
19/20	355										

2.2.5 See Appendix 3 for an analysis undertaken by the Chief Officer of Early Intervention and Community Empowerment to determine the balance of interventions across the refreshed LOIP.

- Whether the projects against each Stretch Outcome are considered short term (to 2023); medium term (to 2025) or long term (2026 and later)
- Whether the projects against each Stretch Outcome target whole population, community level, or individual level
- Whether the projects against each Stretch Outcome are considered Upstream, Midstream or Downstream interventions.

3 DEVELOPMENT PLAN 2021-22

3.1 Since 2016, Community Planning Aberdeen has made significant progress in creating the conditions for change which enable partners to work more effectively together. In response to feedback gathered from the CPA Board during a session facilitated by the Improvement Service in April 2021; and from a feedback exercise conducted with Project Leads in March 2021, the Development Plan at Appendix 2 has been developed.

3.2 The Plan includes five themes for improvement under which actions have been identified to provide cross cutting support to colleagues across the Partnership in the delivery of the LOIP and underpinning Locality Plans. These include:

3.2.1 Capacity Building

CPA continues to be committed to using Quality Improvement (QI) methodology to carry out improvement work. To support the delivery of improvements, building confidence and capability of our Project Leads to use the quality improvement tools remains vital. Model for Improvement bootcamps will resume from July. In addition, we will be introducing a programme of training aimed specifically at community members to help build their understanding of how they can contribute to improvement projects by testing their change ideas.

3.2.2 Advice, Support and Coaching

CPA already has a number of established mechanisms for providing Project Teams with advice, support and coaching. However, with new Project Leads and Teams we need to continue to refresh and promote those opportunities. Also, as projects refresh and begin to reach their aims, there are new areas of support required which have been built into the Development Plan. For example, improving story telling about what we are achieving and working with projects to influence and empower them to think more creatively and develop innovative practice. As well as support from the CPA Team, it is also important that Project Leads collaborate with each other; share their experiences; and have awareness of other improvement activity. To help facilitate this support, we will continue to develop our Improvement Community Network to provide a supportive environment where project leads and members are encouraged to share their experience and seek support from their peers.

3.2.3 Data and Research

Community Planning Aberdeen has a commitment to ensuring that the LOIP and all improvement activity is evidence based and data driven and has a number of achievements on this e.g. the PNA; the LOIP; the Aberdeen Outcomes Framework; our supported Quality Improvement Model; City Voice; Simulator, etc. However, a frequent area of feedback includes the measurability of the stretch outcomes/ improvement project aims and the availability of data to evidence impact. It is important that our aims reflect what is important rather than just what is available. It is proposed that there is an opportunity to strengthen how partners work together on research, analysis and data management through the establishment of a Research Forum and Data Network.

3.2.4 Cross Cutting Campaigns

There are a number of cross cutting campaigns which have been identified by partners as having an impact on the delivery of all 15 Stretch outcomes and multiple improvement projects in the LOIP. For example, tackling stigma and increasing community engagement. These have been included in the Development Plan to ensure a coordinated approach is taken to progressing these campaigns and key messaging helps support the work right across the Partnership. The campaigns being led by different Partners will commence from August 2021 onwards to ensure that we are promoting and raising awareness and understanding of these areas and that it is being considered in all of our improvement activity.

3.2.5 Leadership – Creating the Conditions for Change

Strong leadership is key to the partnership delivering its improvement ambitions. Through a collective leadership programme, supported by external partners, CPA Board and Management Group members will be encouraged to think differently about their leadership role. We will convene a number of leadership fora to explore different ways of operating, focussing on collaboration and innovation, and reflecting on what we need to do differently.

- 3.3 Whilst leads for the various improvement actions within the Development Plan have been identified, delivery of the actions will require support from across all partners, therefore Partners are asked to consider the Plan and identify where they could contribute. Progress against the development plan will be monitored and reported as part of next year's Annual Outcome Improvement Report.

4 CPA IMPROVEMENT PROGRAMME 2021-2023

- 4.1 Subject to the approval of the refreshed LOIP by the CPA Board in July, the current [CPA Improvement Programme](#) will also be revised. The programme for 2021-2023 will ensure a phased and coordinated approach to the initiation of new projects and the testing of changes with and by communities. This will help ensure that resources are channelled to the projects of greatest importance and that no one partner or community is overwhelmed by the number of projects or changes being tested.

- 4.2 This prioritisation helps ensure the Partnership is moving at pace. Improvement projects are intended to be time limited, using rapid cycle testing to gather data and gain confidence quickly in the efficacy of a change before scaling up. The timeframe for completion of testing and scaling up will vary depending on the complexity of the change and the confidence in the results gathered. [This article](#) shows how a clinical team was able to scale up a change idea within one day for PPE ordering. By running their first test within 3 hours and testing at scale four hours later, they were confident to implement the process across the organisation the following day. Not all changes can be tested in such a short timescale, but many can. There are several examples of similar process improvement ideas within the CPA's current improvement project charters where testing has yet to begin. The use of rapid cycle testing should ensure that project teams progress towards their improvement aims quickly. Projects should be closed as aims are achieved to allow partners to move on to the next priority.
- 4.3 The CPA Improvement Programme 2021-2023 will be submitted to the CPA Board in September. It will signal the intention that the refreshed LOIP improvement projects will be prioritised to secure the achievement (not just initiation) of all 75 improvement aims over the course of the next two years.

5 CPA GOVERNANCE AND ACCOUNTABILITY

- 5.1 It is proposed that following approval of the refreshed LOIP by the CPA Board in July, there will be a review of the membership of the Outcome Improvement Groups. This will give partners the opportunity to refresh nominations for representation on the OIGs to ensure the right people are involved to lead and contribute to improvement projects. It will also give the Partnership the opportunity to consider whether any change is to be made to current Chairs and Vice Chairs.
- 5.2 A review of the CPA structure will also ensure the Partnership is satisfied that we are taking into account national requirements of partnerships. For example, the Scottish Government requires local employability partnerships to undertake self-evaluation and be embedded within CPP structures. At the moment the employability partnership for Aberdeen is reporting to Community Planning Aberdeen through the Aberdeen Prospers Outcome Improvement Group which is overseeing the self-evaluation and delivery of improvement actions.
- 5.3 The Children's Service Board, Alcohol and Drugs Partnership and Community Justice Group also take direction from the Scottish Government in the local leadership of national policy. Therefore, our structure needs to be able to cope with local and national demands. For example, a review of the National Strategy for Community Justice and the Outcomes, Performance and Improvement Framework has been announced to take place by November. This will have implications for our Community Justice Group.
- 5.4 A paper will be brought to the CPA Board in September 2021 to confirm any proposed changes to the CPA structure.

6 NEXT STEPS

6.1 The CPA Board is asked to note next steps.

Easy Read versions of LOIP and Locality Plans to be developed and cascaded to staff and communities	July 2021
Partners to update their respective strategic plans to align to the refreshed LOIP.	July 2021
Revised CPA Improvement Programme to ensure achievement of all LOIP improvement project aims over the next two year	September 2021
Review of CPA Governance and Accountability Structure	September 2021

6.2 Post July, the Community Planning Team will continue to work with the Joint Locality Planning Team and Place Planning Team to ensure congruence between the LOIP, evolving Locality Plans and Local Place Plans. This will involve putting in place arrangements for ongoing collaboration, communication and reporting between the Outcome Improvement Groups and Community Groups.

Recommendations for Action

It is recommended that the CPA Board:

- i) Approve the final draft LOIP presented at Appendix 1 and agree that Partners be asked to update their strategic plans to align to the refreshed LOIP;
- ii) Approve the proposal to introduce a new Anti Poverty Group to the CPA structure to lead on the delivery of new Stretch Outcome 1;
- iii) Consider the LOIP in conjunction with the draft Locality Plans (Item 2.2) which seek to connect the priority issues being tackled within the LOIP to community assets;
- iv) Approve the draft Development Plan at Appendix 2;
- v) Note the analysis included at Appendix 3; and
- vi) Agree next steps, specifically the production of easy read version of the LOIP.

Opportunities and Risks

The outcomes of poor health and wellbeing are inextricably linked to the wider determinants of public health that the Community Planning Partnership is seeking to improve through its stretch outcomes 1-15. The locality plans help direct resources to the people and communities in greatest need of support across a range of outcomes. They underpin the Aberdeen City Local Outcome Improvement Plan and Aberdeen City Health and Social Care Strategy, as well as other Partner strategies. Most importantly, they enable stronger collaboration between community groups and public services to pull resources, assets and skills to achieve shared priority outcomes.

Consultation

CPA Management Group
CPA Outcome Improvement Groups
CPA Lead Contacts Group
CPA Stakeholders attending thematic consultation sessions
ACC Strategy Board
Members of the public through the online simulator during March 2021 and the public consultation on the LOIP during June 2021

FOREWORD

**Chair of Community Planning Aberdeen Board
Co-Leader of Aberdeen City Council**

**Vice Chair of Community Planning Aberdeen Board
Divisional Commander, Police Scotland**

A place where all people can prosper – that remains our collective vision for Aberdeen. Regardless of their background or circumstance, everyone in our great city should enjoy the same opportunities to flourish as an individual. The Local Outcome Improvement Plan (LOIP) sets out the means for achieving this. Launched in 2016, the 10-year plan is led by Community Planning Aberdeen in partnership with local people, communities and other organisations.

The arrival of the Covid-19 pandemic just over a year ago impacted the wellbeing of our people and place as never before, amplifying the link between poverty and ill health. At a local level, our response brought into sharp focus the value of partnership working and reaffirmed the essential rightness of the LOIP and its tenets. We are enormously proud to report that 80,000 people volunteered to assist in Aberdeen when communities needed our help most. A huge amount of work had already been done across the partnership to take forward LOIP projects, and this positioned us well for the pandemic. Ensuring Aberdeen’s continued economic, health and social recovery is the focus of this refreshed LOIP for 2021.

Let us consider some of the challenges and our response.

The pandemic is expected to push more people into immediate poverty. A new stretch outcome -- ‘No one will suffer due to poverty by 2026’ -- has been introduced to signal our determination to tackle this by giving people across the city access to food, fuel, shelter, employment, and finance.

Between March and November 2020, the number of unemployment claimants more than doubled in Aberdeen, hitting those with no qualifications or workplace experience the hardest. There was a similar increase in the number of people on Universal Credit. That's why we are working with employers to teach skills and map out career paths, so those most vulnerable to redundancy and unemployment, both young and old, can find meaningful work with a good living wage.

There has been evidence of a significant rise in the number of people experiencing mental health problems during Covid, with some of the most affected being children and young people as well as older people and others with protected characteristics. In addition, lockdown restrictions have impacted developmental milestones for very young children. We have nine stretch outcomes within the LOIP which will see us take forward projects in direct support of children, young people, families, and vulnerable people facing such difficulties. Covid-19 is not the only global threat. The risk from climate change has not gone away during the pandemic.

In the last year, cities and regions across the UK have undergone radical changes to our way of living and working, helping with a temporary reduction in carbon emissions. We recognise the need to continue to be progressive in our approach to delivering services and to accelerate ongoing efforts to reduce emissions. How we travel, shop, heat our buildings, and our relationship with our place of work all provide us with opportunities to promote healthy lifestyles and make communities more self-sustaining. Giving citizens ready access to schools, amenities and employment could liberate them in new ways.

Economic and environmental success must be translated into social success – lifting people out of poverty, offering equal opportunities for everyone to prosper, giving them reason to believe in the future.

The LOIP refresh, along with our new Locality Plans, marks a maturing of how we are all working together to make life better for everyone, so that no one is left behind in this city we call home. Through the LOIP, we are reaching out to our people, communities and businesses to harness their intellectual talent and resourcefulness. The world has changed but our core purpose has not: putting people and place first by considering welfare in the widest possible sense. The LOIP is the very embodiment of that approach.

THE ABERDEEN CONTEXT

Like all areas of Scotland, public services in Aberdeen are facing increasing demand with reducing resources. In order to understand how best to prioritise our shared resources, we need clarity on the current and future needs of local people in Aberdeen. Our approach to Population Needs Assessment ensures we systematically analyse data across a broad range of indicators to identify the major issues facing the City. The following paragraphs provide a summary of findings from the most recent data available as of January 2021.

Our Economy

Pre-Covid-19 data suggests that Aberdeen remains a competitive and productive city with GVA (Gross Value Added) per head in Aberdeen City and Aberdeenshire being among the highest in Scotland. Following a drop between 2015 and 2018, the number of growth sector enterprises in Aberdeen City increased between 2018 and 2019 to 4,860 and the number of people employed in these enterprises increased from 60,980 to 62,890. The proportion of our working-age population who are economically active is higher than the Scottish average (79% compared to 77.5%), as is the proportion of our workforce who are qualified to NVQ4 and above (52% compared to 44%). In 2019 there were 1,150 new businesses in Aberdeen. However, the total number of enterprises in the City decreased slightly from 8,800 in 2019 to 8,690 in 2020 and the average weekly wage (median gross) for people living in Aberdeen City decreased from £599.50 in 2019 to £592.50 in 2020 and is now lower than the average for Scotland.

Data from SIMD 2020 suggests that overall, Aberdeen remains a relatively affluent city with 36.7% of Aberdeen's data zones being in the 20% least deprived areas of Scotland. However, there remain areas of deprivation with 10.2% of Aberdeen's data zones being in the 20% most deprived areas of Scotland – an increase from 8% in SIMD 2016. And it is estimated that 21.5% of children in Aberdeen City are living in poverty (below 60% of median income after housing costs).

While the full impact of Covid-19 on our economy is not yet clear, it is likely that many aspects of our local economy will be affected, with some sectors more likely to be impacted than others e.g. accommodation and food, arts, retail, entertainment and recreation. Many of the lowest paid employees, particularly young people, work in these sectors and are therefore most likely to feel the effects. While the furlough scheme is likely to have helped reduce unemployment in the short term, there was still a significant increase in the number of people claiming unemployment benefits (Claimant Count) which increased by 128% between March and November. The Covid-19 pandemic is also likely to have pushed more people into poverty and financial insecurity, with those who were already disadvantaged being most likely to experience the negative effects. In Aberdeen, the number of people claiming Universal Credit increased by 124% between March and November 2020. The rise in food insecurity seen prior to the pandemic is also likely to have worsened with 91% of food assistance calls to the COVID-19 crisis line resulting from unavailable funds.

Our People (Children and Young People)

In 2019 there were 35,423 children (0-15 years) in Aberdeen City – this equates to 15.5% of the City's total population which is slightly lower than the Scottish figure of 17.1%. In 2019 there were 13,915 primary school pupils and 9,106 secondary school pupils in Aberdeen City. There were also 135 pupils enrolled in Special Schools.

In July 2019 there were 542 Care experienced children and young people (CECYP) in Aberdeen City – equivalent to 1.4% of the 0-17 years population which is the same rate as Scotland. Foster care is the most common setting for looked after children in Aberdeen City. At 36%, the proportion of looked after children in kinship care (at home with parents or with friends/relatives) is lower in Aberdeen City than in Scotland (54.2%). While improved, as in Scotland the attainment outcomes for CECYP are still lower than those for all pupils. In 2018/19 82.4% of looked after children in Aberdeen City left school with 1 or more qualification at SCQF level 4 compared to 94.5% for all pupils. Similarly, 76% were in a positive destination (follow-up) compared to 93.2% for all pupils. The percentage of school leavers (all pupils) in a positive follow-up destination varied by deprivation (based on SIMD) with 88.1% of school leavers in the most deprived quintile having a positive destination compared to 97.5% of those in the least deprived quintile. The number of children on the Child Protection Register increased from 68 in 2018 to 119 in 2019.

Data from the Scottish Schools Adolescent Lifestyle and Substance Use Survey (SALSUS) 2018 suggests that the number of pupils who smoke, drink alcohol or have used drugs has increased since the previous survey in 2013. The survey also suggests an increase in emotional and behavioural problems and a decrease in mental wellbeing. There is concern that the COVID-19 pandemic will have a negative impact on the mental health of children and young people. In Grampian there was a 280% increase in the number of children and young people referred to the NHS Grampian CAMHS Eating Disorder specialist team between 2019 and 2020.

COVID-19 is also likely to negatively impact on our children and young people in other ways. One concern is that those who leave education over the next few years will be disadvantaged compared to those who left pre-COVID-19, with particular groups likely to be more impacted than others. These include those who are disabled, girls, those living in poverty, those who are BAME and Care Experienced Children and Young People. Concerns have also been raised about the detrimental impact that restrictions imposed as a result of COVID-19 will have on the development of very young children.

Our People (Adults)

Following 3 years of decreases, the population of Aberdeen increased from 227,560 in 2018 to 228,670 in 2019. Between 2018 and 2028 the population of Aberdeen is projected to increase by 1.1% to 230,170. Most of this increase in Aberdeen City is projected to come from migration (1%). However, the projected increase is not consistent across all age groups with decreases projected in those aged 0-15 years (-3.2%), 25-44 years (-2.1%) and 45-64 years (-2.6%). The number of people aged 75 years and over is projected to increase by 16.1%.

Aberdeen has a relatively young population. Compared to Scotland the proportion of working-age people is higher (69.1% compared to 64.5%) and the median age is lower (38 years compared to 43.4 years). We have a diverse city with an estimated 24.7% of the City's population having been born outside of the UK compared to 9.8% for Scotland. Of those, it is estimated that 41.1% are from EU countries and 58.9% from non-EU countries (compared to 50% for both groups in the year to end December 2019).

Estimated life expectancy at birth in Aberdeen is broadly in line with Scottish averages at 81.4 years for females and 77.1 years for males (81.1 years 77.2 years respectively for Scotland). However, as in Scotland, life expectancy is strongly associated with deprivation, with those in the most deprived areas having a lower life expectancy than those in the least deprived areas. The difference in estimated life expectancy between most and least deprived SIMD quintiles is 10.3 years for males and 7.3 years for females. Healthy life expectancy (HLE) measures years lived in good health. While life expectancy has remained broadly stable, HLE has decreased for both males and females, from 68.2 years in 2013-15 to 62.5 years in 2017-19 for females and from 64 years to 60.6 years for males.

Pre-COVID-19 data shows a mixed picture in relation to health behaviours. Positive signs are lower than average rates of smoking during pregnancy and higher than average rates of active travel and physical activity. Rates of obesity (BMI of 30+) and smoking have also decreased. At 25%, the rate of adults drinking above the guideline recommendations of 14 units per week has also decreased but is still slightly higher than the rate for Scotland of 24%. There were 44 drug-related deaths in 2019 and at 0.21 per 1,000 population, Aberdeen has the 7th highest average annual rate of drug deaths of all local authorities in Scotland. In 2019/20 16.6% of people in Aberdeen City were prescribed drugs for anxiety, depression or psychosis. While lower than the national rate (19.7%), consistent with trends in Scotland the proportion of people receiving prescriptions for these conditions has increased significantly in recent years (from 13% in 2010/11). In 2019 there were 25 probable suicides in Aberdeen City (20 male and 5 female).

There is concern that COVID-19 will have a detrimental impact on both health behaviours and mental health – increasing levels of drug and alcohol misuse and increasing the number of people experiencing mental health problems.

Our Place

Aberdeen has the 8th largest local authority population in Scotland. The city is made up of 37 neighbourhoods, 13 of which are recognised as deprived based on Scottish Index of Deprivation (SIMD 2020).

Aberdeen has a high number of volunteers - in response to COVID-19, over 7,000 volunteers were recruited between March and July 2020 in addition to the 80,000 people already assisting volunteering in Aberdeen.

There is also a relatively high level of interest in being involved in community activities. In City Voice 44 (March 2020), 55.8% of respondents reported that they would like to be involved in decisions which affect their community however only 26% of respondents indicated that they felt they knew how to get involved.

Since 2016/17, rates for all crimes and offences have decreased with the exception of non-sexual crimes of violence which increased from 17.4 per 10,000 population to 22.4 in 2019/20.

Recorded incidents of domestic abuse increased from 2,486 in 2018/19 to 2,528 in 2019/20. The rate of accidental dwelling fires is higher in Aberdeen than Scotland (214.2 per 100,000 dwellings compared to 165.6) and, while the total number of road traffic accident casualties has decreased in recent years, the number of people with serious injuries increased from 34 in 2017 to 51 in 2019.

There is a national and local commitment to meet the target of Net Zero Emissions by 2045. Since 2005, CO2 emissions in Aberdeen have fallen by 35% to 1,210 kt in 2018, and per capita emissions have fallen from 9 tonnes to 5.3 tonnes. The amount of household waste generated has decreased each year since 2016 and the amount of household waste going to landfill has fallen from 58,021 tonnes to 15,005 tonnes – a reduction of 74%. The carbon impact of household waste has fallen from 253,014 tonnes CO2e in 2016 to 180,260 tonnes CO2e in 2019. Active travel can also play a part in reducing emissions. Pre-COVID data shows that the proportion of people using active travel (walking or cycling) to get to work or education fell from 26.1% in 2016/17 to 20.6% in 2017/18. While walking and cycling for recreation increased as a result of COVID-19 restrictions, it is not known whether these habits will be retained in the longer term. However, climate change is being experienced now across Aberdeen with changes to local rainfall and weather patterns. Based on the most recent SEPA Flood Risk Management Strategy, four areas in Aberdeen have been identified as potentially vulnerable to flooding – Deeside, Peterculter, Bridge of Don and Denmore. In 2016, the total annual average damages due to flooding was estimated at £17,370,000, which is equivalent to 80% of annual average damages for the North East Local Plan area.

Greenspace is important for a range of reasons, including health and well-being, economic benefit and environmental protection. While Aberdeen has a diverse mix of greenspaces for people and wildlife, the types, quantities, quality and accessibility of these are not evenly distributed across the City. In March 2020, 65% of City Voice respondents reported that they were satisfied with their local green space. This is down from 2019 when 71% reported that they were satisfied.

The Partnership's response to these challenges is set out in this Local Outcome Improvement Plan which details the improvement activity the Partnership will prioritise and resource to effect change.

Values Simulator

In March 2021, Community Planning Aberdeen carried out an online exercise to gain an understanding of the issues which are most important to the citizens of Aberdeen. 2,642 people from across the City took part in the Simulator exercise. Participants were asked to consider 26 projects and allocate points based on their importance to the participant. They also had the opportunity to give comments and ideas.

The data gathered from the simulator has been considered alongside the Population Needs Assessment in making decisions about which improvement projects are prioritised in the new Local Outcome Improvement Plan.

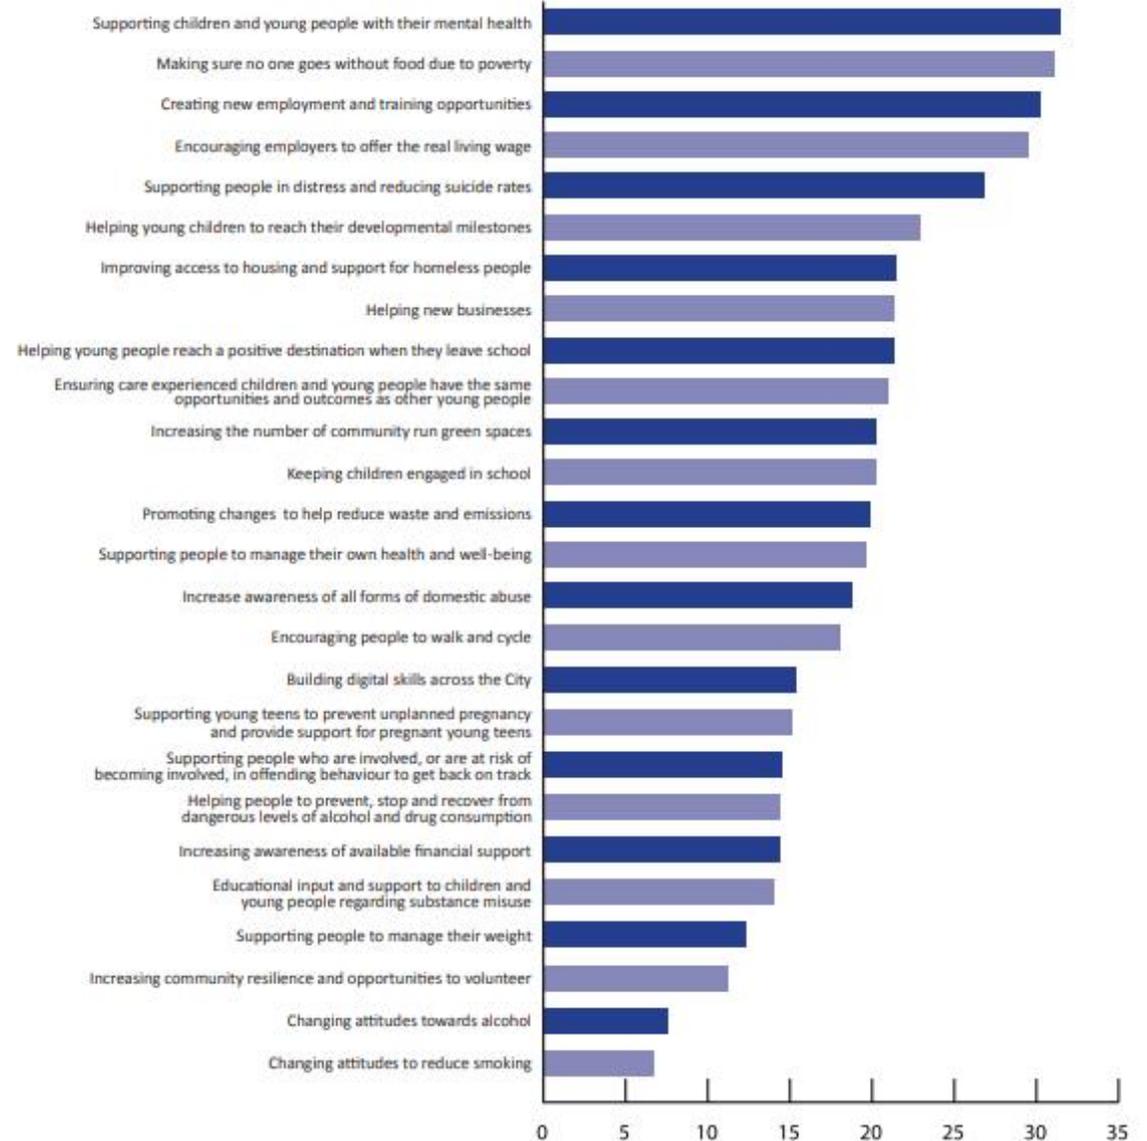

The five highest ranking projects were:

1. Supporting children and young people with their mental health (31.5)
2. Making sure no-one goes without food due to poverty (31.1)
3. Creating new employment and training opportunities (30.3)
4. Encouraging employers to offer the real living wage (29.5)
5. Supporting people in distress and reducing suicide rates (26.8)

A total of 761 comments were given by participants. The main themes which emerged from the comments were:

- People
- Spaces
- Wage
- Health
- Support

See below the chart showing the mean score received for all projects:

OUR VISION FOR ABERDEEN CITY

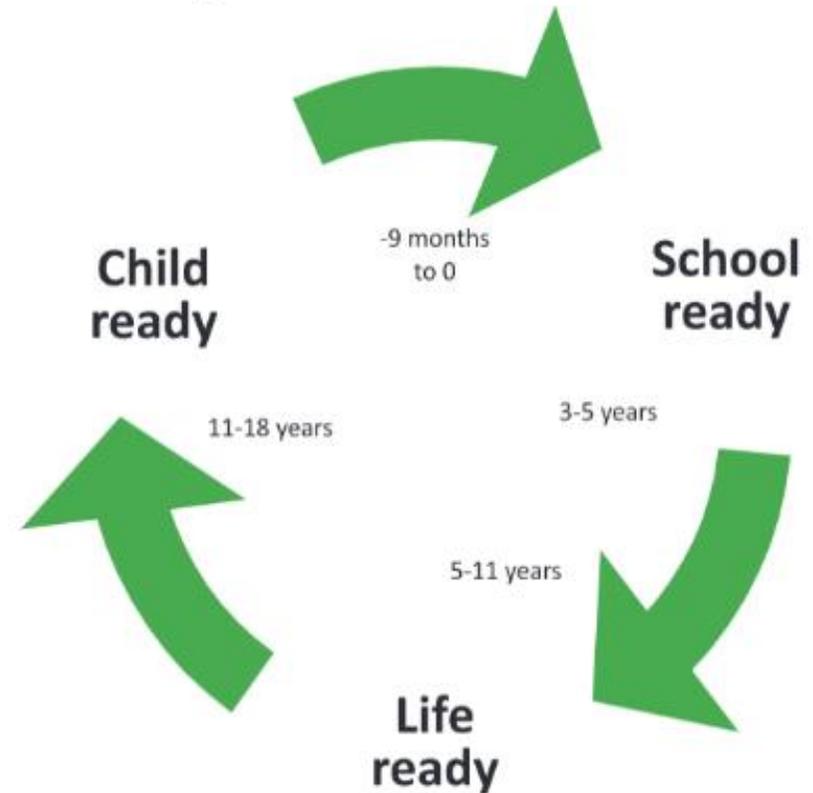

'A place where all people can prosper'

Our vision for 2026 is Aberdeen as a place where all people can prosper. This means all people being able to access the opportunities available in our great City, regardless of their background or circumstances. This reflects our desire to help all people, families, businesses and communities to do well, succeed and flourish in every aspect. To achieve this vision we are committed to tackling the issues that exist in our society which prevent equal opportunity for all to lead a happy and fulfilling life.

Despite the relative prosperity that Aberdeen has enjoyed compared to other areas of Scotland, there are problems faced by our City which have endured for decades and have been stubbornly resistant to improvement. Our evidence confirms what we already know; that inequalities in health, education and employment opportunities continue to exist in some communities and that this is most acute for those families living under the grip of poverty.

Through early intervention and prevention, we aim to create the conditions for prosperity and support future generations to be prepared and made **ready for school, for work, for adulthood** and for life itself – see diagram 1. This calls for attention to be paid to care experienced children, young offenders, children of offenders and those living in poverty - because their levels of risk are very much higher than those of other children and young people of their age.

Diagram 1 – Whole life approach

No single sector or profession can improve outcomes for people and place alone, collaborative efforts across the Community Planning Partnership are key to achieving our ambitions the City of Aberdeen.

We also understand that real transformation will come from acting beyond the walls of our public service organisations and infrastructures and thinking about Aberdeen as a **'City of Learning'**.

Becoming a **City of Learning** means capitalising on the vast opportunities, resources and potential for enabling people to learn and develop themselves in ways that meet their needs, interests and ambitions. In this way they can participate more fully in their own lives and in the life of the City to help their families and communities prosper. This approach builds on the pioneering work of the Learning Cities in the USA and the UNESCO Global Network of Learning Cities movement. It recognises the lifelong opportunity that exists for people to learn to address gaps in their opportunity, achievement and/ or skills – see diagram 2.

Diagram 2 – Lifelong learning approach

How will we know we are making a difference?

Setting out a vision for how we want things to be in the future is the easy part. Believing that it is possible and making it happen is entirely different.

This plan sets out the many improvement projects we will take forward to achieve our vision as a place where all people can prosper.

Our ultimate measures of success in achieving this vision will be that by 2026:

We still have the **highest** GVA (Gross Value Added) per head in Scotland

Fewer than 10% of our children are living in poverty

We are living in good health for **at least five** years longer

Our carbon emissions are **61% lower**

How will we make it happen?

Our 15 Stretch Outcomes break down our overall vision for the People, Place and Economy of Aberdeen into manageable thematic programmes of work. In taking a structured approach to improvement we are very clear about what it is we are trying to accomplish, how we will know whether a change is an improvement and what changes we will make to secure this improvement. These stretch outcomes tackle poverty as they manifest at every stage of a person’s life journey. The following chapters in this document include the detailed improvement projects we will take forward to achieve these stretch outcomes.

OUR 15 STRETCH OUTCOMES

ECONOMY	PEOPLE (Children & young people)	PEOPLE (Adults)	PLACE
<p>1. No one will suffer due to poverty by 2026.</p> <p>2. 400 unemployed Aberdeen City residents supported into Fair Work by 2026.</p> <p>3. 500 Aberdeen City residents upskilled/ reskilled to enable them to move into, within and between economic opportunities as they arise by 2026.</p>	<p>4. 95% of children (0-5 years) will reach their expected developmental milestones by the time of their child health reviews by 2026.</p> <p>5. 90% of Children and young people will report that their experiences of mental health and wellbeing have been listened to by 2026.</p> <p>6. As corporate parents we will ensure 95% of care experienced children and young people will have the same levels of attainment in education, health and emotional wellbeing, and positive destinations as their peers by 2026.</p> <p>7. 95% of children living in our priority localities will sustain a positive destination upon leaving school by 2026.</p> <p>8. Child friendly city where all decisions which impact on children and young people are informed by them by 2026.</p> <p>9. 30% fewer young people (under 18) charged with an offence by 2026.</p>	<p>10. 25% fewer people receiving a first ever Court conviction and 2% fewer people reconvicted within one year by 2026.</p> <p>11. Healthy life expectancy (time lived in good health) is five years longer by 2026.</p> <p>12. Rate of harmful levels of alcohol consumption reduced by 4% and drug related deaths lower than Scotland by 2026.</p>	<p>13. Addressing climate change by reducing Aberdeen's carbon emissions by at least 61% by 2026 and adapting to the impacts of our changing climate</p> <p>14. Increase sustainable travel: 38% of people walking and 5% of people cycling as main mode of travel by 2026</p> <p>15. Addressing the nature crisis by protecting/ managing 26% of Aberdeen’s area for nature by 2026.</p>

PROSPEROUS ECONOMY

PreCovid-19, long-term economic performance of the City Region remained significantly above the Scottish and UK averages despite a downturn in, and the challenge of transition from, oil and gas. Since Covid-19 struck, Aberdeen City is projected to be the 5th worst affected area in Scotland for economic downturn and 3rd worst for potential job losses. It is also likely to have pushed more people into poverty and financial insecurity, with those who were already disadvantaged being most likely to experience the negative effects.

POPULATION NEEDS ASSESSMENT DATA:

This is likely to contribute to greater levels of poverty, inequality and associated vulnerabilities and is expected to push more people into immediate and acute poverty. Throughout the pandemic, we have seen a significant increase in the requirement for support with food provision with many of those requests for emergency food provision coming from people who had never used a food bank previously. To mitigate the causes of immediate and acute poverty we will focus on projects which will ensure all people across the City have access to food, fuel, shelter and finance. Our plans will focus on continuing to harness the capabilities of our individuals and communities and include developing skills in cooking, budget management and employability.

Many key aspects of the local economy, from tourism through to oil and gas, have been badly impacted and the City saw a 128% rise in unemployment claimants between March and November 2020. The pandemic, combined with Brexit, may also see significant changes in economic behaviours such as online retail and trends towards supply chain onshoring providing both opportunities and risks to local economies. The key conclusion of the Economic Policy Panel was that, notwithstanding the shock of the pandemic, the city has strong economic foundations and should maintain its focus on repositioning for the long-term including investment in key infrastructure and a focus on skills, energy transition, and economic diversification. The Panel highlights that although the Covid-19 pandemic is a major challenge for the Aberdeen Region, the longer-term issues remain relevant.

We will contribute to the inclusive economic growth agenda in the city and to support the city in overcoming the significant impacts of Covid-19 that are being experienced by our localities and priority neighbourhoods, as well as responding to implications from Brexit. The consequences of Covid-19 are continuing to emerge and we will continue to monitor the situation and will retain sufficient flexibility and agility in its improvement planning to accommodate actions to mitigate both Covid-19 and Brexit consequences, where possible.

A primary focus will be on creating new sustained fair work opportunities for unemployed residents, in particular those groups most affected by Covid-19. Labour Market Indicators show that the employment rate for Aberdeen City between October 2019 and September 2020 was 73.9% of the working aged population, down from 78.6% from July 2019 to June 2020 (Aberdeen City Council Economic Bulletin, January 2021). Business creation is key to both developing new employment opportunities and to diversifying the economy. Aberdeen Prospers is committed to improvement activity around providing the correct support for those wishing to start or expand their own business.

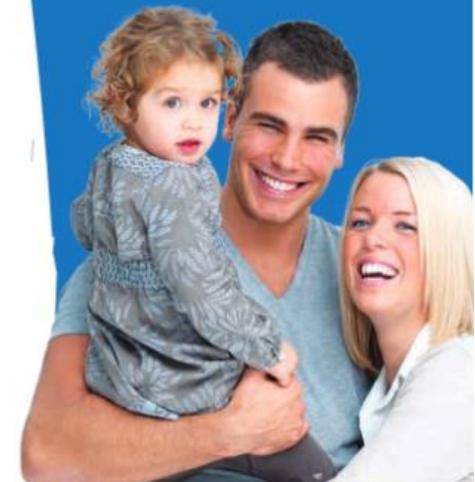

Also vital to diversifying the economy is the retention of the talent and transferable skills that currently exist within our businesses and educational institutions, as well as the creation of opportunities for upskilling/reskilling so that residents are able to move into, within and between economic opportunities that become available. Working in partnership, will be critical to achieving our ambitions in this area.

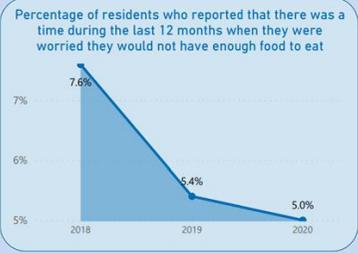

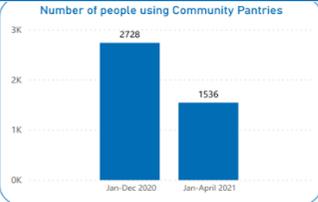

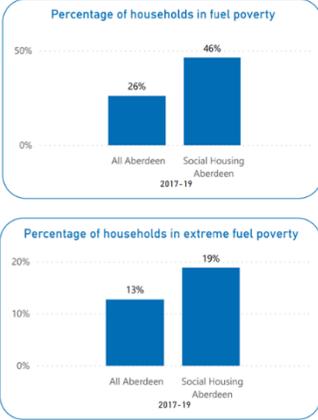

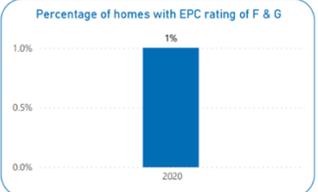

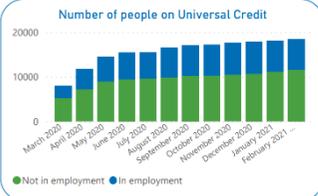

STRETCH OUTCOMES

1. No one will suffer due to poverty by 2026
2. 400 unemployed Aberdeen City residents supported into [Fair Work](#) by 2026
3. 500 Aberdeen City residents upskilled/ reskilled to enable them to move into, within and between economic opportunities as they arise by 2026

PROSPEROUS PEOPLE (CHILDREN & YOUNG PEOPLE)

The COVID pandemic has had a substantial impact on our children, young people, and their families. In turn the services we provide and the way that we deliver them has fundamentally changed. The priorities we identified when this LOIP was first published have become more pertinent because of the pandemic. Impacting the economy, the opportunities available to our young people and their families. It has also affected their mental wellbeing and made the needs of our more vulnerable young people and the inequalities they face become even more apparent. Entering this phase of our refreshed LOIP we do so in the context of significant legislative and policy change. The Scottish Government is prioritising putting children’s rights at the very heart of all services delivered to children and families. Publication of the Independent Care Review (February 2020) and the Additional Support for Learning Review (June 2020) recognises that we are not delivering the change required in outcomes for our more vulnerable young people and that “tweaking” systems and provision is not sufficient, we need a different starting point for all our children and their support needs.

Our Children’s Services Plan 2020-2023 also reinforces our commitment to these changes, our commitment to

POPULATION NEEDS ASSESSMENT DATA:

the priorities in this LOIP and our ambition to support every child, irrespective of their circumstances, to grow, develop and reach their full potential. We want Aberdeen to be a city where there is equality of outcomes and opportunities for all our children and young people and that children's circumstances and aspirations are not limited by their background or current environment. This drives the Partnership to collaborate to maximise the long-term outcomes of those who need extra care and protection. Our stretch outcomes reflect the importance of supporting equity of access to education, supporting families to provide the best care they can for their children and the need to invest in the health, including mental health, of our children and young people. Critically we want our children to be safe and protected from harm. This agenda will be driven forward by the Child Protection Committee which works in parallel with the Children's Services Board ensuring improvement activity is aligned.

We will support our care experienced young people to gain the same opportunities as their peers. Supporting them and other children at risk, such as children with disabilities, we will address inequality in education and positive destinations. Our work with young people to reduce their involvement in offending behaviour will be through appropriate and effective interventions aimed at supporting them to more positive destinations.

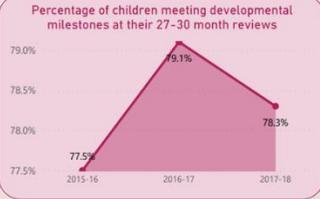

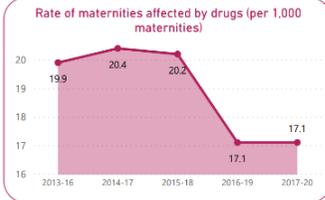

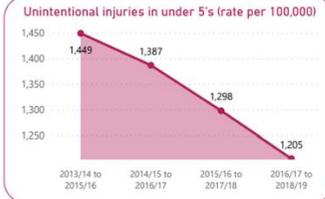

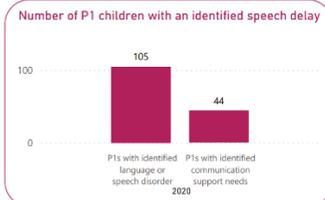

STRETCH OUTCOMES

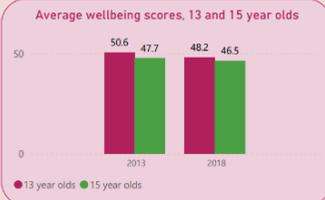

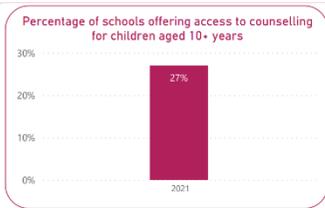

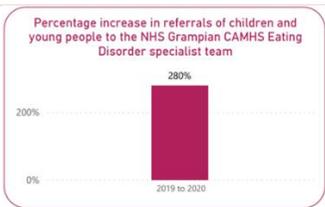

4. 95% of children (0-5 years) will reach their expected developmental milestones by the time of their child health reviews by 2026.
5. 90% of Children and young people will report that their experiences of mental health and wellbeing have been listened to by 2026. This is reflected in interactions, activities, supports and services.
6. As corporate parents we will ensure 95% of care experienced children and young people will have the same levels of attainment in education, health and emotional wellbeing, and positive destinations as their peers by 2026.
7. 95% of children living in our priority neighbourhoods will sustain a positive destination upon leaving school by 2026.
8. Child friendly city where all decisions which impact on children and young people are informed by them by 2026.
9. 30% fewer young people (under 18) charged with an offence by 2026.

PROSPEROUS PEOPLE (ADULTS)

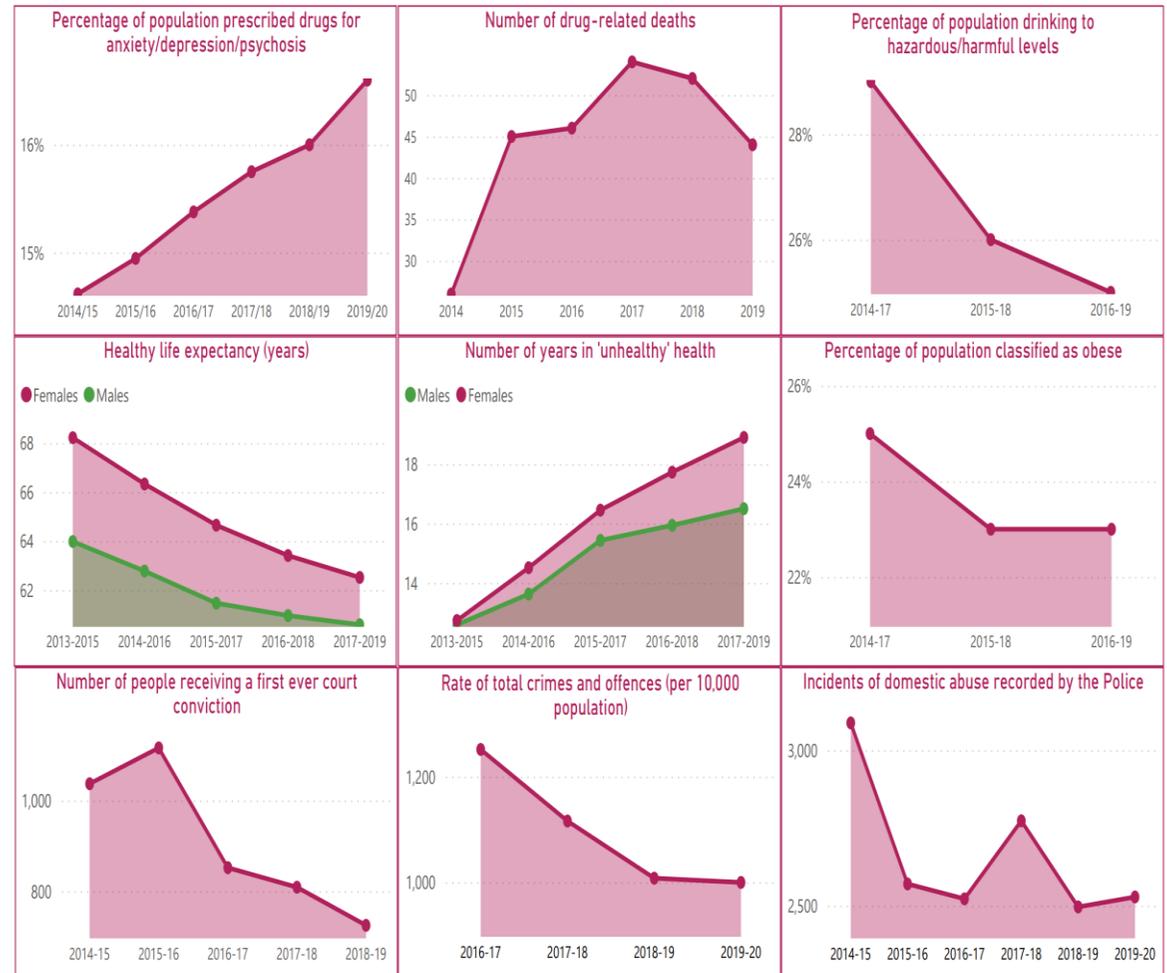

The impact of the pandemic has been, and will continue to be, felt unequally. Those experiencing inequality and vulnerabilities are more likely to suffer the greatest negative social, economic and health impacts. Some aspects of inequality have been directly impacted by the pandemic as a result of:- higher rates of underlying ill-health; reduced treatment and diagnosis of chronic conditions; higher exposure to infections of key workers; higher population density, houses in multiple occupation and less access to open space; the effect of social isolation and confinement on physical and mental health. Previous economic shocks, such as the global financial crisis of 2008, have also led to unequal impacts on physical and mental ill health, suicide and death from alcohol and substance use.

Mitigating the impacts of the pandemic on our citizens and communities, as well as the inequalities currently experienced can only be achieved by us working together in partnership and through targeting improvement activity at vulnerable and disadvantaged people, families, and groups.

To improve outcomes for people we are focussing on early intervention, prevention and self-management. The key causes of preventable ill health should be tackled at an early stage and we are adopting a whole family approach in order to create a culture in which healthy behaviours are the norm starting with the early years and persisting throughout our lives. To support this approach we are focused on providing all individuals and communities with the social

POPULATION NEEDS ASSESSMENT DATA:

resources needed to make informed decisions about health and lifestyle, however we recognise that information won't work alone and we need to ensure the right environment is also available to facilitate and support people to make the right behavioural choices. For example living with food insecurity makes it more difficult to manage a range of conditions such as diabetes and other conditions that require careful monitoring of and management of diet and medication regimes and we need to support access to affordable and healthy food to mitigate this. We have also seen with Covid-19, the important role, and benefits from volunteering with over 7,000 volunteers recruited in the early stages of the pandemic, in addition to the 80,000 people assisting volunteering in Aberdeen, and this is an opportunity we are sustaining and building on.

All people in Aberdeen are entitled to live within our community in a manner in which they feel safe and protected from harm, supported when necessary and fully included in the life of the city. People sometimes need others to support their achievement of a full, active, safe citizenship. Through our partnership working, we are seeing a reduction in the number of people receiving a first ever court conviction and we are committed to continue to reduce the number of people and communities affected or harmed by crime through an early intervention approach to offending through preventative aims.

We also recognise that we need to support people who have offended, to turn their behaviour around and become contributors to society. Research shows that maintaining and building upon protective factors such as access to housing, healthcare, employability, financial stability and professional support, such as intervention and access to drug and alcohol support, assists in reducing repeat offending and a return to custody, with all of the associated financial and human costs. We are focussed on providing interventions and opportunities for engagement on the issues which are contributing to reoffending behaviour. Our plans also take targeted interventions to reduce the impact of crime on communities, such as hate crimes where in 2019/20 we saw a 32% increase, and taking a whole population approach to changing attitudes to domestic abuse, where resulting from Covid-19 and the impact on access to support services there have been concerns about a rise in domestic violence.

STRETCH OUTCOMES

10. 25% fewer people receiving a first ever Court conviction and 2% fewer people reconvicted within one year by 2026.
11. Healthy life expectancy (time lived in good health) is five years longer by 2026.
12. Rate of harmful levels of alcohol consumption reduced by 4% and drug related deaths lower than Scotland by 2026.

PROSPEROUS PLACE

The place where we live significantly influences the ability of individuals and communities to live in healthy, sustainable ways. Our environment is therefore integral to the quality of life enjoyed in Aberdeen City and is vital in encouraging the wellbeing of our citizens. We recognize that working to end poverty and other deprivations must go hand-in-hand with strategies that improve health and reduce inequality. Therefore, while framing our response to these challenges, we have aligned our aims with the United Nations Sustainable Development Goals which share our vision to create prosperity for people now and into the future.

PreCovid-19, the city's CO2 emissions had fallen over the last 15 years and there is a national and local commitment to meet the target of Net Zero Emissions by 2045 and there is a need for rapid and far reaching change to reach this target. Resulting from Covid-19, we recognise that our city centres, office space and traditional retail, are likely to look different, and future communities will require to be better connected, efficient and self-sustaining with low energy demands and different public and green spaces; promoting healthy community lifestyles and active travel; be places where people can live, work, learn and play without relying on private transport and designed so that residents can access schools, shops, employment and leisure opportunities within walking distance of their home.

POPULATION NEEDS ASSESSMENT DATA:

Our plans to support green economic and environmental recovery, focus on waste management and increasing recycling and use of reusable products; as well as harnessing the levels of community volunteering and collective ownership seen throughout the pandemic to further build community resilience to respond to social and environmental challenges such as flooding, rebuilding nature, and increasing local food growing. A key priority is also increasing sustainable travel and sustaining the increase in walking and cycling we've seen as a result of the pandemic.

It is for the reasons above and below that our aims, as well as aligning to United Nations Sustainable Development Goals, also align to the commitments of the Glasgow Food and Climate Declaration and the Edinburgh 'Biodiversity' Declaration. Together these publicly acknowledge the scale of these interconnected challenges, calls for stronger action and the global and national levels and makes commitments to see these addressed through local strategies, policies, plans and actions.

Covid-19 has made many people realise the value of nature to them on a daily basis and reconfirmed that nature underpins almost everything that humanity depends on, from our clean air and water, to our food and raw materials, to our medicines and nurturing our mental and physical health. Nature loss and degradation is now the second biggest global challenge facing humanity, alongside Climate Change. Aberdeen, with its diverse and globally important landscapes, habitats and species, has as much of a role to play. We have had some successes with species reintroductions and have won several awards for our work on nature-based solutions to water management, e.g. Seaton Park Wetland, but we recognise we need to do more. Ultimately, we need to create and manage more land for people and nature, not just for people at the exclusion of nature, but also for our sustaining our health and wellbeing. As such we have added a new Stretch Outcome focussed on addressing the nature crisis while increasing the quality of our open spaces by groups and organisations to manage more land for people and nature. To build back the integrity of nature, this requires an essential interconnected approach from all stakeholders, a single landowner approach will not deliver the outcomes required. We need to work in partnership with all landowners to achieve a balance of more nature friendly and natural spaces with green space that is safe and accessible for people to enjoy.

STRETCH OUTCOMES

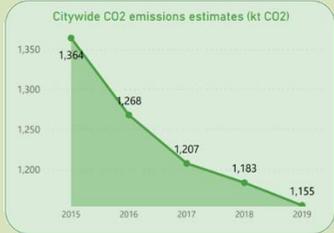

13. Addressing climate change by reducing Aberdeen's carbon emissions by at least 61% by 2026 and adapting to the impacts of our changing climate.
14. Increase sustainable travel: 38% of people walking and 5% of people cycling as main mode of travel by 2026.
15. Addressing the nature crisis by protecting/ managing 26% of Aberdeen's area for nature by 2026.

HOW WE WILL ACHIEVE OUR OUTCOMES?

By Working Together

Demand for our services are increasing throughout the city, this continues to stretch the public sector, meaning that much provision is diverted to crisis response. It is difficult therefore as individual organisation to provide **early intervention and prevention**.

This is an issue that we all share and the LOIP represents an opportunity for greater joint effort, in order to work towards **early intervention and prevention**; working in partnership we can better help each other to improve outcomes for our citizens. For example, we can develop shared, whole and targeted population campaigns on issues within the LOIP to bolster our improvement efforts. This **whole systems approach** to our **shared leadership** and increasingly closer delivery means that we can capitalise on the knowledge, skills and tools used across the workforce and communities to meet the needs of changing circumstances.

We already have a shared approach to Quality Improvement which is being used by our multi-agency Outcome Improvement Groups to take forward the LOIP improvement projects. We will encourage further **learning and working together** to continue to build a shared approach to delivering real improvement.

We will work across the CPA to build a shared intelligence unit, bringing together our understanding of the needs and data across partners. This will also involve sharing our data, understanding the full picture of our population, analysing and understanding demand more fully. Through regular review and scrutiny we will be able to quickly determine and adapt our services and solutions as we progress to meet changing need.

It is essential to the future of the city that our workforce and citizens have the skills to thrive, can **exploit digital technologies** and can interact using modern tools and platforms in order to ensure that we can more effectively redirect our resources. Our data will become an enabler, supporting and driving the re-design of customer focused services responding to evolving needs and the growing opportunities of digital technologies.

Achieving the ambition of our LOIP is going to require a movement to embed the LOIP across all partners. This will mean the LOIP running through individual partners planning and into individual team and staff objectives. This will be the judgement of real time and skills being deployed to deliver our shared strategy.

Community Planning Aberdeen is the only strategic forum where partners in Aberdeen are able to jointly plan how to deploy **collective resources** to achieve the agreed priorities set out in the Local Outcome Improvement Plan (LOIP). CPA continues to develop its approach to joint resourcing to ensure the LOIP is the focal point for the planning and deployment of resources

To fulfil the LOIP ambition we are going to need to marshal our forces and work together to focus on the right improvement projects. This is going to require a different approach to resource management and a greater sharing of **capability and capacity**.

By Working With Our Communities

Effective engagement with people and communities about how local services are planned and delivered will be integral to how we deliver our plan. Our **Community Empowerment, Engagement and Participation** Strategy ensures we are united in our approach to work with people to help them achieve their aspiration for their communities.

We are committed to becoming a **City of Learning** means capitalising on the vast opportunities, resources and potential for enabling people to learn and develop themselves in ways that meet their needs, interests and ambitions. In this way they can participate more fully in their own lives and in the life of the City to help their families and communities prosper.

It is by focussing on geographies and communities of interest most in need to build **community resilience** that we will achieve better outcomes across our whole city. Our improvement work will be targeted to support these communities initially so we can learn what works for our most vulnerable people before we scale up and spread across the City.

We already have made significant progress through our three priority localities. The focus on these areas will continue to be vital because of their levels of need as demonstrated in our **Population Needs Assessment**. What will be different is the way we wrap services around these areas and build even stronger and more resilient communities.

People can also face barriers because of their race, gender, age, disability, sexual orientation, religion or belief. In delivering this plan, the Partnership will seek to tackle inequality in the city and within individual communities in whatever form it manifests itself, through clear and coordinated approaches. This includes **tackling stigma** in all its forms by working in partnership to take forward behavioural campaigns and explore other ways of promoting positive change in people's attitudes. We need to do this in partnership with local media outlets.

By Working With the Private Sector

Greater opportunities for **Private Sector involvement** in the Local Outcome Improvement Plan will allow perspectives and experiences from this sector to be more widely utilised than they have perhaps previously. Whatever methods used to involve the private sector, the objectives for their involvement in Community Planning Partnerships should be mutually supporting - to ensure that businesses fully contribute to the well-being of local communities and, in turn, that the conditions exist for business to thrive and develop in that community thus benefiting the whole community.

OUR GOLDEN PYRAMID

Our golden pyramid depicts our determination to ensure that Community Planning Aberdeen works together as a whole to enable and empower local people, communities and partnerships to be the makers of their own improved outcomes.

Of topmost importance is the realisation of local partnerships forged by local people and local communities. We are committed to working with people in their 'places' – their homes, their streets and their neighborhoods to support them to plan, resource and deliver community led approaches which will deliver improved local outcomes at a community and city-wide level.

Each of the Community Planning Partners plan the delivery of their services in a range of ways. For example, by Police division, Council function, NHS Boards and Scottish Fire and Rescue Service hubs. As partners we accept these differences in delivery structures, but are united in our commitment to working together and with local people to achieve improved outcomes.

This Local Outcome Improvement Plan (LOIP) represents our ambitions city wide, but is very much grounded in the needs of our most disadvantaged communities. It is by working with these communities to take forward our improvement activity that we will learn how we can change, how we can improve and how we can scale up and spread what works. That is how we will make the difference in Aberdeen and achieve our vision of a Place where all people can indeed prosper.

GOVERNANCE & ACCOUNTABILITY

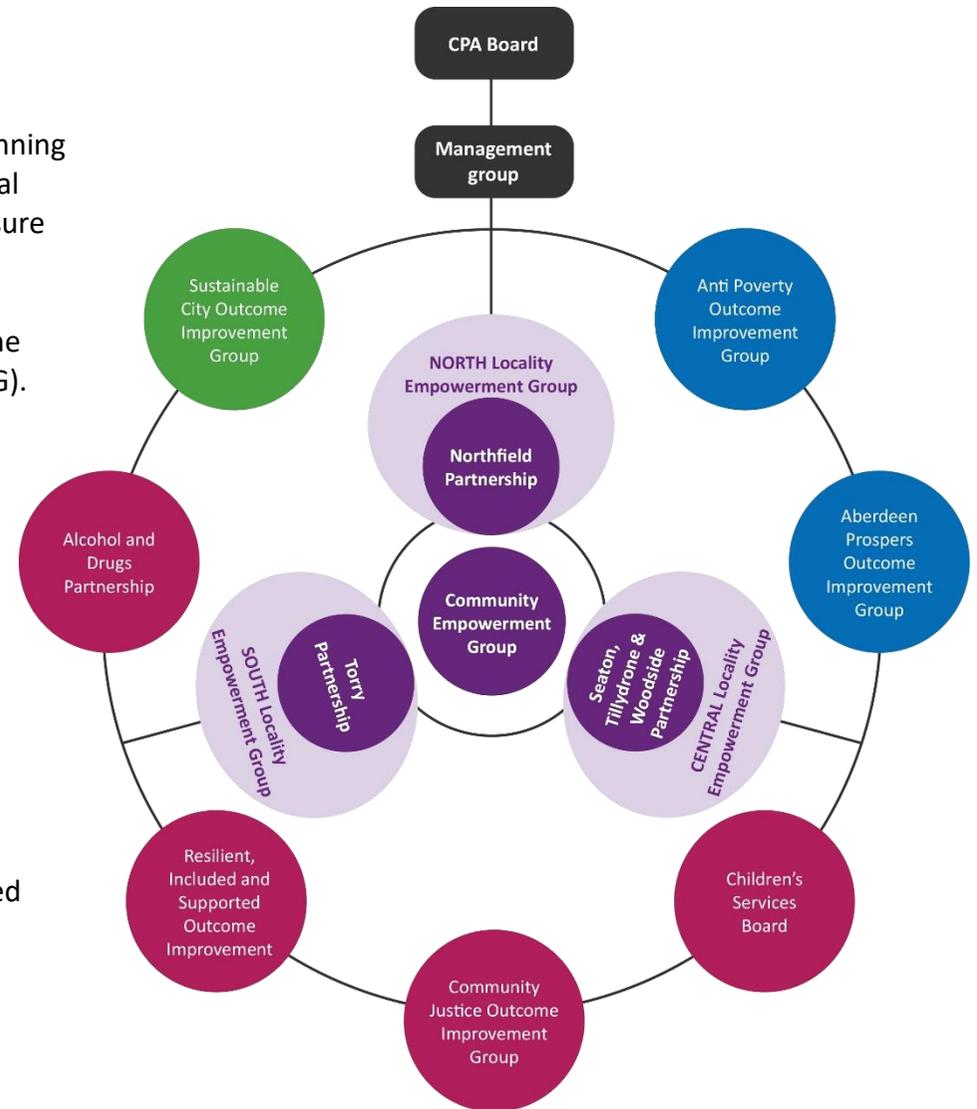

Community Planning Aberdeen Accountability Structure

The CPA Board provides strategic leadership and direction for Community Planning across Aberdeen. It will scrutinise overall delivery of progress against this Local Outcome Improvement Plan (LOIP) and the underpinning Locality Plans to ensure improved outcomes across all areas of Aberdeen.

The CPA Management Group is accountable to the CPA Board and oversees the delivery of progress by our seven themed Outcome Improvement Groups (OIG). The Anti-Poverty Group is a new addition to the structure, ensuring that the Partnership takes action to alleviate the consequences of poverty in the short term as well as prevent future poverty through the work of all of the OIGs together.

The Outcome Improvement Groups facilitate effective joint working across Community Planning partners and with communities to ensure delivery of the LOIP and locality plans remain on track, and to advise the CPA Board of any additional action required to overcome barriers.

The Community Empowerment Group works with the Locality Empowerment Groups and Priority Neighbourhood Partnerships oversee the delivery of Locality Plans with communities to ensure equality of outcomes being achieved across the City.

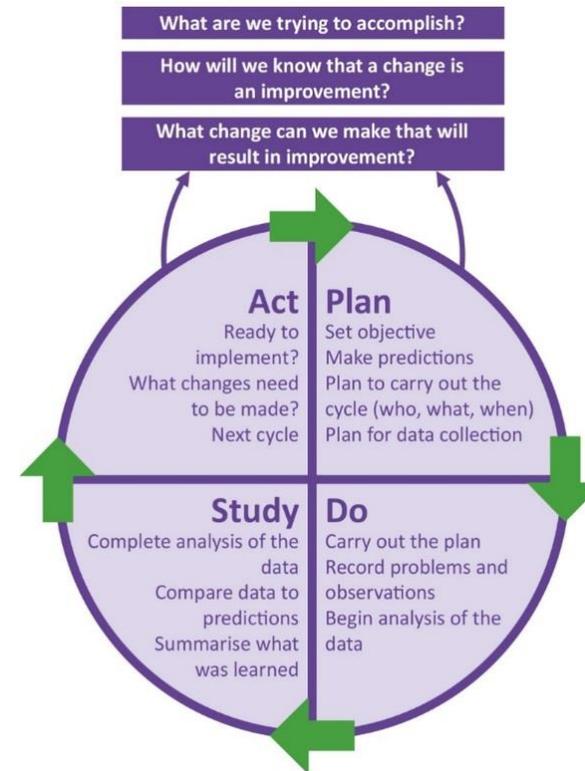

Improvement and Innovation

CPA will use Quality Improvement (QI) and the Model for Improvement framework for driving improvement activity across the Partnership. This provides us with a systematic approach to improvement which focuses on doing things better at the system level. It can be used for any area of business and is designed to break down change into manageable chunks. Each change idea is tested to make sure that actions taken are leading to improvement. Designed by the Institute of Health Improvement (IHI), this approach is used widely across Scotland as part of the [3 Step Improvement Framework for Scotland's Public Services](#).

In line with the methodology, initiation of every improvement project listed in this LOIP commence on approval of a project charter. The project charter sets out specifically what we are trying to achieve, by how much and by when. It includes the business case for undertaking the improvement project, drawing on national research to evidence how it supports prevention and early intervention to maximise the use of future resources. Using data is an essential component of the methodology and charters outline the range of process, output and outcome indicators which will be used to assess performance improvement.

To support staff to use the improvement methodology we have developed a comprehensive 'Innovate and Improve' programme to build capacity and capability in QI and the Model for Improvement across our Partnership and Communities. The programme is led by an Improvement Faculty consisting of members from across the Partnership who are committed to sharing their knowledge and expertise in Quality Improvement.

Evaluation and performance management

Ultimately, improving outcomes will be the test of our success. We have included a carefully chosen list of improvement measures and aims within this document. However, in some areas, for example the early years work, the results may take up to five years to demonstrate success in achieving longer term significant outcomes. It is therefore critical that we use evidence based self-evaluation to ensure we are measuring the impact and outcomes we are having in taking forward this plan. As part of our performance management arrangements we will produce an annual performance report detailing progress against this plan.

CHANGE LOG

This change log provides record of all approved changes made to the Local Outcome Improvement Plan following approval of the original document by the Community Planning Aberdeen Board on 22 August 2016. Significant changes to the LOIP require approval by the CPA Board prior to incorporating into the document. The latest versions of the LOIP is available online at <https://communityplanningaberdeen.org.uk/aberdeen-city-local-outcome-improvement-plan-2016-26/>.

Version	Changes	Page Number	Approved By	Date
1	Local Outcome Improvement Plan.	1-34 and 42-61	CPA Board	22 August 2016
2	People are resilient, included and supported when in need section added.	35-41	CPA Board	12 December 2016
	Updated governance and accountability structure following approval of the Final Report for the Review of CPA Infrastructure.	59	CPA Board	12 December 2016
3	Priority community justice drivers incorporated into People are resilient, included and supported when in need section.	35-41	CPA Board	24 April 2017
4	Amendments as proposed in 2016/17 Annual Outcome Improvement Report pages 81-82.	16-59	CPA Board	4 December 2017
5	Refresh of Local Outcome Improvement Plan 2016-26 following revised Population Needs Assessment 2018. The refresh introduces 15 new Stretch Outcomes which clearly quantify the scale of Partnership's ambition to address key issues. The refresh also includes the specific improvement project aims that Outcome Improvement Groups will be working towards in an effort to achieve our stretch outcomes. The Board was asked to approve these projects based on their confidence that these are the projects that will yield improved outcomes and scalable results.	1-55	CPA Board	26 February 2019
6	Removal of Improvement Project Aim 'Increase the number of 27-30 month reviews completed for eligible children by 5.2% by 2021' further to the decision of the CPA Board that this is a single system improvement project.	20	CPA Board	2 December 2019
	Improvement Project Aim 'Increase the number of people with autism who are supported to be in education, employment or training by 2021' amended to 'Increase the number of autistic people aged 16 to 25 who are supported into employment by 2021.'	38	CPA Board	2 December 2019

Version	Changes	Page Number	Approved By	Date
7	Improvement Project Aim 'Increase the number of Digital and ICT SVQ level 4 qualifications achieved by 10% by 2021.' amended to 'Increase the number of people within Aberdeen City qualified with ICT and Digital skills at SCQF Levels 7 and 8 by 10% by 2024.'	15	CPA Board	26 February 2020
	Improvement Project Aim 'Increase the number of distress brief intervention opportunities for people with mental health issues by 10% by 2021' amended to 'Increase the number of Distress Brief Interventions opportunities for people presenting to frontline services in distress by 10% by 2021.'	38	CPA Board	26 February 2020
8	Removal of Improvement Project Aim "Increase in the MMR vaccine uptake for children at 24 months by 3.9% by 2020. "	19	CPA Board	16 September 2020
9	Refresh of Local Outcome Improvement Plan 2016-26 following revised Population Needs Assessment 2021 . The refresh takes place within the context of the Covid-19 pandemic. Key changes include: an increased focus on poverty through new Stretch Outcome 1, new stretch outcome 15 to enhance the natural environment, contraction of improvement projects from 120 to 75 to sharpen focus and inclusion of lead partner, baseline data and target population.	1-49	CPA Board	7 July 2021

PARTNERSHIP DEVELOPMENT PLAN

This Development Plan has been produced to support the implementation and delivery of the refreshed LOIP and Locality Plans. It was developed in response to feedback gathered from the CPA Board during a session facilitated by the Improvement Service in April 2021 and from a feedback exercise conducted with Project Leads in March 2021. The plan includes five themes for improvement under which actions have been identified to provide cross cutting support to colleagues across the Partnership in the delivery of the LOIP and underpinning Locality Plans.

Improvement Action	Timescale	Description	Lead
Capacity Building			
Resume the Model for Improvement Introductory Bootcamp	August 2021	Quality Improvement Foundation Level training aimed all who want to make improvements to their work. Bootcamp provides introduction to the Model for Improvement framework and supports participants to develop confidence and capability in using key quality improvement tools.	Community Planning Team
Introduction of Model for Improvement Course for Community Members	August 2021	Sessions to provide an introduction to the plan, do, study, act methodology to our communities to support them testing change ideas included with the Locality Plans and to work with Outcome Improvement Groups to take these forward.	Community Planning Team/Locality Planning
Programme of LOIP Refresh Sessions	July/August 2021	Pit Stop sessions to hear the changes to the Local Outcome Improvement Plan (LOIP), the context behind the refresh, the measures it incorporates, and an introduction to how it is informing our practice, in collaboration with our partners.	Community Planning Team
Rapid Testing Masterclass	August/September 2021	Improvement projects are intended to be time limited, using rapid cycle testing to gather data and gain confidence quickly in the efficacy of a change before scaling up. The timeframe for completion of testing and scaling up will vary depending on the complexity of the change and the	Community Planning Team

Improvement Action	Timescale	Description	Lead
		confidence in the results gathered. The use of rapid cycle testing should ensure that project teams progress towards their improvement aims quickly. Projects should be closed as aims are achieved to allow partners to move on to the next priority. This masterclass will provide project leads with the understanding and confidence to undertake rapid testing.	
Advertise and promote opportunities to undertake further Quality Improvement training and build relationships with local and national professionals	Ongoing	Scottish Improvement Leaders Programme has four cohorts commencing each year. Each cohort will be a blend of national and targeted regional places. Promotions and uptake provides a great opportunity for those involved in CPA improvement activity to deepen their knowledge of the methodology and take forward improvement activity.	Community Planning Team
Advice, Support and Coaching			
Continue with Lead Contacts for all Outcome Improvement Groups and confirm and support new Lead Contacts where vacancies currently exist	July 2021 - Monthly	The Lead Contacts Group ensures that the OIGs are provided with the direction, advice and support they need, through engagement with lead contacts. Collectively, the Lead Contacts are responsible for ensuring that the CPA groups understand and meet their requirements to report progress to the CPA Board and Management Group in the delivery of the LOIP and Locality Plans. Two Lead Contacts are vacant at present and if approved a Lead Contact will also be required to be identified for the Anti-Poverty Group.	Community Planning Team
Hold general and themed project surgeries	July 2021 - Monthly	Provides those leading projects with a project surgery drop in where they can seek support with their improvement projects. Themed surgeries such as data collection and analysis to provide specific support on issues raised by project leads.	Community Planning Team
Improve collaboration across Project Teams through using the Improvement Community Network as a platform for	July 2021 - Ongoing	Network to support Outcome Improvement Groups and Project Leads to continue to develop confidence and capability in quality improvement. The Network to be further developed to improve collaboration on improvement projects. Project Leads play a crucial and central role in helping to lead and embed improvements within our communities. We	Community Planning Team/Lead Contacts

Improvement Action	Timescale	Description	Lead
sharing best and good practices, outcomes from tests of change and any challenges experienced		also know that this will be an ongoing journey of learning and refinement to realise these improvements. This journey is supported by a collaborating and working in a supportive and encouraging environment. Project Leads are to be encouraged to use the Network/site to 'work out loud' in sharing best and good practices and to actively engage in sharing their expertise, change ideas being tested, as well as challenges being experienced.	
Improve the story telling about what we are achieving through our improvement projects and the improvement programme	September 2021 - Ongoing	Improve our current communications of the outcomes achieved by improvement projects through storytelling which focuses on the human side of work and engages our audience, both across the Partnership and with our citizens. This will also provide support to other Project Leads and increase their awareness of areas of good practice identified by other projects.	Community Planning Team
Work with project teams to influence and empower teams to think more creatively, support research and develop innovative practice	August 2021 - ongoing	In developing and refreshing project charters, support Project Teams to think more creatively, access available research and develop innovative practice to achieve their improvement aims.	Community Planning Team
Data and Research			
Establish a Data Network	August 2021	The Data Network has 2 key areas of focus, namely: <ol style="list-style-type: none"> 1. The foundations of the Partnership's approach to the management of data, including: <ul style="list-style-type: none"> ▪ Data accessibility ▪ Data infrastructure ▪ Data sharing ▪ Data ethics ▪ Data skills 2. Co-ordination of support to Outcome Improvement Groups and improvement projects when establishing improvement projects and throughout the Quality Improvement cycle. 	Data and Insights, ACC

Improvement Action	Timescale	Description	Lead
		The Network aims to maximise partners' resources whilst accessing and engaging with external support	
Establish a Research Forum	August 2021	The Partnership Forum oversees the co-ordination and consideration of the evidence base which informs the Partnership's strategic decision making.	Data and Insights, ACC
Cross Cutting Campaigns			
Supporting community empowerment and participation	Ongoing	Promotion of the opportunities to participate in improvement activity at city wide and locality level, as well as dialogue between partners on the city wide Outcome Improvement Groups delivering the LOIP and members of the Locality Empowerment Groups/ Priority Neighbourhood Partnerships delivering the Locality Plans to ensure a joint and coordinated approach between professionals and local communities to improve outcomes city wide and at a locality level.	Community Empowerment Group
Promotion of how to tackle and reduce the impact of stigma	August 2021	Everyone has the right to be treated fairly and with respect, however many still today experience stigma. Stigma has been shown to have a profound effect on a person's sense of self, and diminish their self-esteem and confidence. It can also prevent people from seeking help. To be successful stigma needs to be addressed across all of the LOIP Stretch Outcomes. This campaign will raise awareness and understanding of the impact of stigma across the Partnership, but also to promote ways in which we can embed mechanisms for address stigma and changing attitudes through our improvement activity.	ACH&SCP
Raising awareness and understanding of the importance of child participation and engagement in decision making	October 2021	This campaign will raise awareness and understanding of the importance of child participation and engagement and ensure that the LOIP aims have properly considered how their work will impact on children and their families and that all Outcome Improvement Groups are empowered to consider the extent to which they cover 3 P's re Provision, Protection and Participation. To support this we will develop and share Local and National Good Practice of engagement and participation work and ensure that children and young people are aware of how they can get involved.	Children's Services Board

Improvement Action	Timescale	Description	Lead
Benefits of taking a Whole Family Approach	December 2021	The Whole Family Approach is a family led strategy, where families set their own goals, use resources, and support networks while strengthening relationships to achieve their potential to achieve long term change. When services are integrated and working alongside families meeting their whole needs, rather than the individual parts, efficiency is improved, and outcomes are enhanced. The Whole Family Approach should be embedded in all our practice and overarching to all LOIP. This campaign will raise awareness of the importance of working together to offer integrated support with families that promote family led and relational practice with family's voices at the centre of our service developments.	FitLike Hubs, ACC
Adopting an approach to reducing health inequalities	February 2022	Health inequalities are the unfair and unavoidable difference in health across social groups and between different population groups. Reducing health inequalities requires a blend of action to undo the fundamental causes. Everyone has a role to play in reducing health inequalities. This campaign will introduce a range of training, tools and techniques available that can be built into individuals own practice, such as Making Every Opportunity Count; health literacy and Health Inequalities Impact Assessment.	ACH&SCP
Adopting a trauma informed approach	Ongoing/ April 2022	<p>The experience and impact of trauma and adversity in the lives of Scottish people is more pervasive than has previously been recognised and has been exacerbated by the COVID pandemic. It is important to have trauma informed and responsive workforces that can recognise where people are affected by trauma and adversity, able to respond in ways that prevent further harm while supporting recovery, helping address inequalities and improve life chances.</p> <p>The aim of this ongoing campaign is to promote delivery of services in ways which prevent further harm or re-traumatisation for those who have experienced psychological trauma or adversity at any stage in their lives. People living with domestic abuse; individuals facing poverty/financial hardship and people experiencing severe illness or the loss of family are all</p>	NHSG

Improvement Action	Timescale	Description	Lead
		<p>among those at greater risk of experiencing trauma. And those in key frontline roles such as health and social care have had increased exposure to potentially distressing experiences as has the likelihood of stress and burnout.</p> <p>The National Trauma Training Programme, led by NHS Education for Scotland provides an opportunity to build on this ambition and has a wide range of training and tools available to all partners that can be built into services, teams and individuals own practice by raising awareness, knowledge, and confidence among our workforce to equip people to embed trauma informed practice throughout services based on the key principles of safety, trust, choice, empowerment, and collaboration. Teams/services can use the NHS Education Scotland “Taking a Trauma Informed Lens: Walk through” audit tool to establish the extent to which services are trauma informed identifying any risks of active re-traumatising or introduction of primary trauma to assist with identification of areas of priority requiring change and improvement; can learn about the importance of “lived experience” and the need to strengthen engagement and involvement of those with lived experience of psychological trauma, and gain an understanding on the importance of ensuring all staff wellbeing initiatives address any trauma implications.</p> <p>As part of the ongoing campaign, throughout the year a number of existing/future trauma training and tools and Deep Dive initiatives are planned by both local Trauma Champions and the Multi Agency Group and will be promoted across the Partnership to provide Partners with the awareness, tools and training, with an additional focus highlighting local progress/good news stories/examples of good practice as part on an ongoing raising awareness campaign undertaken in April 22.</p>	

Improvement Action	Timescale	Description	Lead
Intersectionality for Improvement Projects Training	Ongoing	<p>An online training session to help Project Teams consider how different characteristics affect the people they're working with on their Improvement Project. The workshop covers:</p> <ul style="list-style-type: none"> • How multiple barriers can affect a person's experience, access to services, self-esteem, etc. • How different characteristics can interact in positive or negative ways: introducing the concept of intersectionality and the benefits of taking an intersectional approach. • "Seldom heard" communities, and how they fit into the Engagement Strategy and Community Planning in Aberdeen. • Resources to explore the demographics of the community Project Teams are working with. • Discussion in small groups, looking at specific ways the above issues are relevant in the context of your improvement project, plus time to create a short action plan to incorporate what was learned and discussed. 	GREC
Leadership - Creating the Conditions for Change			
Development of a Collective Leadership Programme	September 2021	Strong leadership is key to the partnership delivering its improvement ambitions. Through a collective leadership programme, supported by external partners, CPA Board and Management Group members will be encouraged to think differently about their leadership role. We will convene a number of leadership fora to explore different ways of operating, focussing on collaboration and innovation, and reflecting on what we need to do differently.	External Partners e.g. Improvement Service

This page is intentionally left blank

APPENDIX 3 LOIP REFRESH ANALYSIS

This analysis has been undertaken to gauge the status of the final draft LOIP 2021-2026 against three key measures:

- Whether the projects against each Stretch Outcome are considered short term (to 2023); medium term (to 2025) or long term (2026 and later)
- Whether the projects against each Stretch Outcome target whole population, community level, or individual level
- Whether the projects against each Stretch Outcome are considered Upstream, Midstream or Downstream interventions.

Methodology

The analysis is based on the following principles:

1. Timescale:

Short term > 2023

Short term AND Medium Term 2023 > 2025

Medium Term > 2025

Short term AND Long term 2023 > 2026

Long Term > 2026

2. Population:

Whole population – all citizens in the City will benefit, or all citizens within a set demographic will benefit i.e. all children.

Community focus – there is a set community focus to the driver i.e. schools, or where the benefit will be felt at a community level i.e. reduced ASB

Individual focus – where the driver as set out will target specific individual groups, i.e. those in the criminal justice system, those eligible for benefits.

3. Demand:

Upstream interventions would tackle '**preventable demand**', which is where the demand can be prevented by intervening earlier

Midstream interventions would tackle ‘**co-dependent**’ demand, which is where demand is unintentionally reinforced by service dependence; and ‘**excess**’ demand, which is where a higher level of service is provided than is needed.

Downstream intervention would tackle ‘**avoidable**’ demand, which is where demand can be influenced by behaviour change; and ‘**failure**’ demand which his caused by service failure or poor design.

High level analysis of current v proposed refreshed LOIP

	Current LOIP	Refreshed LOIP	Change
Short term	91%	92%	+1%
Short term and Medium term	0	0	-
Medium term	2%	0%	-2%
Short term and Long term	3%	7%	+4%
Long term	4%	2%	-2%
Whole population	42.5%	36%	-6.5%
Community focus	11%	18%	+7%
Individual focus	46.5%	47%	+0.5%
Upstream	32.5%	36%	+3.5%
Midstream	0	28%	+28%
Downstream	67.5%	36%	-31.5%

Current LOIP data table

Short term	Short term and Medium term	Medium term	Short term and Long term	Long term	Whole population	Community focus	Individual focus	Upstream	Midstream	Downstream
109	0	2	4	5	51	13	56	39	0	81

Refreshed LOIP data table

Short term	Short term and Medium term	Medium term	Short term and Long term	Long term	Whole population	Community focus	Individual focus	Upstream	Midstream	Downstream
68	0	0	6	1	27	12	36	26	22	27

Initial considerations

1 – Timescales proposed

All projects in the refreshed LOIP have an initial short term focus. This may pose a concern regarding deliverability of work in certain stretch outcomes, but also highlights the ongoing desire to make improvements quickly. Some of these are existing projects that are underway, this reinforces the need for all partners to play an equal part in leading and delivering on projects to ensure the desired outcomes are achieved.

Comparatively with the current LOIP there is a negligible change in the short terms aims of the improvement project aims, with the only change of note being the projects identified below that have both short term and long term aims. This demonstrates a clear desire to progress from the initial findings to achieve further.

- **Stretch Outcome 1 - No one in Aberdeen will suffer due to poverty by 2026:** Reduce by 50% the number of homes with an EPC rating of F&G by 2023, leading to 100% by 2026.
- **Stretch Outcome 2 - 400 unemployed Aberdeen City residents supported into Fair Work* by 2026:** Supporting 50 people to start a business in Aberdeen who will be coming off the benefits system or significantly reducing their benefits through starting a business by 2023 and 100 by 2026.
- **Stretch Outcome 2 - 400 unemployed Aberdeen City residents supported into Fair Work* by 2026:** Increase employer sign up to the Real Living Wage by 5% year on year to 2023 to achieve Real Living Wage City Status by 2026
- **Stretch Outcome 2 - 400 unemployed Aberdeen City residents supported into Fair Work* by 2026:** Support 50 people into sustained, good quality employment by 2023, and 100 by 2026, with a particular focus on; those from priority neighbourhoods and people over 50.
- **Stretch Outcome 8 - Child friendly city where all decisions which impact on children and young people are informed by them as rights holders by 2026:** Achieve UNICEF badges in Leadership; Culture; Communication; Place; Child Friendly Services; Participating
- **Stretch Outcome 13 - Addressing climate change by reducing Aberdeen's carbon emissions by at least 61% by 2026 and adapting to the impacts of our changing climate:** At least 23 organisations across all sectors in Aberdeen pledging to manage at least 10% of their land for nature by 2023 (23BY23) and at least 26% by 2026 (26BY26).

It would be worthwhile for all Chairs of Outcome Improvement Groups considering creating further long term aims to build on the initial short term goals, this would help crystallise thinking on what steps are required and also ensure the required pace is set to achieve the overall outcomes desired.

2 - Whether the projects against each Stretch Outcome target whole population, community level, or individual level

The analysis shows that most projects in the refreshed LOIP have an individual focus, the rate remaining constant against the current LOIP. There has been an increase in the number of projects aimed at community level overall, with a 7% swing from whole population to community focus suggesting that Outcome Improvement groups understand the importance of Locality data and influencing outcomes at that level as per the Simulator results and Locality Empowerment Group engagement. This does not mean that community and whole population change cannot or will not be achieved in time, but that following the methodology we are focussing on improving the lives of individuals more often.

There is a balance to be struck between a community focus at LOIP level and that which will naturally occur at Locality Improvement Plan level, and the Management Group will want to consider this as a suite of strategic plans to ensure the right balance is struck.

In particular:

- The majority of proposed Stretch Outcome 1 (***No one in Aberdeen will suffer due to poverty by 2026***) is focussed at an individual level
- All projects identified under Stretch Outcome 4 (***95% of children (0-5 years) will reach their expected developmental milestones by the time of their child health reviews by 2026***) are currently focussed at an individual level
- All projects under Stretch Outcome 6 (***As corporate parents we will ensure 95% of care experienced children and young people will have the same levels of attainment in education, health and emotional wellbeing, and positive destinations as their peers by 2026***) are currently focussed at an individual level

3 - Whether the projects against each Stretch Outcome are considered Upstream, Midstream or Downstream interventions

In the refreshed LOIP, analysis shows a far more balanced split of projects between these categories of intervention. The current LOIP has no 'midstream' interventions, with the refreshed LOIP having 28% of projects assessed as 'midstream'. This represents a maturity in the approach taken in refreshing the aims, and that the partnership is intentionally moving interventions more 'upstream'. There is a slight increase in the rate of 'upstream' interventions in the refreshed LOIP, the main swing being from 'downstream' to 'midstream'.

Given the scale and scope of the ambitions for the LOIP, this can be viewed in two ways. The first is that there is simply a more balanced and reflective range of interventions tackling the stages of the system, targeting the appropriate stage for the outcome required.

However, the second view is that there is an insufficient swing towards 'upstream' interventions, and that in order to fundamentally change the outcomes there should be greater movement towards that area of intervention. In this light, the balance of intervention

stages is in fact an imbalance which will result in the Partnership continuing to resolve failure and preventable demand.

This is the correct lens to look at the analysis through, and the recommendation is that more projects are moved deliberately 'upstream' to achieve the aims desired.

Secondary analysis

A secondary lens examines the interplay between the different classifications and offers insight into whether this is balanced. For example, is a short term, individually focussed, downstream project on benefits take up going to have the desired effect? Is this more likely than a short term, individually focussed, downstream project on reducing the number of births affected by drugs? Both have an urgency, both affect physical and mental health, however the more acute project is focussed on reducing births affected by drugs as intervening here for that individual will lead to a more sustained improvement in outcomes over the life course. This requires careful consideration for the outcome desired, in addition to the balance of workload in the CPP across the three classifications identified.

One proposal that will help the CPP focus on the correct drivers is to include analysis of these three classifications in the preparation of the Improvement Project Charter, perhaps by including this in the charter template.

Detailed analysis

Stretch outcome	Key Driver	Improvement project aim	Short term	Medium term	Long term	Whole population	Community focus	Individual focus	Upstream	Midstream	Downstream
1. No one in Aberdeen will suffer due to poverty by 2026.	1.1 Mitigating the causes of immediate and acute poverty.	Increase the number of people using community pantries by 20% by 2023.	X					X		X	
		Decrease the number of households in extreme fuel poverty in Aberdeen by 4% by 2023; and reduce the rate of socially rented households in fuel poverty in Aberdeen by 8% by 2023.	X					X		X	
		Reduce by 50% the number of homes with an EPC rating of F&G by 2023, leading to 100% by 2026.	X		X	X					X
	1.2 Ensure those experiencing in-work poverty have access to all appropriate benefits.	Increase the uptake of unclaimed benefits across Aberdeen City by 2023.	X					X			X
	1.3 Supporting vulnerable and disadvantaged	Ensure 100% of people presenting as homeless have a	X					X			X

	people, families and groups	full financial assessment and access to all appropriate benefits.									
	1.4 Poverty affecting those with protected characteristics and in specific communities –	Increase support for those who have been most disadvantaged through the pandemic by 2023	x					x			x

Stretch outcome	Key Driver	Improvement project aim	Short term	Medium term	Long term	Whole population	Community focus	Individual focus	Upstream	Midstream	Downstream
2. 400 unemployed Aberdeen City residents supported into Fair Work* by 2026	2.1 Supporting labour market to recover from impact of Covid-19 on employment.	Supporting 50 people to start a business in Aberdeen who will be coming off the benefits system or significantly reducing their benefits through starting a business by 2023 and 100 by 2026.	x		x			x	x		
	2.2 Improving investment into Aberdeen and Aberdeen businesses.	Increase employer sign up to the Real Living Wage by 5% year on year to 2023 to achieve Real Living Wage City Status by 2026.	x		x		x		x		

		Increase by 50% the number of care experienced young people employed by public sector partners by 2023.	x					x			x
		Support 50 people into sustained, good quality employment by 2023, and 100 by 2026, with a particular focus on; those from priority neighbourhoods and people over 50.	x		x			x		x

Community Planning Aberdeen

Progress Report	Final Draft Integrated Locality Plans 2021-26: North, South and Central.
Lead Officer	Angela Scott, Chair of CPA Management Group and Chief Executive of Aberdeen City Council
Report Author	Michelle Cochlan, Community Planning Manager
Date of Report	29 June 2021
Governance Group	CPA Board, 7 July 2021

Purpose of the Report	
<p>This report presents the final draft Locality Plans following approval by the CPA Board and IJB to the integration of Locality Planning for Community Planning Aberdeen and Aberdeen Health & Social Care Partnership. The plans underpin the refreshed Aberdeen City Local Outcome Improvement Plan, as well as individual partner plans, to cement a joint and coordinated approach between professionals and local communities to improve outcomes city wide and at a locality level.</p>	

Summary of Key Information	
<p>1. BACKGROUND</p> <p>1.1 In December 2020, the Community Planning Aberdeen Board and Aberdeen Integrated Joint Board agreed recommendations for the integration of Locality Planning between Community Planning Aberdeen and Aberdeen Health & Social Care Partnership. This saw the bringing together of two models for locality planning which had been established in response to separate legislation - the Public Bodies (Joint Working) (Scotland) Act 2014 and the Community Empowerment (Scotland) Act 2015. The new integrated model of locality planning has resulted in the following outcomes:</p> <ul style="list-style-type: none"> • Shared Localities and Priority Neighbourhoods - We have divided the city into three to identify three localities: North, South and Central. Priority neighbourhoods are those areas within the North, South and Central localities which experience poorer outcomes as a result of their socio-economic status, as identified by SIMD data. These include: for the North, Heathryfold, Middlefield, Northfield, Cummings Park and Mastrick; for the South, Torry and Kincorth; and for Central, Tillydrone, Seaton, Woodside, Ashgrove, Stockethill and George Street. • Shared Locality Empowerment Groups - We have expanded the remit of the Locality Empowerment Groups established last year by ACHSCP, to include collaboration on the full range of priority outcomes that the wider Community Planning Partnership is seeking to improve through the LOIP and underpinning Locality Plans. Priority Neighbourhood Partnerships, which were established by CPA in 2017, continue to operate and complement the work of the Locality Empowerment Groups. The Locality Empowerment Groups are open to any member of the public living in the locality whilst the Priority Neighbourhood Partnerships are for people living in the priority neighbourhood area. A member of a PNP can, and often is, also be a member of the LEG. 	

- **Shared Leadership and Partnership Working** - We have brought together the locality planning teams of the ACHSCP and Aberdeen City Council to join forces in working with communities to identify local priorities and agree action, making the connections with work which is already going on at a city wide level. ACHSCP Public Health Coordinators and ACC Locality Inclusion Managers have worked closely together to develop the Locality Empowerment Groups, ensure effective links with the work of Priority Neighbourhood Partnerships and jointly lead the co-production of locality plans with communities.
- **Shared Locality Plans** - Locality Plans have been developed for the North, South and Central localities of the City. This sees every neighbourhood in Aberdeen covered by a Locality Plan. The plans incorporate improvement activity for the whole locality and/or targeted at specific neighbourhoods – in most cases priority neighbourhoods. However, as the plans evolve and we learn more about local needs and assets, the plans may target other areas which demonstrate particular strengths or need. This report presents the final draft Locality Plans in Appendix 1, 2 and 3 of this report.

2 ASSET BASED APPROACH

- 2.1 We have taken an asset based approach to the development of the Locality Plans by working with the Locality Empowerment Groups and Priority Neighbourhood Partnerships. The groups have brought together individuals, community groups and organisations with a shared passion for making things better for their area. This has helped connect community assets, knowledge, skills and ideas for improvement to the work of the Community Planning Partnership.
- 2.2 Over the last six months people involved in the Locality Empowerment Groups have committed their time to learning more about Community Planning Aberdeen, the shared ambitions of the Local Outcome Improvement Plan and the role of partners in working together to achieve these. They have considered data to understand inequalities which exist between neighbourhoods within their locality and across the City. And they have agreed local priorities for making better use of local people's skills and assets to help improve outcomes for people.
- 2.3 This, along with the results of the [CPA Online Simulator](#), has culminated in the production of the draft Locality Plans presented with this report. This is no small achievement and is a demonstration of the commitment of communities to working together and with public services to improve outcomes. It is also testament to the strong partnership working between communities and the joint locality planning team. This strong relationship will be critical to the further development and successful delivery of the locality plans.

3 LOCALITY PLANS 2021-26

- 3.1 The draft Locality Plans are the product of work which has taken place since January with community members involved in the Locality Empowerment Groups and Priority Neighbourhood Partnerships. Through the LEGs and PNPs we have heard from communities what is important to them and what their priorities for improvement are. In all cases, there is a link between the aspirations of communities to the improvement aims within the Aberdeen City Local Outcome Improvement Plan (LOIP). The locality plans have been designed to show these connects with the city wide LOIP. This is essential to ensure that professionals and communities are listening to each other, taking on board each other's ideas and, essentially, are working together to test and implement change.

3.2 The Locality Plans will help facilitate and encourage a two-way dialogue between partners on the city wide Outcome Improvement Groups delivering the LOIP and members of the Locality Empowerment Groups/ Priority Neighbourhood Partnerships delivering the Locality Plans. They cement a joint and coordinated approach between professionals and local communities to improve outcomes city wide and at a locality level.

E.g. Central Locality Plan

Central Locality Priority: Maximise use of spaces in communities to create opportunities for people to connect and increase physical activity

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Increase the number of community run green spaces that are organised and self-managed for both people and nature by a minimum of 8, of which at least 4 will in priority neighbourhoods, by 2023.	Aberdeen City Council, Sustainable City Group	<ul style="list-style-type: none"> Develop green and growing spaces in Woodside, residents gardening group 	Woodside	Fersands and Fountain Community Project

3.3 The Locality Plans make the link between the ideas for improvement which have been identified by communities to the improvement projects within the LOIP, where relevant. See extract of the Central Locality Plan above. Across the three localities there was no instance where a community idea for improvement did not link in some way to a LOIP improvement project aim. Acknowledging this link within the locality plans has the following benefits:

- Removes the risk of silo working, confusion and duplication of effort between the city wide Outcome Improvement Groups (OIG) and Locality Empowerment Groups (LEG)/ Priority Neighbourhood Partnerships (PNP)
- Raises awareness of the OIGs and LEGs/PNPs of what is going on city wide and locally and encourages greater collaboration
- Communities are empowered to test their change ideas on their own locally and/ or work with professionals involved in OIGs
- Communities can focus on setting up tests of change and monitoring results rather than having to create project charters which are being developed by OIGs
- Capacity building for communities can be tailored appropriately and focussed on using the Plan, Do, Study, Act cycle to test ideas and gather evidence for scaling up and spreading proven initiatives
- Provides a mechanism for communities to share results and seek support from partners for support with scale up and spread

4 ASSET BASED COMMUNITY DEVELOPMENT

4.1 The Aberdeen City Community Learning and Development Strategic Plan sets out how communities are supported to express their voice, identify their capacities, learning and skills, enhance them and apply them to their issues. The CLD plan is due to be refreshed this year and there is an obvious link between the work of CLD services and the support being provided by the joint Locality Planning Team to build the capacity of communities to engage in locality planning. The revised CLD plan will confirm shared plans for asset based community development for the next three years. This will include capacity building in quality improvement through a programme tailored for communities, in particular the use of the Plan, Do, Study, Act (PDSA) cycle to test ideas for improvement. It is hoped that this will help further build community confidence to participate in improvement projects and feel empowered to test their own change ideas.

5 EVOLUTION OF LOCALITY PLANS

5.1 The current Locality Plans are a starting point for unifying and strengthening community collaboration in improving outcomes. It is expected that they will evolve over time as the Locality Empowerment Groups and Priority Neighbourhood Partnerships continue to develop and mature and communities become more confident to drive the development process themselves. For example, in terms of their understanding of improvement methodology.

5.2 Part of the evolution of the Locality Plans will be developing the place themes within the plans to incorporate 'Local Place Plans'. The Scottish Government's current proposals for regulations on Local Place Plans make clear the opportunity to link LPPs with wider Locality Plans that are in place as a result of the Community Empowerment (Scotland) Act 2015. It recognises how this would create efficiencies, reduce duplication and prioritise resources to areas where there could be particularly significant benefits for communities and inclusive growth. These are the same benefits the Community Planning Aberdeen and IJB expect to realise through the new integrated approach to locality planning. Indeed, the Aberdeen City Locality Plans are explicitly cited as examples of locality plans which could incorporate Local Place Plans within the regulations.

6 NEXT STEPS

6.1 The CPA Board is asked to note next steps.

Easy Read versions of locality plans to be developed and cascaded to communities	July 2021
Revised CPA Improvement Programme to ensure a phased and coordinated approach to the initiation of improvement projects and testing with and by communities	September 2021

6.2 Post July, the Community Planning Team will continue to work with the Joint Locality Planning Team and Place Planning Team to ensure congruence between the LOIP, evolving Locality Plans and Local Place Plans. This will involve putting in place arrangements for ongoing collaboration, communication and reporting between the Outcome Improvement Groups and Community Groups.

Recommendations for Action

It is recommended that the CPA Board:

- i) Approve the final draft Locality Plans presented at Appendix 1, 2 and 3;
- ii) Consider the report in conjunction with the draft LOIP (Item 2.1) to understand the link with the priority issues being tackled by the wider Community Planning Partnership;
- iii) Note that plans for asset based community development to support the locality planning process will come forward as part of the revised Aberdeen City Community Learning and Development Plan in September 2021;
- iv) Note intentions to support communities to drive the further development of the locality plans, including the incorporation of 'local place plans' as explained at para 5.2; and
- v) Agree next steps, specifically the production of easy read version of the Locality Plans.

Opportunities and Risks

The outcomes of poor health and wellbeing are inextricably linked to the wider determinants of public health that the Community Planning Partnership is seeking to improve through its stretch outcomes 1-15. The locality plans help direct resources to the people and communities in greatest need of support across a range of outcomes. They underpin the Aberdeen City Local Outcome Improvement Plan and Aberdeen City Health and Social Care Strategy, as well as other Partner strategies. Most importantly, they enable stronger collaboration between community groups and public services to pull resources, assets and skills to achieve shared priority outcomes.

Consultation

CPA Management Group
CPA Lead Contacts Group
ACHSCP Strategic Planning Group
ACC Strategy Board
Members of the Public through the online simulator during March 2021 and the public consultation on the LOIP during June 2021

FOREWORD

It is our pleasure and privilege to introduce the South Locality Plan.

The locality plan is the link between an understanding of needs and opportunities for people in the South of the city. We recognise there are some neighbourhoods, Torry and Kincorth, which face particular challenges and would require targeted support. This plan will inform, encourage and challenge our collective action across the South locality.

A two-year review has allowed us to see how far we have come and what remains to be done. Covid19 has highlighted the need to be sensitive and responsive to the challenges of changing circumstances.

This locality plan has been developed through discussions, involving community members and various stakeholders. It is a first step to designing and delivering services with communities to meet their needs through partnership working. The plan should be regarded as a living document which is flexible and grows over time as shaped by communities.

The next steps are to sustain and grow these relationships to support each other to achieve our shared outcomes. Our greatest asset is our community, the South locality, with ambition for best possible life outcomes for all.

We hope you see this plan as yours and for those you care and the neighbourhood you live or work in..

Shamini Omnes
Public Health Co-ordinator
Aberdeen City Health and Social Care Partnership

Colin Wright
Development Manager
Aberdeen City Council

Development of Plan

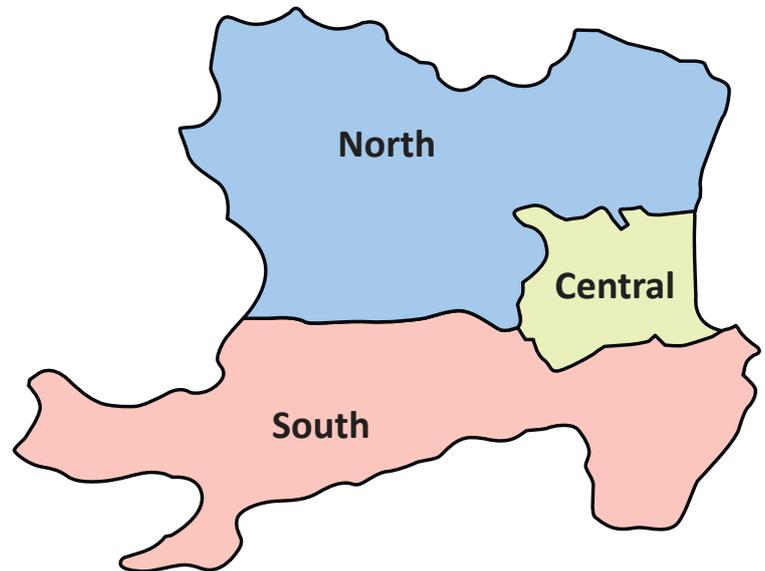

The development of this plan has taken place during a global pandemic which has meant many of the traditional ways of engaging with communities and staff, including meeting face to face and canvassing opinions in neighbourhoods across South locality has not been possible. Instead most engagement has taken place on-line and through virtual mechanisms to ensure that views have been captured. In an attempt to ensure citizens and staff living and working in South locality were involved in the process the following engagement opportunities took place:

- During February four workshops were facilitated on the themes of the LOIP; people (adults), people (children and young people), place and economy where locality data was shared and people were asked what the priorities should be and potential ideas for action, the workshops were attended by 69 people from the South locality.
- During March staff workshops were held for each locality where locality data was shared along with feedback from community sessions to seek feedback from frontline staff on what the priorities should be and suggested ideas for actions, the South workshop was attended by 18 members of staff.
- For staff unable to attend the workshop (it was recognised these workshops were taking place during the highest level of civil contingency in response to Covid therefore making it challenging for frontline staff to attend) a Microsoft Form was developed based on the themes of the workshop.
- A Google Form was developed to capture views of children and young people and sent to all schools for completion.
- A session was facilitated with the youth council to capture views on priorities and suggested actions.
- An online simulator was developed to enable citizens to express what was important and of value to them and their community and this was open from 1-30 March 2021. The simulator was completed by 782 people in South, full results are available here [CP Simulator Summary results and Appendix \(2\).pdf](#) The top five priorities identified in the simulator were shared with members of the LEGs and incorporated in discussions to identify the six overarching themes for the south locality plan. The results were also incorporated within the plans.
- The Health and Social Care Alliance Scotland (the ALLIANCE) provided support with the process by facilitating a number of workshops throughout April including; a visioning session, an evening session and workshops for each of the three localities, the purpose of these workshops were to turn the ideas into actions, the sessions were attended by 51 people in South.
- A workshop providing an overview on Community Planning Aberdeen and consultation on the locality plan template was held in April, this was attended by 14 people.
- LEG and Priority Neighbourhood Partnership Meetings took place throughout January – April to check in with the process and gain feedback to inform the development of the plans.
- On-going actions from locality recovery plans have been incorporated within this plan.
- During this process the findings from the People at the Centre Engagement which took place nationally in late 2020 have also been considered and incorporated

LIVING IN THE SOUTH

The South Locality is made up of 9 neighbourhoods including:

1. Culter
2. Cults, Bieldside, Milltimber & Countesswells
3. Hazlehead
4. Braeside, Mannofield, Broomhill & Seafield
5. Garthdee
6. Ferryhill
7. Kincorth, Leggart & Nigg
8. Torry
9. Cove

The South locality is largely urban and shares a boundary with central locality as well as Aberdeenshire. Whilst the local economy has traditionally been based on fishing and agriculture, companies relating to the oil and gas and fishing industries as well as retail services dominate across the locality.

Many of the areas retain a village feel about them and a strong sense of identity despite being situated only a few miles of the city centre. There are many scenic attributes including distinctive granite buildings and popular green spaces such as Hazlehead Park, Deeside Golf Club and the Deeside Line.

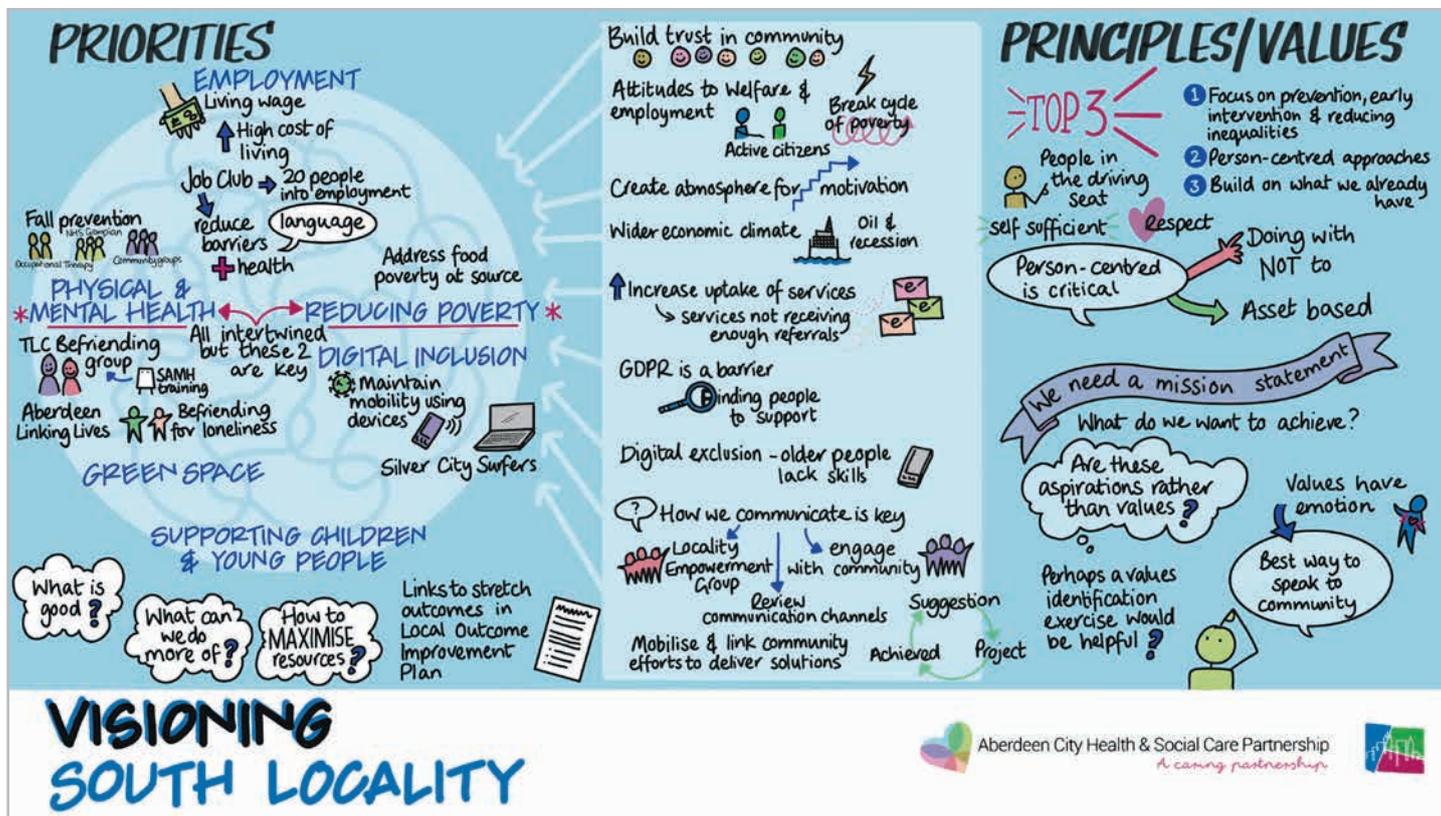

Based on analysis from the Scottish Index of Multiple Deprivation (SIMD), we have identified some of these neighbourhoods to be priority neighbourhoods. That means they need additional support to benefit from the same opportunities to thrive and succeed as other neighbourhoods within the South Locality. Our priority neighbourhoods now include: Kincorth and Torry.

VISION FOR CENTRAL

The Vision for Aberdeen City is a 'Place where all people can prosper'.

We asked communities in the South Locality to break this down into what this means for them.

They identified six locality priorities which will ensure all people living in South locality, including those people living in our most disadvantaged communities, have an equal chance to prosper. These include:

Locality Priorities	Link with city wide LOIP Priority Themes
Improve and create employment; employability opportunities. Develop Skills, training and support for young people and business.	Economy
Reduce number of people living in poverty. Address food poverty; fuel poverty by identifying and using local assets (for example community cafés; Community Kitchens).	
Identify and embed opportunities to mitigate digital exclusion; improve access to online assessments and referrals.	
Support children and young people to achieve their maximum potential.	People
Focus on early intervention, prevention and re-enablement actions to reduce inequalities and improve physical and mental wellbeing outcomes.	
Identify and maximise use of green space; Community food growing and community garden access (inter-generational community gardens).	Place

Above and throughout this document we have made the links between our priorities and the work of the wider Community Planning Aberdeen Partnership being delivered through the city wide Local Outcome Improvement Plan. This is essential to ensure we are working together on common priorities, supporting each other by sharing knowledge and experience and testing out our ideas together to ensure they have the best chance of success, scalability and sustainable results.

THE SOUTH ECONOMY

What we know about the South

From what the data tells us:

Earnings In 2017, median annual household income ranged from £21,231 in Torry to £61,570 in Cults, Bielside & Milltimber. 5 of the datazones in the South locality are in the 20% most income deprived areas in Scotland, with all 5 being in Torry.

Universal Credit 27.6% of those on Universal Credit (UC) are within the South locality. The number on UC varies across the Locality, being highest in Torry (1,559) and Kincorth (780) and lowest in Culter (214).

Covid Impact There was a 131% increase in people on universal credit and 144% increase in claimants between March and November due to Covid.

Food Poverty In 2020, when asked about food security, 3.7% of respondents from the South Locality to the City Voice reported being worried they would not have enough food to eat, with 4.9% reporting they were hungry but did not eat and 1.9% going without eating for a whole day. As at 12 December 2020, 13% of calls to the crisis line requiring food assistance were from Torry.

Digital Connectivity In 2020, 80% of respondents from the South Locality to the City Voice reported having basic digital skills (based on answering 'yes' to questions about foundation skills), higher compared to respondents from the North and South Localities.

From what you have told us:

'The impact of Covid can be observed across the whole of the locality and the City.'

'Keeping people out of poverty and in employment helps all of society.'

'Increased unemployment may lead to reduced earnings.'

'Furlough may be masking redundancy figures.'

'Our young workforce is most severely impacted by loss of employment – fewer jobs.'

'People need help with debt and knowing what benefits they are entitled to.'

'There are areas which have not previously suffered from food which are now observing need.'

'Everyone needs access to a digital device to keep connected post Covid.'

Our priorities for partnership working

There is already a wide range of activity already taking place by community groups and organisations across the locality and within our priority neighbourhood partnerships to tackle the issues highlighted above.

This Locality Plan includes the areas where we can bring added value by working more collaboratively - communities, public, private and third sector organisations working together in partnership to test new ideas which we believe will improve outcomes.

The table below includes the three priorities we have identified for partnership working in the South Locality which can be linked to the Community Planning Partnership theme of Economy.

South Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Reduce number of people living in poverty. Address food poverty; fuel poverty by identifying and using local assets (community cafés; Community Kitchens).	SO1 - Poverty
Improve and create employment; employability opportunities. Develop Skills, training and support for young people and business	SO2 - Employability
Identify and embed opportunities to mitigate digital exclusion; improve access to online assessments and referrals	SO3 – Upskill/Reskill

The following tables set out the improvement projects that we believe can help us achieve our priorities.

Our Improvement Plan

Reduce number of people living in poverty. Address food poverty; fuel poverty by identifying and using local assets (eg community café; growing spaces).

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Increase the number of people using community pantries by 20% by 2023.	CFine, Anti-Poverty Group	<ul style="list-style-type: none"> Sustain and develop Torry Food pantry. Support the provision of mobile food pantries with a possibility to extend to other areas of the locality. 	Torry & Kincorth Locality Wide	CFine Torry Recovery Group
Increase the uptake of unclaimed benefit across Aberdeen City by 2023.	Department for Work & Pensions, Anti-Poverty Group	<ul style="list-style-type: none"> Develop plans to prepare people for end of Furlough (Sept) and uplift in Universal Credit. Proactively seek opportunities for communities and partners to promote increased uptake of benefits. Roll out benefits awareness/financial literacy training to community members; volunteers and staff to avoid people reaching out only at crisis point. Raise awareness of Crisis grants. Promote access to Financial Inclusion team to mitigate any delays. 	Torry & Kincorth Locality Wide	Torry Partnership Kincorth Network
Decrease the number of households in extreme fuel poverty in Aberdeen by 4% by 2023; and reduce the rate of socially rented households in fuel poverty in Aberdeen by 8% by 2023.	Scarf, Anti-Poverty Group	<ul style="list-style-type: none"> Take forward opportunities to reduce fuel cost through actions such as expansion of combined heat and power provision and promotion of improved household insulation. Raise awareness of support available, e.g. Scarf. 	Torry Locality Wide	TBC
Reduce by 50% the number of homes with an EPC rating of F&G by 2023, leading to 100% by 2026.	Aberdeen City Council, Anti-Poverty Group	<ul style="list-style-type: none"> Promote relevant grants to householders. 	Locality wide	TBC

Page 15

Increase support for those who have been most disadvantaged through the pandemic.	Aberdeen City Council, Anti-Poverty Group	<ul style="list-style-type: none"> • Ensure the efforts of community groups and partners are co-ordinated and enabled at local level to avoid duplication and target those most in need. • Local sessions to support people losing their jobs (help to apply for benefits, job seeking, CV writing) PACE. • Support and signposting to find the right scheme for specific needs. • Develop and promote training kitchen in Torry community hub development to tackle food poverty and develop skills for employment. • Support community kitchen development with Bon Accord sheltered home complexes to increase social activity, tackle food poverty and develop skills and confidence. 	Torry & Kincorth	Torry Recovery Group Kincorth Network
---	---	--	------------------	--

Improve and create employment; employability opportunities. Develop Skills, training and support for young people and business.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Income and Employment				
Support 50 people into sustained, good quality employment by 2023, and 100 by 2026, with a particular focus on; those from priority neighbourhoods and people over 50.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> • Map and identify those most in need so there is effective targeting defined by LEG. • Support those most in need with free access through the e-bike scheme across Torry and Kincorth as well as wider locality. • Promote information available from ABZ works and 3rd sector partners. • Develop volunteering pathways to lead into local employment. 	Torry & Kincorth Locality wide	

Supporting 50 people to start a business in Aberdeen who will be coming off the benefits system or significantly reducing their benefits through starting a business by 2023 and 100 by 2026.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Promote, encourage and support development of community owned enterprise – building resilience and creating jobs in the local area. Raise awareness of the potential to support the development of social enterprises, work with community to identify potential social enterprises and share good practice from elsewhere. Support for green jobs and small businesses. Early awareness raising of green job career opportunities. Investigate opportunities for job creation linked to developing leisure potential (cafes, restaurants) of harbour mouth at Torry and creating links to Beach area developments. 	Locality wide	
Increase employer sign up to the Real Living Wage by 5% year on year to 2023 to achieve Real Living Wage City Status by 2026.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Encourage employers in the locality to sign up to the Real Living Wage. 	Locality wide	TBC Torry Partnership Kincorth Network
Training and Apprenticeships				
80% of young people successfully complete their Modern Apprenticeship programme by 2023.	North East Scotland College, Aberdeen Prospers Group	<ul style="list-style-type: none"> Encourage, identify and promote apprenticeships working with partners and LEGs e.g. SSE programme. Raise awareness of career opportunities in green jobs among young people. Increase and encourage SVQ opportunities. 	Locality wide	Partnership Forums
Improve the overall impact of partnership wide community benefits by increasing the number of projects which involve community co-design activities from 0 to 5 by December 2023.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Create opportunities for co-location of community use of space with those delivering public services. Maximise range of activities catering for all with access to community facilities. Support community groups to work with partners to understand community health and wellbeing using tools such as Place Standard. Strengthen relationships with local businesses as part of their Corporate Social Responsibility and seek to maximise community benefits, including training and employment, from any developments around Torry. 	Locality wide Torry	Locality Inclusion Manager Torry Partnership

Increase the number of care experienced young people accessing a positive and sustained destination by 25% by 2022.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> Review engagement activities to support children with positive destination. 	Locality wide	Partnership Forums
---	--	---	---------------	--------------------

Identify and embed opportunities to mitigate digital exclusion; improve access to online assessments and referrals.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
By December 2022, increase by 10% the number of people in Aberdeen who: <ul style="list-style-type: none"> Have digital access; and Feel comfortable using digital tools 	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Increase opportunities for learning and support for people to embrace digital use. Work with communities to increase support available through digital champions linked to Connecting Scotland programme and similar schemes. Consider alternatives to go alongside digital resource. 	Locality wide	Communities Team

THE SOUTH PEOPLE

What we know about the South

From what the data tells us:

Child Health North Cove has the lowest breastfeeding rates in locality at 26.4% compared to the city average of 39.2%, the highest rate in the locality is in the east of Cults, Bielside & Milltimber were the rate is at 68.2%, the highest rate in the city. The % of P1 with no obvious tooth decay varies across the neighbourhoods within the Locality, being highest in Cults, Bielside and Milltimber East (85%) and lowest in Torry East (46%). Culter has the highest proportion of children at P1 with a healthy weight in the Locality at 96%. The lowest proportion in the locality is in Torry West at 68%.

Positive Destinations In 2018/19, positive destinations varied across the Locality, being highest in Cults Academy at 100% and lowest in Lochside Academy at 89%.

Mental Health The rate of probable suicide (2014-2018) in the South Locality is 10.9, lower than the city rate of 13.8 and the rates in the Central (18.7), and North (13.3) Localities. 15.6% of people were prescribed drugs for anxiety, depression or psychosis (2019/20), lower than the City (16.6%), whilst the rate of psychiatric patient hospitalisations has slightly increased to 241; lower than the city.

Life Expectancy In 2015-19, estimated life expectancy varies across the South Locality with lowest expectancy in Torry, below the city average (17-19). In 2019, death rate in the Locality is 1142, lower compared to the city rate (1,164). The majority of the neighbourhoods in the locality have lower rates than the city.

Drugs and Alcohol the rate of drug related hospital admissions in the South Locality increased to 147 per 100,000 population in 2015/16-2017/18, from 143. This is lower than the city rate (182). Torry has the highest rates of alcohol related hospital admissions (per 100,000 in 2019/20) in the Locality, higher than the city at 710.6.

From what you have told us:

'There are differences between children reaching their development milestones depending on where in the locality they live.'

'Childhood obesity and inactivity has been made worse by the pandemic.'

'Higher risk of domestic abuse, neglect and drugs during Covid.'

'Looked after children and children living in deprived areas are less likely to reach a positive destination.'

'Anti-social behaviour has increased.'

'There's been an increase in mental health issues across all age groups. Social isolation continues to be an issue.'

'Covid related deaths have been higher in areas of high disadvantage.'

Health & Wellbeing In 2019, 51% of respondents from the South Locality to the Health & Social Care users Survey said they don't take part in any community activities, lower compared to the city wide response of 53%, as well as the North Locality (57%). 91% of respondents agreed that support helps them live as independently as possible, similar to the rest of the City. 73% said it was hard for them to get motivated to look after their own health, higher compared to the city response of 68%.

Crime In 2019, crime rate per 1,000 population is highest in the Central Locality at 57.6, compared to the city rate (35.3), and North (22.9) and South (23.5) Localities. Rates vary across the Locality with a low of 17.9 in West End South to a high of 247 in City Centre East and 201 in City Centre West (both substantially higher than the city rate of 35.3). The crime rates in each of the priority neighbourhoods in the locality are higher than the city.

'We need to address mental and physical health and wellbeing for people living with disabilities.'

'Less physical activity due to leisure centres being closed but also not knowing what is available in the area to access physical activity.'

'Increase in alcohol intake due to the pandemic and link to social isolation.'

'Support to minor offenders, prevent them becoming repeat offenders.'

'Need to help those most in need and stop re-offending behaviour.'

Our priorities for partnership working

The table below includes the two priorities we have identified for partnership working in the South Locality which can be linked to the Community Planning Partnership theme of People.

South Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Support children and young people to achieve their maximum potential	SO4 – Best Start SO5 – Child Mental Health SO7 – Positive Destinations SO8 – Child Friendly City SO9 – Fewer Offences
Focus on early intervention, prevention and re-enablement actions to reduce inequalities and improve physical and mental wellbeing outcomes	SO 5 – Child Mental Health SO 11 – Healthy Life

The following tables set out the improvement projects that we believe can help us achieve our priorities.

©Felix Mooneeram

Our Improvement Plan

Support children and young people to achieve their maximum potential.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Increase uptake of parenting and family support by 10% by 2022.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> Supporting the development of Fit-like hubs and family (learning) support in schools. 	Torry & Kincorth	South Fit Like Hub team
Increase to 80%, the number of staff who feel confident about how to directly support, or refer a child for support, and signpost to appropriate services by 2022.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> Promote and embed MEOC /Teachback with staff and services supporting children and families. 	Locality wide	Partnership Forums
100% of children and young people have increased free access to physical activity which improves mental health and wellbeing by 2022.	Aberdeen City Council/ Sport Aberdeen, Children's Services Board	<ul style="list-style-type: none"> Identify volunteers to support Active Schools programme for all young people. Increase access to coaching courses for community volunteers (including working with children and young people with additional needs). Encourage outdoor play using green spaces across the locality. Support the three 'south of the river communities to work with partners to create opportunities for young people in the Lochside catchment. 	Locality wide Torry, Kincorth, Cove/ Altens	Torry Youth Action Group Kincorth Network Cove/Altens CC
Increase the number of accredited courses directly associated with growth areas by 7% by 2023.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> Identify and match workplace apprenticeships with accredited courses. Identify demand for short term skills course. Raise awareness and support people during transition to new employment opportunities. 	Locality wide	TBC
Increase by 50% the number of 10 to 16 year olds in target areas of the city who access youth community activity by 2023.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> Progress proposal for pump track in Torry. Increase activities for young people across the Locality by working together to create new opportunities. Identify facilities and places for sustainable activities for young people. 	Locality wide	Torry Youth Action Group
Reduce instances of public space youth anti-social behaviour as a result of appropriate and effective interventions in targeted areas by 10% by 2022.	Police Scotland, Children's Services Board	<ul style="list-style-type: none"> Work together with the community and partners, including Police Scotland, ACC/HSCP and 3rd sector partners to increase and promote diversionary activities for young people. 	Torry & Kincorth	Torry Youth Action Group Kincorth Network

Achieve Child Friendly City UNICEF badges.	Children's Services Board	<ul style="list-style-type: none"> Work together with the community and partners to deliver actions at local level which contribute to achieving the badges. Support organisations in Torry to embrace child friendly practices (possible Test of Change). 	Locality wide Torry	Torry Partnership
Increase the number of vulnerable learners entering a positive and sustained destination by 7% by 2023.	Children's Services Board	<ul style="list-style-type: none"> Pilot programme with vulnerable young people at Camphill. Identify and develop actions to address the mental wellbeing (and practical) needs of those young people whose transition from school has been adversely affected by the pandemic. 	Locality wide Torry and Kincorth	Camphill

Focus on early intervention, prevention and re-enablement actions to reduce inequalities and improve physical and mental wellbeing outcomes.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Physical and Mental Health and Wellbeing				
Support 50 low income families in priority neighbourhood to improve eating behaviours and adopt positive lifestyle choices to help towards a healthy weight by 2023.	NHS Grampian, Resilient, Included and Supported	<ul style="list-style-type: none"> Develop project focussed on changing attitudes to sugar and food choices. Promote Best Start/Healthy Start vitamins. 	Torry & Kincorth	TBC
Reduce the rolling 3-year average number of suicides in Aberdeen to below 26 (2019) by 2023.	Police Scotland, Resilient, Included and Supported	<ul style="list-style-type: none"> Support the development of schemes such as Men's Shed and Befriending programmes to address social isolation. Ensure people in the community know how to identify people who are most vulnerable and can sign-post them to appropriate resources. Roll out suicide prevention training /app. 	Locality wide	Culter Men's Shed Altens Men's Shed TBC
Increase the number of unpaid carers feeling supported by 10% by 2023.	Aberdeen Health and Social Care Partnership, Resilient, Included and Supported	<ul style="list-style-type: none"> Identify early intervention and prevention support for unpaid carers in the community with a view to addressing gaps and support. 	Locality wide	TBC

Increase % of people who cycle as one mode of travel to 2% by 2023.	Nestrans, Sustainable City Group	<ul style="list-style-type: none"> • Build on interest in cycling during lockdown – cycle classes; bike storage; adaptable bikes. • Promote and upgrade local cycle path networks. • Promote Aberdeen bike hire scheme once in place. 	Locality wide	TBC Shmu
Support 100 people to feel confident to promote wellbeing and good health choices by 2023.	Aberdeen City Council/ Aberdeen Health and Social Care Partnership, Resilient, Included and Supported	<ul style="list-style-type: none"> • Promote respective community Facebook pages with health and wellbeing projects. • Identify what and where fitness zones are for people to be confident to promote wellbeing. • Greater encouragement and promotion of physical activity to promote wellbeing to support delivery of other priorities. 	Locality wide	
Reduce the incidence of fatal drug overdose through innovative developments and by increasing the distribution of naloxone by 10% year on year by 2022.		<ul style="list-style-type: none"> • Continue development of a multi-agency project, led by Police Scotland, to improve access to naloxone by recruiting and training family and friends of heroin users to administer naloxone when a user overdoses to reduce the number of deaths. 	Torry & Kincorth	Torry Partnership Kincorth Network
Capacity and capability building		<ul style="list-style-type: none"> • Develop and deliver courses or starter packs/ resources to help people create and manage their own community groups/ associations e.g. how to access funding, code of conduct, available support. • Increase opportunities for networking within and between communities to share good practice in managing issues or activities in their area. Consider development of online platform. 	Locality wide	Communities Team ACVO

THE SOUTH PLACE

What we know about the South

From what the data tells us:

Priority Neighbourhoods Aberdeen has 29 datazones in the 20% most deprived areas in Scotland. 9 of these are in the South locality with 8 being in Torry and 1 in Kincorth. A further 12 datazones are in the 20-40% most deprived areas. Based on SIMD, our priority neighbourhoods in the South Locality are: Torry and Kincorth.

Place Standard In March 2020, when asked about different aspects of their neighbourhood, respondents from the South Locality scored feeling safe in your neighbourhood (5.4) and availability of green space (5.2) as the highest. Lowest scoring areas were economy and access to jobs (3.0) and as well as the ability to participate in decisions and help change things for the better (3.3)

Community Safety In 2018/19, the rate (per 100,000 population) of accidental dwelling fires varies across the South Locality being highest in Braeside, Mannofield, Broomhill and Seafield South (226), substantially higher than the city rate of 115.10 and lowest in Culter at 21. The rate in Torry East has declined from 306 in 2017/18 to 187 in 2018/19, whilst the rate in Torry West has increased. In 2016-2018 the road traffic accident casualty rates per 100,000 population varies across the South Locality from a low of 20 in Braeside, Mannofield and Seafield South to a high of 124 in Torry West (more than double the city rate of 61.7), 71 in Kincorth, Leggart and Nigg North and 68 in Torry East. Rates in Torry have increased since 2015-17 with the rate in Torry West more than doubling from 55 to 124.

Active Travel In 2020, respondents from the South Locality to the City Voice reported using the following modes of transport at least once a week to travel into the city – car (66.9%), bus (44.6%), walk (42%) and cycle (2.9%).

From what you have told us:

'Most of the deprivation is within Torry and Kincorth but there are also areas in Garthdee.'

'People want to be involved in decision making so they can help change things and make them better.'

'During the first Covid lockdown some people were asked about access to their green spaces for the first time – we need to keep the conversation going. How are your local green spaces working for you?'

'Deeside area is a flood risk but we have a strong resilience group in Culter.'

'We want to maintain the increase in walking and cycling that we have seen during the pandemic.'

'Please lets have more cycling paths, cycle storage and vehicle free streets.'

Our priorities for partnership working

The table below includes the last priority we have identified for partnership working in the South Locality which can be linked to the Community Planning Partnership theme of Place.

South Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Identify and maximise use of green space; Community food growing and community garden access	SO13 – Climate Change

The following tables set out the improvement projects that we believe can help us achieve our priorities.

Our Improvement Plan

Identify and maximise use of green space; Community food growing and community garden access

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Increase community food growing in schools, communities and workplaces by 2023.	Aberdeen City Council, Sustainable City Group	<ul style="list-style-type: none"> Refresh and support engagement with food growing initiatives in sheltered housing complexes working with Bon Accord Care. Develop a range of vegetable plots/growing spaces in neglected spaces owned by community or public bodies to promote mental health, combat isolation and food poverty. Identify and establish space for allotments and other community food growing spaces (to support/targeting mental health activities). Encourage the use of social prescribing to green spaces. 	Locality wide	
Increase the number of community run green spaces that are organised and self-managed for both people and nature by a minimum of 8, of which at least 4 will in priority neighbourhoods, by 2023, particularly in priority neighbourhoods where the diversity, quality and satisfaction of green spaces and health and wellbeing outcomes tend to be lower.	Aberdeen City Council, Sustainable City Group	<ul style="list-style-type: none"> Strengthen the capacity of communities to develop community food growing and community garden initiatives. Develop opportunities for established community groups to support those starting off. Provide the tools and resources for community members to look after public spaces. Seek opportunities to promote and encourage use of the natural environment around our communities. 	<p>Locality wide</p> <p>Torry & Kincorth</p>	<p>TBC</p> <p>Nether Loirston Growers Tullos Community Garden St Fittick's Garden</p> <p>Torry Partnership Kincorth Network</p>
At least 23 organisations across all sectors in Aberdeen pledging to manage at least 10% of their land for nature by 2023 (23BY23) and at least 26% by 2026 (26BY26).	Aberdeen City Council, Sustainable City Group	<ul style="list-style-type: none"> Set up footpath groups and publish maps of the routes on community website / Facebook page. Develop (family) learning projects which encourage people to enjoy and appreciate the nature around them. 	Locality wide	<p>TBC</p> <p>Family Learning Team</p>

WHAT'S WORKING WELL AND HOW COMMUNITIES CAN GET INVOLVED

What resources are currently available?

- Our community as a resource itself
- Active community groups including community councils acting as a catalyst for community action
- Short-term skills courses delivered by universities and colleges
- Small businesses and local employers

What do we already have?

Physical and mental wellbeing

- A lot of open space. Nature reserves, parks, beach and golf courses. Schools. Local Medical practices. Libraries. Dentist. Hotels. Hub around the church with range of classes. Community councils. Being near community centre.
- Community centres used a fair amount
- Growing communities with new people moving in
- Coastal community. Walking routes. Outdoor spaces maintained by the community. Woodlands and coastal walks.
- Community allotments owned and run by community
- Sports and leisure facilities. Excellent resource to enable people to live well and be more independent. Good for physical, mental and social aspect. Hugely missed in the past year
- Before Covid, Torry community centre. Go Green café, classes in community centre "Hadn't realised how much social interaction meant to me
- Green space in area under threat
- Library also missed during lockdown
- Skatepark in Torry highly used.
- Opening of new community garden. Things going on, which is exciting.
- Community groups do a lot with limited resources
- Befriending scheme supporting people housebound with mental health problems
- Great work done together by organisations, volunteers and community councils
- Very rich heritage celebrated and appreciated by communities
- Active and engaging community councils in some areas
- High levels of volunteering across the locality

Reduce number of people living in poverty. Address food poverty; fuel poverty by identifying and using local assets (community café; Community Kitchens)

- Torry will have a brand new community hub on the site of the old Academy which will create a multi-agency resource where a range of partners will work together to tackle poverty and related issues. There will be a primary school, community facilities, community café, library area, training kitchen and it's across the road from community growing garden.

Identify and embed opportunities to mitigate digital exclusion; improve access to online assessments and referrals.

- Community centre and libraries have great facilities for computers but sometimes under used. This may require a project worker to support the learners and at set times.
- Connecting Scotland roll out of digital devices and learning support for those most in need across our communities.
- Community magazines (online and offline) available and accessible in communities which list the many activities and initiatives in the area delivered by vibrant community organisations and groups.

Identifying and maximising the use of green space; Community food growing and community garden access (inter-generational community gardens)

- Friends of St Fittick's Park promoting the value of our greenspace
- Edible garden project with interest from community to take part as well as access to outdoor space and fresh air.
- Backyard Allotments
- Walking and footpath groups to get people walking in the area promoting routes on websites and through other means. If any safety problem with paths they discuss it with the owners and get solutions.
- People who volunteer to organise hanging baskets and planters in some areas with 'Bloom Groups' who maintain them during the year

How to get involved

South Locality Empowerment Group

Local Empowerment Groups (LEGs) are made up of local people interested in improving outcomes with Aberdeen City. LEGs members will use their knowledge and experiences to influence priorities and help determine solutions. There are groups for Central, North and South of Aberdeen, however they also focus on needs that may be Citywide e.g. sharing your experience as a person living with a disability.

The role of a LEG member is intended to be as flexible as possible. People can contribute in several ways including; getting involved in activities to improve your community; attending LEG sessions; through participation in surveys or on-line forums. There are no set time commitments expected and involvement can be as little or as much as suits people's circumstances.

We are currently recruiting members to ensure we have a wide representation of communities across Aberdeen. We have a range of opportunities available for people to get involved. If you would like more information please visit our website www.aberdeencityhscp.scot/our-delivery/locality-empowerment-groups or email LocalityPlanning@aberdeencity.gov.uk

Priority Neighbourhood Partnership

Torry Partnership (formerly the Locality Partnership) is a well-established and well supported partnership group within the CPA structure. We work together to achieve improvements for the area around the themes of people, place, technology and economy and to ensure it is a place where all people can prosper.

Over 50% of membership is drawn from community representatives who, along with four local Councillors, work in partnership with representatives from:-

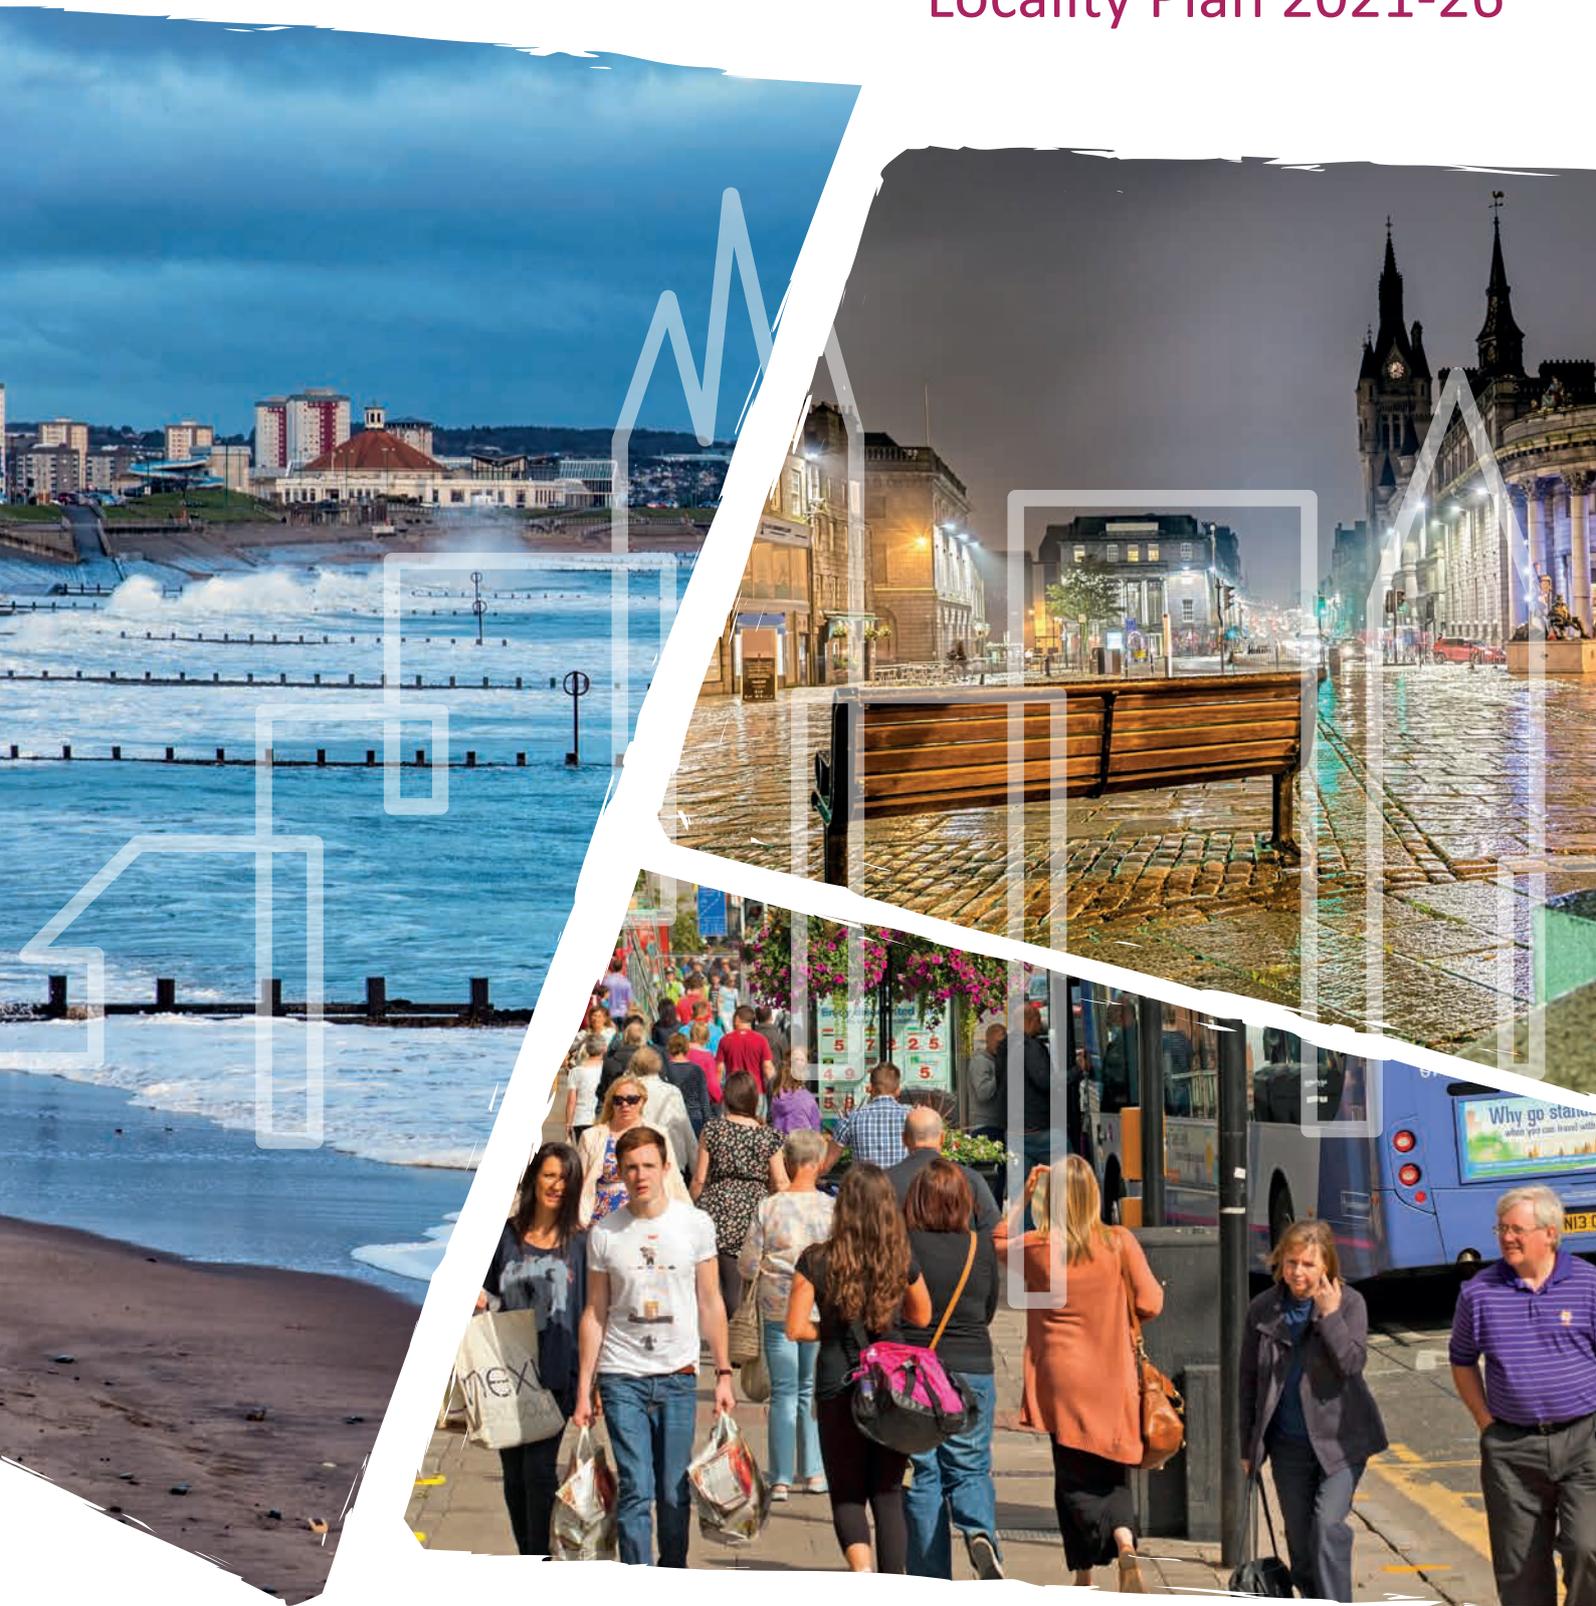

- Local schools (Tullos, Walker Road and Lochside Academy)
- The Health and Social Care Partnership and Torry Medical Practice
- Scottish Fire and Rescue Service and Police Scotland
- ACVO
- Big Noise Torry
- Aberdeen City Council
- GREC
- SHMU

The Partnership welcome interest from potential community representatives who wish to work in partnership to improve Torry.

To find out more about how you can get involved, please email localityplanning@aberdeencity.gov.uk
TorryCommunities@aberdeencity.gov.uk

FOREWORD

It is our pleasure to present the first plan for the Central area from the Locality Empowerment Group.

The plan has been drafted through discussions involving community members and staff living and working in Central locality. The plan should be regarded as a working document which is flexible and will be developed over time as shaped by communities. It is based on what is already happening and building on positive partnerships which have been developed over time. The plan links to the re-refresh of the City's Local Outcome Improvement Plan (LOIP) which highlights the breadth of work taking place and aims to utilise our assets to their full potential by working together.

Following a review of locality planning within Aberdeen, it was agreed in December 2020 to align locality planning arrangements. This has resulted in a shared description of localities and agreement to develop a single shared locality plan with a focus on priority neighbourhoods which experience socio-economic disadvantage. For Central locality, the priority neighbourhoods include Tillydrone, Seaton and Woodside, as well as Ashgrove, Stockethill and George Street.

The Tillydrone, Woodside and Seaton Priority Neighbourhood (formerly Locality) Partnership has been established for some time and has been responsible for taking forward numerous areas of work to improve those communities. The Locality Empowerment Groups (LEG) were established by Aberdeen City Health and Social Care Partnership in 2020 as community-led groups to improve health and wellbeing, and as a result of the review of locality planning, were given a broader remit to improve all outcomes for people living in Aberdeen. The Central LEG has been instrumental in the development of this plan along with the support of the Priority Neighbourhood Partnership.

Covid has had a significant impact on all our lives and this plan is intended to be flexible in adapting to the needs which arise as the full impact of the pandemic is realised on citizens of Central locality. It has been no mean feat that during these challenging times communities have responded remarkably to supporting the most vulnerable and have come together virtually to agree priorities and ideas which will further improve the lives of people living in central locality.

The next steps are to sustain and grow these partnerships and develop and implement the improvement ideas that have been suggested. The greatest asset is the people who live and work in Central locality and we hope you see this plan as yours, along with those who work in the locality, to improve the lives of everyone.

Elaine McConnachie
Public Health Co-ordinator
Aberdeen City Health and Social Care Partnership

Paul Tytler
Locality Inclusion Manager
Aberdeen City Council

Development of Plan

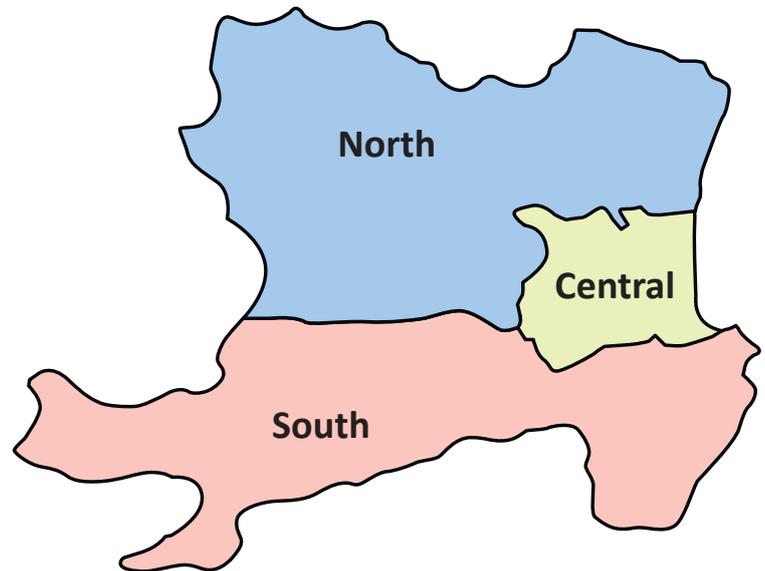

The development of this plan has taken place during a global pandemic which has meant many of the traditional ways of engaging with communities and staff, including meeting face to face and canvassing opinions in neighbourhoods has not been possible. We have instead had to rely on on-line and virtual mechanisms to capture views. In an attempt to ensure citizens and staff living and working in Central locality were involved in the process we undertook the following engagement opportunities:

- During February four workshops were facilitated on the themes of the LOIP; people (adults), people (children and young people), place and economy where locality data was shared and people were asked what the priorities should be and potential ideas for action, the workshops were attended by 38 people from central locality.
- During March staff workshops were held for each locality where locality data was shared along with feedback from community sessions to seek feedback from frontline staff on what the priorities should be and suggested ideas for actions, the central workshop was attended by 12 members of staff.
- For staff unable to attend the workshop (it was recognised these workshops were taking place during the highest level of civil contingency in response to Covid therefore making it challenging for frontline staff to attend) a Microsoft Form was developed based on the themes of the workshop, 26 members of staff completed the form.
- A Google Form was developed to capture views of children and young people and sent to all schools for completion, 130 children and young people completed the form.
- A session was facilitated with the youth council to capture views on priorities and suggested actions.
- An online simulator was developed to enable citizens to express what was important and of value to them and their community and this was open from 1-30 March 2021. The simulator was completed by 977 people in central, full results are available here [CP Simulator Summary results and Appendix \(2\).pdf](#) The top five priorities identified in the simulator were shared with members of the LEGs and incorporated in discussions to identify the six overarching themes for the central locality plan. The results were also incorporated within the plans.
- The Health and Social Care Alliance Scotland (the ALLIANCE) provided support with the process by facilitating a number of workshops throughout April including: a visioning session, an evening session and workshops for each of the three localities, the purpose of these workshops were to turn the ideas into actions, the sessions were attended by 40 people in central.
- A workshop providing an overview on Community Planning Aberdeen and consultation on the locality plan template was held in April, this was attended by 14 people.
- LEG and Priority Neighbourhood Partnership Meetings took place throughout January – April to check in with the process and gain feedback to inform the development of the plans.
- On-going actions from locality recovery plans have been incorporated within this plan.
- During this process the findings from the People at the Centre Engagement which took place nationally in late 2020 have also been considered and incorporated as appropriate.

LIVING IN CENTRAL

Central Locality is made up of 14 neighbourhoods including:

1. Tillydrone
2. Old Aberdeen
3. Seaton
4. Woodside
5. Hilton
6. Stockethill
7. Ashgrove
8. George Street
9. Froghall, Powis & Sunnybank
10. Midstocket
11. Rosemount
12. City Centre
13. Hanover
14. West End

Based on analysis from the Scottish Index of Multiple Deprivation (SIMD), we have identified some of these neighbourhoods to be priority neighbourhoods. That means they need additional support to benefit from the same opportunities to thrive and succeed as other neighbourhoods within Central Locality. Our priority neighbourhoods include: Tillydrone, Seaton, Woodside, Stockethill, Ashgrove and George Street.

Central locality is mainly urban yet retains multiple areas of green space including local allotments, several parks and Aberdeen beach. The locality encompasses multiple distinct neighbourhood areas each with their own sense of identity. Many families have lived in local areas over a number of generations and can offer extensive local knowledge.

As well as its people, Central locality contains a number of physical assets including His Majesty's Theatre, Marischal College, Transition Extreme and Aberdeen University which is surrounded by distinctive cobbled streets and historic buildings. Aberdeen Sports Village, the premier sports and exercise facility in Scotland, and Aberdeen Football Club's Pittodrie Stadium also sit within the locality boundary. Use of these resources by people experiencing financial difficulty is often reported to be low. Many residents in Central locality also report poor transport links, particularly for journeys within and across the locality. Central locality is serviced by a number of amenities including retail outlets, community and sports centres, places of worship and GP practices which are spread throughout the locality. Central also contains a diverse population with a wide range of skills and experiences contributing to community life, a significant number of people also volunteer on a regular basis helping improve outcomes for the population.

This is how people living in Central described the community they live in:

VISION FOR CENTRAL

The Vision for Aberdeen City is a 'Place where all people can prosper'.

We asked communities in the Central Locality to break this down into what this means for them.

PRIORITIES

- MENTAL HEALTH & WELLBEING**
 - Made worse by covid
 - Community Garden
 - More activities to improve mental health
 - Work in community
 - Big Lottery funded - each Thur AM
 - Raise awareness individuals
 - Team Counsellor
- REDUCING POVERTY**
 - Fuel poverty - if not connected to mains gas
 - Fairer Aberdeen grant
 - Salvation Army, Churches & Mosques
 - Food vouchers
 - Hot food & drink
 - Free breakfast surplus food distribution
 - Social Bite Cafe
- DIGITAL INCLUSION**
 - School children access to laptops & iPad
 - Other ways to engage
 - Options: What about adults, Wifi, cost, knowledge, George St
 - FREE e-consultations for ALL
 - Difficult to use
 - GP
 - Connect Scotland & local community groups help people get/stay connected

OUTDOOR SPACES

- Gardens opening up
- Allotments
- Running clubs Rugby
- LGBT
- Recovery Olympics
- Do it! BICI!
- Get outside - a smile makes a big difference
- George St football pitch well used
- test site for electric scooters
- lots of strategies
- little implementation
- Safe cycling?

HATE CRIME

- Push 4 Pillars
- Hate crime reported
- Active community = People feel safer
- Shout about it
- More forums - share views

PERSON CENTRED

- Empower individuals
- Let communities take ownership
- Remove bureaucracy
- Informal approaches - neighbours
- Can be removed
- Training Getting better at it
- Make sure everyone who wants to be involved is involved
- Long term investment required
- Drugs & alcohol are a BIG problem
- Communicate better about available services
- Get out into community

VALUES & PRINCIPLES

GROUP 1

- Empowered & connected communities - Only need this one
- Must happen all the time
- Enables all others
- Collective 'person centred' approach
- Too many different definitions
- Remove Person Centred
- What can you do? ... and do for others?

GROUP 2

- Add these:
- Tackling STIGMA
- Facilities supporting access to service & digital inclusion

TOP 3

- Focus on prevention, early intervention & reducing inequalities
- Empowered & connected communities
- Facilities to support accessing services & digital inclusion

VISIONING CENTRAL LOCALITY

Aberdeen City Health & Social Care Partnership
A caring partnership

During one of the workshops participants were then asked to vote on what was most important to them and this is what they said (the words in largest font were voted for the most with the words in smaller font receiving the least votes):

human rights approach

prevention

inequality facilities

equity early intervention

connected community

build focus justice

digital inclusion

accessibility accessing services

Using a combination of data, community and front-line staff priorities the locality identified six priorities which will ensure all people living in Central locality, including those people living in our most disadvantaged communities, have an equal chance to prosper. These include:

Locality Priorities	Link with city wide LOIP Priority Themes
Reduce the number of people living in poverty through creation of opportunities for employment and development of skills, and create solutions to tackle food and fuel poverty	Economy
Ensure people have the digital means to ensure they don't miss out on opportunities	
Improve mental health & wellbeing of the population	People
Ensure people can access services timely through a person centred approach where the needs of the whole population are considered	
Create safe and resilient communities where hate crime will not be tolerated and develop initiatives which reduce the impact of substance misuse and anti-social behaviour	
Maximise use of spaces in communities to create opportunities for people to connect and increase physical activity	Place

Above and throughout this document we have made the links between our priorities and the work of the wider Community Planning Aberdeen Partnership being delivered through the city wide Local Outcome Improvement Plan. This is essential to ensure we are working collaboratively on common priorities, supporting each other by sharing knowledge and experience and testing out our ideas together to ensure they have the best chance of success, scalability and sustainable results.

CENTRAL ECONOMY

What we know about Central

From what the data tells us:

Earnings In 2017, median annual household income ranged from £19,209 in Seaton to £50,609 in Midstocket. 11 of the datazones in the Central locality are in the 20% most income deprived areas in Scotland, with 4 in Woodside, 3 in Seaton, 2 in Tillydrone and 1 in both George Street and Stockethill.

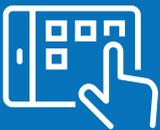

Universal Credit 42.3% of people on Universal Credit (UC) in Aberdeen live within the Central locality. Numbers are highest in Tillydrone (921), City Centre (802) and George Street (787) and lowest in Midstocket.

Covid Impact There was a 120% increase in people on universal credit and 107% increase in claimants between March and November due to Covid.

Food Poverty In 2020, when asked about food security, 9.6% of respondents from the Central Locality to the City Voice reported being worried they would not have enough food to eat, with 7.5% reporting they were hungry but did not eat and 4.5% going without eating for a whole day. As at 12 December 2020, 16% of calls to the crisis line requiring food assistance were from Seaton, Tillydrone, Woodside.

Digital Connectivity In 2020, 78.7% of respondents from the Central Locality to the City Voice reported having basic digital skills. 94.2% of respondents reported owning or having easy access to a digital device.

From what you have told us:

'Covid resulted in significant calls to support line for emotional support, financial assistance and support with food.'

'Impact of lack of employment opportunities.'

'Encouraging new businesses and supporting existing businesses and looking for inward investments are all equally important.'

'Levels of digital exclusion remain high.'

'Demand for emergency food provision remains high. Food pantries are supporting people to be less reliant on emergency food.'

'Poverty levels are increasing.'

'Covid has had a significant impact on the tourism industry and linked employment e.g. taxi drivers.'

'There are high costs of fuel in the City Centre high rises due to the prevalence of storage heaters.'

'Connectivity is a major issue for people who are lonely and isolated.'

Our priorities for partnership working

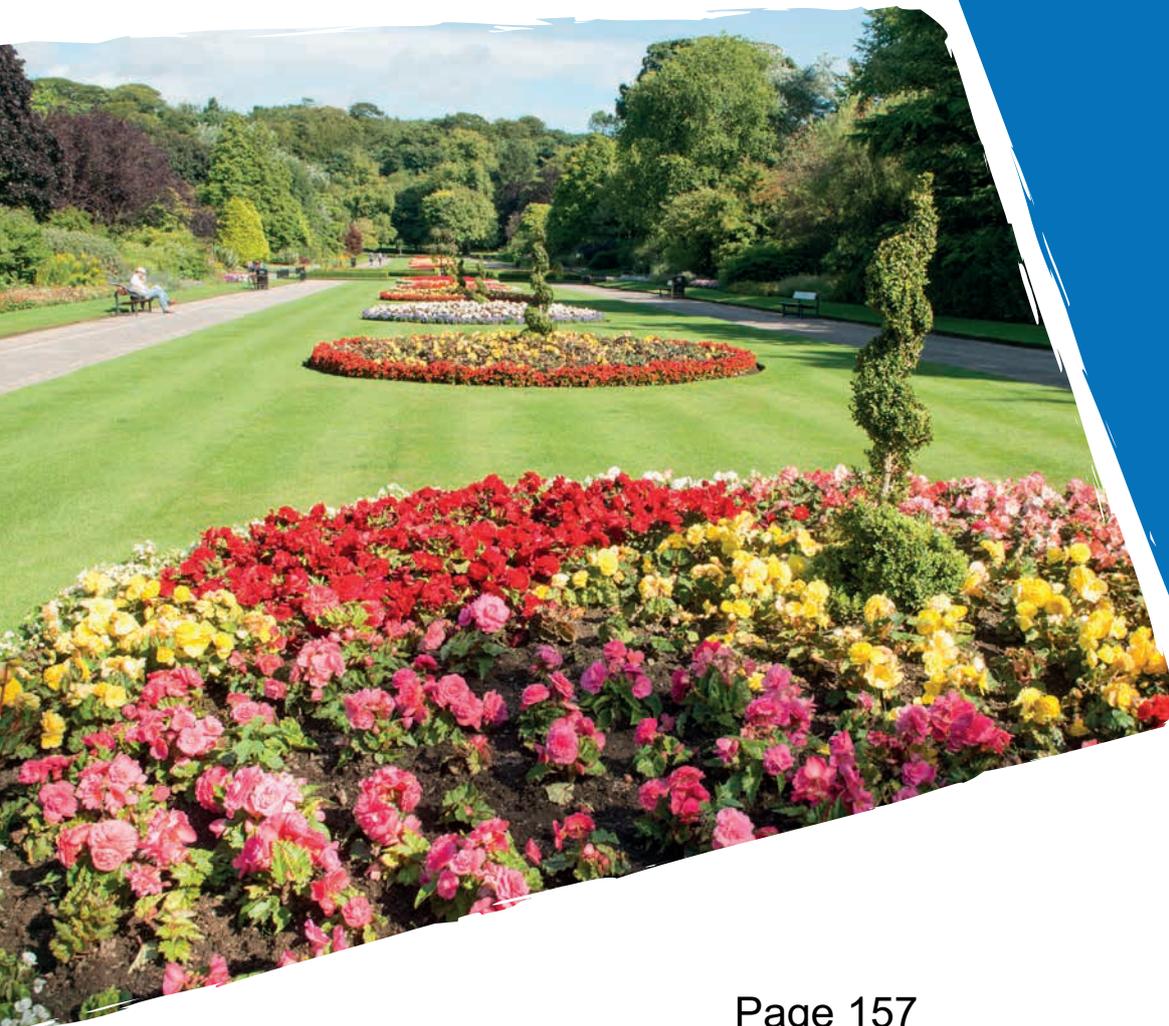

There is already a wide range of activity already taking place by community groups and organisations across the locality and within our priority neighbourhood partnerships to tackle the issues highlighted above.

This Locality Plan includes the areas where we can bring added value by working more collaboratively - communities, public, private and third sector organisations working together in partnership to test new ideas which we believe will improve outcomes.

The table below includes the two priorities we have identified for partnership working in the Central Locality which can be linked to the Community Planning Partnership theme of Economy.

Central Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Reduce the number of people living in poverty through creation of opportunities for employment and development of skills, and create solutions to tackle food and fuel poverty	SO1 - Poverty SO2 - Employability
Ensure people have the digital means to ensure they don't miss out on opportunities	SO3 – Upskill/Reskill

The following tables set out the improvement projects that we believe can help us achieve our priorities.

Our Improvement Plan

Reduce the number of people living in poverty through creation of opportunities for employment and development of skills, and create solutions to tackle food and fuel poverty.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Income and Employment				
Increase employer sign up the Real Living Wage by 5% year on year to 2023 to achieve Real Living Wage City Status by 2026.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Encourage employers in the locality to provide the living wage. 	Tillydrone, Seaton and Woodside, Ashgrove, Stockethill & George Street	Locality Manager
Support 50 people into sustained, good quality employment by 2023, and 100 by 2026, with a particular focus on; those from priority neighbourhoods; and people over 55	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Increase opportunities to develop skills in locality and link to community enterprises. Focus efforts of activity for people who may be a distance from employment e.g. people living with a learning disability. Lobby for employers and jobs in central locality e.g. 20 min neighbourhoods. Speed dating/jobs fair for people from different sectors in different roles to enable people to find out more about what is available. Utilise Tillydrone Community Campus to provide space for people to come in for a cup of tea and then make introductions to employability officer. Delivery of after-school club, supporting parents in work (Locality Recovery Plan). Third sector coming together to influence – targeted commissioning approach. Local ESOL (English as a second on other language) delivered in communities. 	<p>Tillydrone, Seaton and Woodside, Ashgrove, Stockethill & George Street</p> <p>Tillydrone</p> <p>Woodside</p> <p>Locality wide</p>	<p>Locality Manager</p> <p>Fersands and Fountain Community Project SHMU</p>

Supporting 50 people to start a business in Aberdeen who will be coming off the benefits system or significantly reducing their benefits through starting a business by 2023 and 100 by 2026.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> • Create a community owned enterprise – to support development of myriad of food growing spaces in neglected spaces owned by community to promote mental health, combat isolation and food poverty. • Utilise empty premises to encourage new business. 	Tillydrone George Street Woodside	TBC
Skills				
Increase the number of Modern and Graduate Apprenticeships by 5% by 2022.	North East Scotland College, Aberdeen Prospers Group	<ul style="list-style-type: none"> • Promote traineeships for young people, making it easier for local employers to access and encourage employers to get involved by raising awareness and providing information to employers. 	Locality wide	TBC
Improve the overall impact of partnership wide community benefits by increasing the number of projects which involve community co-design activities from 0 to 5 by December 2023.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> • Test community input with new Riverbank School to realise community benefits. 	Tillydrone	City Growth
Poverty				
Increase the number of people using community pantries by 20% by 2023.	Cfine, Anti-Poverty Group	<ul style="list-style-type: none"> • Create sustainable food provision through use of community pantries. • Delivery of 'The Pantry' with Cfine model. • Lighthouse Foodbank. 	Locality wide Woodside Tillydrone	Fersands and Fountain Community Project Lighthouse
Increase the uptake of unclaimed benefit across Aberdeen City by 2023.	Department for Work & Pensions, Anti-Poverty Group	<ul style="list-style-type: none"> • Develop plans to prepare people for end of Furlough (Sept) and uplift in Universal Credit, increase awareness of where people can access help to avoid delays. • Join up working between projects – food, benefits, confidence building pulled together to make the biggest difference for individuals. 	Locality wide	TBC

Decrease the number of households in extreme fuel poverty in Aberdeen by 4% by 2023; and reduce the rate of socially rented households in fuel poverty in Aberdeen by 8% by 2023.	Scarf, Anti-Poverty Group	<ul style="list-style-type: none"> Local advice and information provision on fuel poverty. Low carbon affordable heating and insulation. 	Locality wide Tillydrone	TBC Earth and Worms
---	---------------------------	--	-----------------------------	------------------------

Ensure people have the digital means to ensure they don't miss out on opportunities.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
<p>By December 2022, increase by 10% the number of people in Aberdeen who:</p> <ul style="list-style-type: none"> Have digital access; and Feel comfortable using digital tools. 	Aberdeen City Council, Aberdeen Prospers Group City Digital Group	<ul style="list-style-type: none"> Improve digital access in community centres and sheltered housing through improved digital skills, access to internet and devices. Silver Surfers training course for older people, to help people use the internet and smart phones. Utilise library computers, council digital resources, and universities providing access to digital. Establish a lending service to enable people have access to digital equipment. Improve accessibility to healthcare through improvements to e-consult/ nearme system and consultation with patients. Improve internet coverage in George Street. Connecting Aberdeen – deliver digital connectivity and literacy work. Deliver digital champion training in communities. 	<p>Locality wide</p> <p>George Street Woodside</p>	<p>TBC</p> <p>Fersands and Fountain Community Project</p>

CENTRAL PEOPLE

What we know about Central

From what the data tells us:

Child Health The rates of smoking during pregnancy in the Central Locality is 13.2%, with the highest rate being in woodside at 27% second is Tillydrone at 26%. Woodside has the second lowest breastfeeding rate in the city 19.8% compared to the city average of 39.2%, the highest rate is in north of the West End (the second highest rate in the city) at 67.7%.

Positive Destinations In 2018/19, positive destinations varies across the Central Locality, being highest in Aberdeen Grammar School at 97% and lowest in St Machar Academy at 87%.

Mental Health The rate of probable suicide (2014-2018) is highest in the Central Locality at 18.7, compared to the city rate of 13.8 and the North (13.3) and South (10.9) Localities. 15.6% of people were prescribed drugs for anxiety, depression or psychosis (2019/20), lower than the City (16.6%), whilst the rate of psychiatric patient hospitalisations is 349; lower than the city rate.

Life Expectancy In 2015-19, estimated life expectancy varies across the Central Locality with lowest expectancy for Females in Woodside (72.3) and for Males in Seaton (69.2), both lower than the city average. The life expectancy for Males in each of the priority neighbourhoods are lower than the city average (17-19) (77.1).

Drugs and Alcohol The rate of drug related hospital admissions in the Central Locality increased to 222 per 100,000 population from 204, higher than the city rate of 182. The rate of alcohol related deaths is highest in the Central Locality at 27.2 per 100,000 in 2014/18, compared to 19.9 for the city. Tillydrone has the highest rate (1,348) of alcohol related hospital admissions (19/20) in the Locality, nearly double the city rate (710.6) and more than 3 times the rate of the lowest neighbourhood of Midstocket.

From what you have told us:

'Lack of social interaction.'

"There has been an increase in suicidal thoughts and mental health issues across all age groups.'

'Whatever the cause if you improve the mental health of children now, they will grow into adults who have less mental health problems in the future.'

'Covid has had an impact on people feeling isolated and anxious about going out.'

'Deaths due to Covid are higher in areas of disadvantage.'

'There's been an increase in people exercising indoors and outdoors. But a decline in those shielding and people feeling anxious to go out.'

'People are eating more due to stress and boredom. Adding to issues with food poverty.'

Health & Wellbeing In 2019, 49% of respondents from the Central Locality to the Health & Social Care users Survey said they don't take part in any community activities, lower than the city wide response of 53%, as well as the North (57%) and South (51%) Localities. 90% of respondents agreed that support helps them live as independently as possible, similar to the rest of the City. 71% said it was hard for them to get motivated to look after their own health, higher compared to the city response of 68% and the North Locality (59%).

Crime In 2019, crime rate per 1,000 population is highest in the Central Locality at 57.6, compared to the city rate (35.3), and North (22.9) and South (23.5) Localities. Rates vary across the Locality with a low of 17.9 in West End South to a high of 247 in City Centre East and 201 in City Centre West (both substantially higher than the city rate of 35.3). The crime rates in each of the priority neighbourhoods in the locality are higher than the city.

'Poorer sleeping patterns since Covid and difficulty accessing help to support your health and wellbeing.'

'People with a disability are reporting poorer access to health care, prescriptions, food, etc.'

'High alcohol use as a way of self medicating.'

'High levels of petty crime to fund illegal drug use.' (Tillydrone)

Our priorities for partnership working

The table below includes the three priorities we have identified for partnership working in the Central Locality which can be linked to the Community Planning Partnership theme of People.

Central Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Improve mental health & wellbeing of the population	SO 5 – Child Mental Health SO 11 – Healthy Life
Ensure people can access services timely through a person centred approach where the needs of the whole population are considered	SO 4 – Best Start SO 8 – Child Friendly City SO 10 – Community Justice SO12 – Alcohol & Drugs
Create safe and resilient communities where hate crime will not be tolerated and develop initiatives which reduce the impact of substance misuse and anti-social behaviour	SO 9 – Youth Offending SO 10 – Community Justice SO12 – Alcohol & Drugs SO13 – Climate Change

The following tables set out the improvement projects that we believe can help us achieve our priorities.

Our Improvement Plan

Improve mental health & wellbeing of the population.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Increase to 80%, the number of staff who feel confident about how to directly support, or refer a child for support, and signpost to appropriate services by 2022.	TBC Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> Ensure staff are aware at a local level of services available to support young people's mental wellbeing. Explore counselling in communities. Raise awareness of counselling support from 3rd sector. Increase awareness/confidence in professionals signposting people – MEOC approach. 	St Machar ASG area	St Machar Partnership Forum – Mental health sub group St Machar Parent Support Project ACVO
Increase by 5080% use of digital wellbeing resources for children and young people's mental health and wellbeing by 2022.	NHS Grampian, Children's Services Board	<ul style="list-style-type: none"> Increase in awareness of digital resources to support mental wellbeing. 	St Machar ASG area	St Machar Partnership Forum – Mental health sub group
100% of children and young people have increased free access to physical activity which improves mental health and wellbeing by 2022.	Aberdeen City Council/ Sport Aberdeen, Children's Services Board	<ul style="list-style-type: none"> Raise awareness of benefit of green space and potential to work with young people to improve mental health. Explore option of access to activities for young people at reduced cost through holiday periods to promote physical activity and support mental wellbeing. Delivery of early years provision in Woodside. 	Central Woodside	TBC Fersands and Fountain Community Project
Refer 20% of people living with COPD or other respiratory conditions into specific PR physical activity and other support programmes delivered in community settings by 2023.	TBC, Resilient, Included and Supported	<ul style="list-style-type: none"> Lived experience embedded in pathways, to enable people to be directed to a support group when they have a diagnosis. Increase signposting for people with health conditions to participate in physical activity. 	City Centre East	TBC

Reduce the rolling 3-year average number of suicides in Aberdeen to below 26 (2019) by 2023.	Police Scotland, Included and Supported	<ul style="list-style-type: none"> • Develop an on-line space to access free classes e.g. counselling and mentoring. Trained local volunteers enabling people who have perhaps been furloughed to provide support. • Promote United Against Suicide. • Develop and deliver activities to support people's mental health through creating opportunities to bring people together (not badged as mental health) whether it be knitting groups, exercise class etc. • Raise awareness and talk openly about mental health and make sure everyone knows they are safe to talk about mental health. 	Locality wide	TBC
Increase opportunities for people to increase their contribution to communities by 10% by 2023.	Aberdeen City Council, Resilient, Included and Supported	<ul style="list-style-type: none"> • Capitalise on civic responsibility and increase in volunteering through making it easier for people to get involved. • Support community capacity building through community councils and community groups . 	Old Aberdeen and Tillydrone	TBC
Support 100 people to feel confident to promote wellbeing and good health choices by 2023.	Aberdeen City Council/ Aberdeen Health and Social Care Partnership, Resilient, Included and Supported	<ul style="list-style-type: none"> • Identify members of Central LEG confident to promote wellbeing and good health choices. 	Locality Wide	TBC
To support 50 low income families in priority neighbourhood to improve eating behaviours and adopt positive lifestyle choices to help towards a healthy weight by 2023.	NHS Grampian, Resilient, Included and Supported	<ul style="list-style-type: none"> • Deliver weight management support to test online resources, with Connecting Aberdeen in Tillydrone. • Improve exclusive breastfeeding in Tillydrone. • Encourage independent vendors to set up healthy option takeaways near schools and gyms. • Delivery of new Cruyff Court. • Deliver outdoor learning. 	Tillydrone, Seaton and Woodside, Ashgrove, Stockethill & George Street Family Learning Team Locality Manager	Health Improvement Officer
Reduce tobacco smoking by 5% overall by 2023. CENTRAL PLACE

What we know about Central

From what the data tells us:

Priority Neighbourhoods Aberdeen has 29 datazones in the 20% most deprived areas in Scotland. 12 of these are in the Central locality with 3 in both Tillydrone and Seaton, 2 in both Stockethill and Woodside and 1 in both Ashgrove and George Street. Based on SIMD, our priority neighbourhoods in the Central Locality are: Seaton, Tillydrone, Woodside, Stockethill, George Street and Ashgrove.

Place Standard In March 2020, when asked about different aspects of their neighbourhood, respondents from the Central Locality scored availability of green space (4.7) and access to services and amenities (4.5) as the highest. Lowest scoring areas were the ability to participate in decisions and help change things for the better (2.7) as well as the economy and access to jobs (2.8).

Community Safety In 2018/19, the rate (per 100,000 population) of accidental dwelling fires varies across the Central Locality from a low of 54.8 in West End North to a high of 434 in Hanover South. The rates in 4 of the 6 priority neighbourhoods have decreased since 2017/18 with an increase in Tillydrone (126 to 272) and Ashgrove (54 to 106). In 2016-18, road traffic accident casualty rate per 100,000 varies across the Central Locality, being highest in Tillydrone (150 – more than double the city rate), City Centre East (99), and George Street (98), all substantially higher than the city rate (61.7) and compared to the lowest rate of 12 in Hanover North.

Active Travel In 2020, respondents from the Central Locality to the City Voice reported using the following modes of transport at least once a week to travel into the city – walk (61.1%), bus (51.5%), car (51.2%), and cycle (3.5%). The % reported walking substantially higher than the responses from North and South respondents.

From what you have told us:

'Grandholm and Donside are flood risk zones'

'We need to encourage a sense of place'

'20 minute neighbourhoods is about living locally and giving people the ability to meet most of their daily needs within 20 minutes. That requires having access to safe cycling and local transport options'

'We have seen improvements in road safety due to community work with community in Tillydrone'

'More should be done to improve the quality of green space in Aberdeen and offer more opportunities for people to access and enjoy green spaces rather than having green areas where nobody wants to spend any time because there is no infrastructure (benches, playgrounds, installed sports equipment for working out).'

'A 'pedestrian' first viewpoint rather than always putting the car driver first. Support for clean public transport and improved links between airport and rail.'

Our priorities for partnership working

The table below includes the last priority we have identified for partnership working in the Central Locality which can be linked to the Community Planning Partnership theme of Place.

Central Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Maximise use of spaces in communities to create opportunities for people to connect and increase physical activity	SO 13 – Climate Change SO 14 – Active Travel SO15 - Nature

The following tables set out the improvement projects that we believe can help us achieve our priorities. We also provide information on the developments within the central locality.

Physical Activity				
Increase % of people who cycle as one mode of travel by 2% by 2023.	Nestrans, Sustainable City Group	<ul style="list-style-type: none"> • Improve and maintain core paths and ensure they are appropriately signposted. • Increase number of safe cycle lanes across locality. • Investigate possibility of alternative means of travel. 	Locality wide	TBC
Increase % of people who walk as one mode of travel by 10% by 2023.	Nestrans, Sustainable City Group	<ul style="list-style-type: none"> • Increase prevalence of benches to enable people to sit outside and rest whilst walking. • Raise awareness of various walking groups and connect people into them. • Encourage pedestrian first policy. • Street Design – delivery of improved safety at the underpass. 	Locality wide Midstocket and Old Aberdeen (identified in simulator)	TBC
Reduce the generation of waste in Aberdeen by 8% by 2023	Aberdeen City Council, Sustainable City Group	<ul style="list-style-type: none"> • Increase awareness and prevalence of recycling options and secure recycling and litter bins. • Reduce flytipping. 	Tillydrone	Locality wide

Printfield 10

The Denis Law Legacy Trust has developed the Printfield 10 Project with the aim of motivating, inspiring, and engaging the Printfield community, whilst also celebrating Denis Law and promoting the opening of the Hall of Heroes in Provost Skene's House. The Printfield 10 Project proposal includes three public artworks. The first is a mural which depicts a timeline of Denis Law and his sporting achievements. The second represents Denis Law and his iconic goal celebration and the third depicts Denis Law in his Scotland kit.

City Centre Masterplan

Within Central Locality, but impacting city-wide, the City Centre Masterplan is being reviewed to integrate further "smart city thinking" into the medium-term plans to develop the city centre. An engagement exercise with the public, all appropriate partners and stakeholders will be undertaken to seek views on the City Centre Review, what it would take to attract people back to the city centre in the short-term, how the changed travel patterns and reductions in travel experienced throughout the pandemic can be embedded and how best the city can be a leader in the digital economy. The contribution of the City Centre Masterplan review and the Local Development Plan will be considered to ensure that the ambition to secure sustainable inclusive economic growth by attracting businesses operating in energy transition or low carbon sectors to the city is realised.

Beach Masterplan

The one mile long Aberdeen beach is in the heart of the city running from Fittie to Donmouth Nature Reserve, and also acts as a gateway to other beaches to the north. In practical economic terms, the beach waterfront is a tourism priority in its own right. What it offers to visitors is likely to be more in demand in a post-Covid-19 and recovery phase – as consumers seek safe, outdoor, wildlife and active experiences.

The beach area is also an intrinsic component of the Aberdeen Coastal Trail, and the wide variety of tourism offer that includes nature, golf, maritime history or dolphin watching. The area received the Resort Seaside Award in 2013 and given its location a short distance from Aberdeen city centre, it provides an opportunity to attract new footfall to the city. As such it is actively promoted by both VisitScotland and VisitAberdeenshire for its popular recreational and sports area, and the Beach Leisure Centre, Linx Ice Area, a range of cafes, restaurants and a family fun fair. It is therefore a component of the VisitAberdeenshire destination planning and contributes to wider development work on the North East of Scotland adventure tourism. In terms of wider economic recovery of cities, the beach area is an opportunity and tourism asset. As it is located almost in the city centre, it provides Aberdeen with a distinct and unique advantage to generate new visits and spend over other UK destinations. Common themes that underly each of the physical areas of review are property, legal, planning, streets, utilities, roads and transportation, maintenance, landscape and sustainability.

The review will focus on the key principles of placemaking as identified in the Council's own masterplanning process, whilst examining potential measures to support any medium to long term economic recovery. Accessibility for all and safety will also be critical.

The amenities and assets within this beach area review would include, but are not limited to: Beach Boulevard: Grand procession to beach encouraging pedestrian friendly active travel and developing activity along the route: Connectivity between Beach and City Centre; Queens Links; Beach Ballroom: condition survey; Beach Leisure Centre/Ice rink: condition survey; Broadhill; Cricket pitch; and Page 340 Coastal defence, ground conditions These will be subject to condition surveys as necessary, options appraisal and recommendations for future use. Preliminary discussions with Sport Aberdeen and Aberdeen Football Club have been undertaken to understand the possible land that could be in scope. As part of further consultation with the public this will also include engagement with appropriate stakeholders in the area.

WHAT'S WORKING WELL AND HOW COMMUNITIES CAN GET INVOLVED

What resources are currently available?

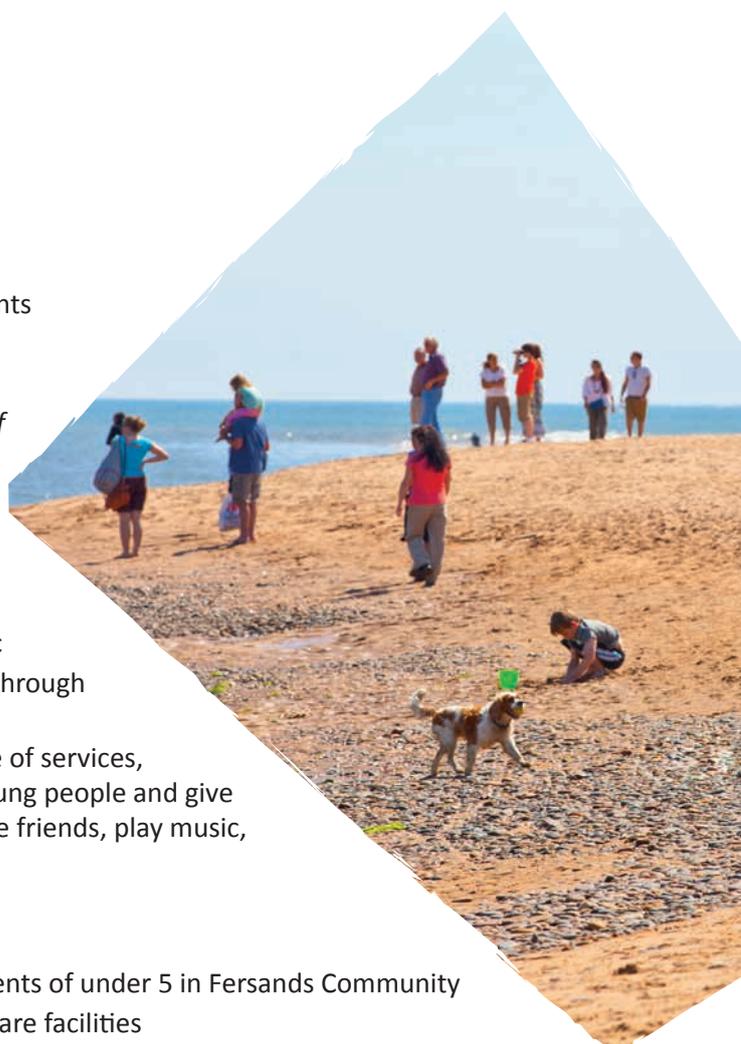

Feedback from locality sessions included;

- Seaton, Tillydrone and Printfield Community flats
- Tillydrone Campus
- Maths club
- Churches
- Community Centres, outreach workers, food distribution centres
- Community organisations – Station House Media Unit (SHMU); St Machar Parent Support; Aberdeen Lads Club; Fersands and Fountain Community Project, Printfield Project
- GP practices, pharmacists, link practitioners
- Beach
- Parks
- Libraries
- Schools, university
- Transport connections
- Local businesses
- Tuck shop, Surf society, grassy spaces, dog training, allotments

What do we already have?

Reduce the number of people living in poverty through creation of opportunities for employment and development of skills, and create solutions to tackle food and fuel poverty

- Support group for young mums, involved in city & guild qualification – building skills which help them to move on and is not always accessible in their community
- Provided food vouchers and food parcels through pandemic
- Linking up with pantry stock so people can sign up directly through hub and reduce stigma
- Fersands and Fountain Community Project run a wide range of services, groups, activities, residential experiences which support young people and give them avenues to express themselves, get out, keep fit, make friends, play music, develop skills and save money.
- Online youth activities
- Offer support to parents of teenagers
- Parent support service through Family Centre targeting parents of under 5 in Fersands Community
- Parent Workshops, Mother & Toddler activities Good Childcare facilities
- Woodside Adult Classes; Tai chi / Yoga / games session / Creative writing potential for more opportunity, potential for good social activity within centre.
- Bi-monthly Free Meal Events serving quality home cooked meals to 80 in the community.
- Quality Meals at Nursery & Me two's / Good quality Food snacks at Junior Clubs / Youth group
- Breakfast Club / After school club & promoting food education.

Maximise use of spaces in communities to create opportunities for people to connect and increase physical activity.

- LGBT Community hub
- Physical activity classes at Westburn centre
- Open spaces in the university – Cruickshank gardens, community growing projects with student groups
- Community councils making links
- Local police officers, locality officers out in community on daily basis engaging with community members – also attend community council meeting where possible and produce monthly report
- Police initiatives to reduce impact of substance use
- Antisocial behaviour – officers around to deter those looking to be antisocial
- M26 group – addresses over 25s hanging about and causing mayhem, alternative activities, fishing, gardening, great impact as individuals were able to turn their lives around
- Student experience team trying to create community champion campaign to get students to be more involved in the community
- Lot of work done in community tackling discrimination
- Lots of places where there are community conversations between people who otherwise may not meet e.g. church shares space with mosque – valuable conversations
- Naloxone training available
- Police happy to come out and speak to community groups if this is helpful

What is currently working well?

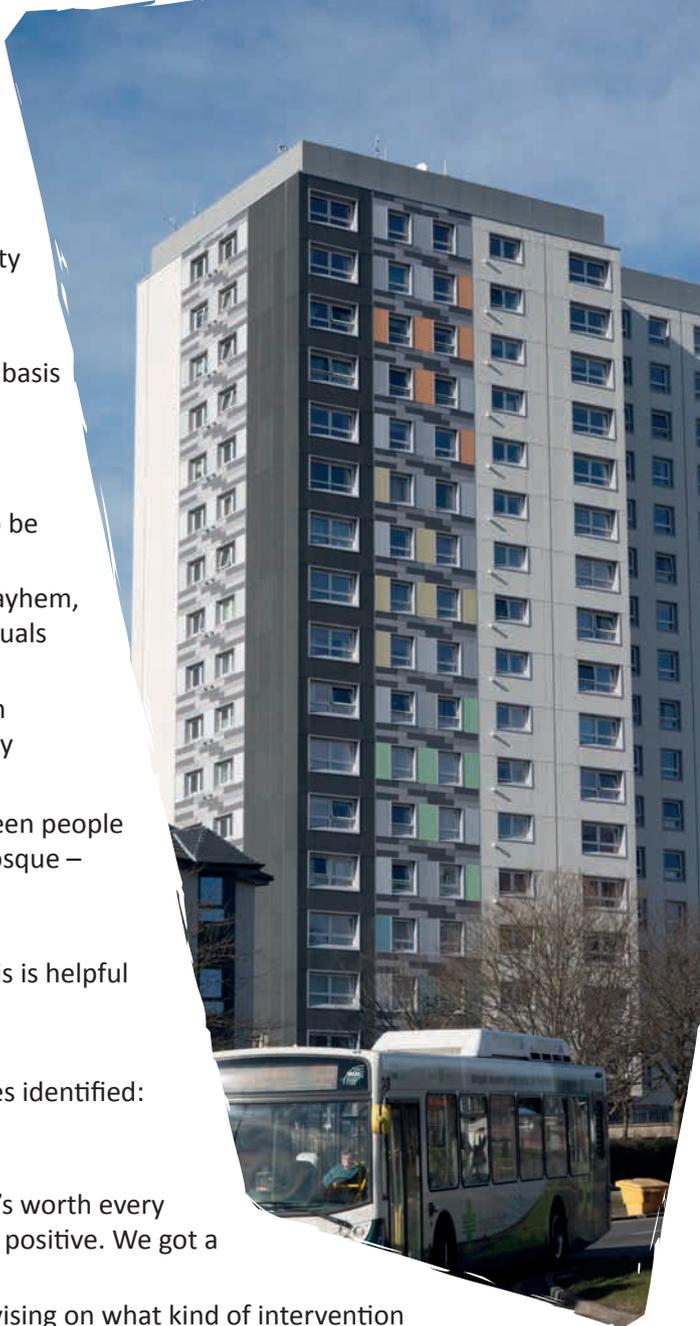

Can you share any good examples or highlights based on the priorities identified:

Mental Health and Wellbeing

- We have a Counsellor who works every Thursday morning. She's worth every penny, coping strategies, gets you to think. This has been really positive. We got a big lottery grant for this which lasted a year.
- Support counsellor provides for the team is also important, advising on what kind of intervention would be appropriate for a parent or a client. Would be good to be able to discuss with a counsellor what kind of intervention would be the most appropriate.
- Working in the community is most effective, rather than centralised meetings in city centres. If it is done in the community this helps them get used to the same setting with the same people. Also aids mental health.
- Recently we have been building closer links with Mental Health Aberdeen with Lockdown Mural/ Health Wellbeing Hampers/ Youth Work Training /1-1 counselling.

Reducing Poverty

- The Salvation Army offer hot drinks and hot food multiple times a week. Churches and mosques are involved with this support. They walk up and down Union Street every day to speak to homeless people on the street. Social Bite Café have started doing free breakfasts.
- Organisation picks up surplus food from supermarkets for people they support.
- There are lots of foodbanks in central. They continue to do a great job but that is one single angle. Poverty is not always about food.
- Organisations providing food vouchers for those encountering hardship. This is an initiative we set up just for our community, however, other communities coming forward.
- Developing pantry service saving 100 customers £20 per week on grocery bill. 8 regular volunteers.

Digital Inclusion

- Connecting Scotland work to get devices to people, help disabled people, older people to remain connected. Local community groups are also essential with helping people to get connected. Online access to services can save people money on transport (in one example, it saved someone £30 on a taxi. In another, it saved someone getting two buses to hospital).
- A pledge that all school children be given a laptop or tablet.

Person Centred Approaches

- We're getting better and better at this, with it being incorporated into training.
- Also informal person centred approaches within communities. Have seen neighbours helping one another during Covid-19.

Outdoor Space/Physical Health

- Cryuff Court has opened on George Street, this has been extremely well used since it was opened.
- Gardens being done up; green space is the thing for smaller communities. It's not about gardening for all, but running clubs for e.g., one dedicated to LGBT people in Central. Rugby club dedicated in Central too.
- Its giving people space to get out. A smile means a lot to people. Even engaging with a facial gesture is important, it means people feel part of it rather than isolated.

Get Involved

LEGs

Local Empowerment Groups (LEGs) are made up of local people interested in improving outcomes with Aberdeen City. LEG members will use their knowledge and experiences to influence priorities and help determine solutions. There are groups for Central, North and South of Aberdeen, however they also focus on needs that may be Citywide e.g. sharing your experience as a person living with a disability.

The role of a LEG member is intended to be as flexible as possible. People can contribute in several ways including: getting involved in activities to improve your community; attending LEG sessions; through participation in surveys or on-line forums. There are no set time commitments expected and involvement can be as little or as much as suits people's circumstances.

We are currently recruiting members to ensure we have a wide representation of communities across Aberdeen. We have a range of opportunities available for people to get involved. If you would like more information please visit our website www.aberdeencityhscp.scot/our-delivery/locality-empowerment-groups or email LocalityPlanning@aberdeencity.gov.uk

Priority Neighbourhood Partnership

Woodside, Tillydrone and Seaton Partnership (formerly the Locality Partnership) is a well-established and well supported partnership group within the CPA structure. We work together to achieve improvements for the area around the themes of people, place, technology and economy and to ensure it is a place where all people can prosper.

Membership

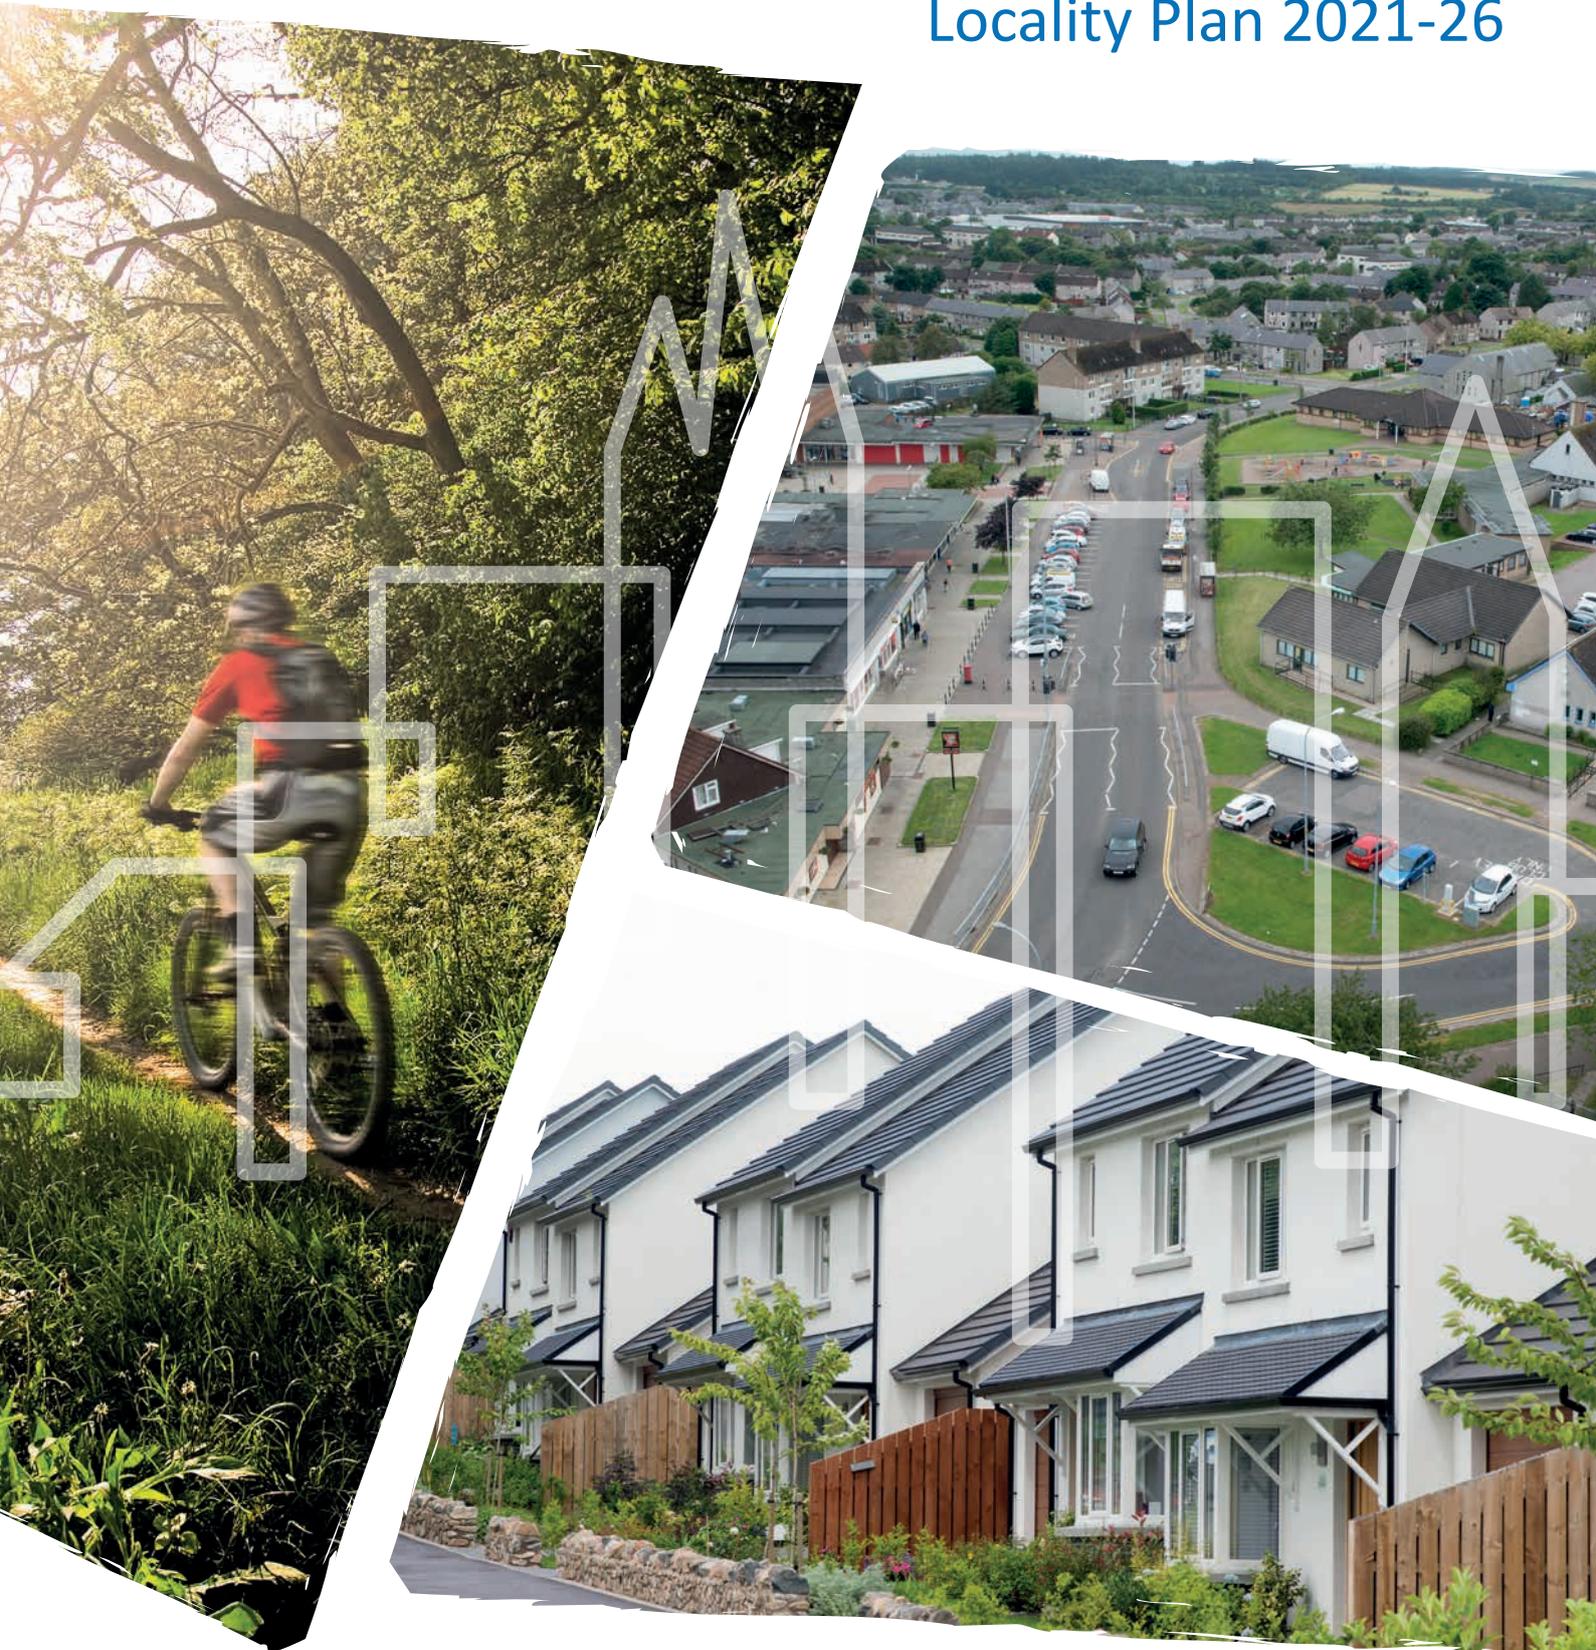

- 8 Community Representatives
- 2 Community Council Representatives
- 4 Community Project Representatives
- 1 ACVO / Third Sector Representative
- 6 Elected Members
- 2 Aberdeen City Council
- 1 AHSCP Representative
- 3 Police Scotland, SFRS Representatives

To find out more about how you can get involved, please email localityplanning@aberdeencity.gov.uk

- 7. **How communities can get involved**..... 26

FOREWORD

We are delighted to share the first North Locality Plan. The plan has been developed by exploring local data but, more importantly, has been shaped by listening to the people living and working across the locality to understand what would make the greatest difference to them. This has taken place through the establishment of the North Locality Empowerment Group and discussions with various stakeholders, including community members.

We recognise that within the North locality there are some neighbourhoods which face challenges requiring targeted support. The Northfield Priority Neighbourhood Partnership continues to follow the work of the former Northfield Locality Board (and earlier Northfield Total Place) to build on the partnership work within these areas – *Northfield, Mastrick, Cummings Park, Middlefield and Heathryfold*.

The Covid 19 pandemic has had a significant impact on all our lives. Communities have demonstrated how responsive and willing they can be in meeting the range of challenges that their members have faced.

The next steps are to continue to build on what is strong across North locality and strengthen our collective vision to ensure that North locality is a place where all can prosper. This plan should be seen as a living document and will be shaped by the community as we continue to understand the needs and opportunities in the area.

Anna Gale
Public Health Co-ordinator
Aberdeen City Health and Social Care Partnership

Martin Smith
Locality Inclusion Manager
Aberdeen City Council

Development of Plan

The development of this plan has taken place during a global pandemic which has meant many of the traditional ways of engaging with communities and staff, including meeting face to face and canvassing opinions in neighbourhoods across North locality has not been possible. Instead most engagement has taken place on-line and through virtual mechanisms to ensure that views have been captured. In an attempt to ensure citizens and staff living and working in North locality were involved in the process the following engagement opportunities took place:

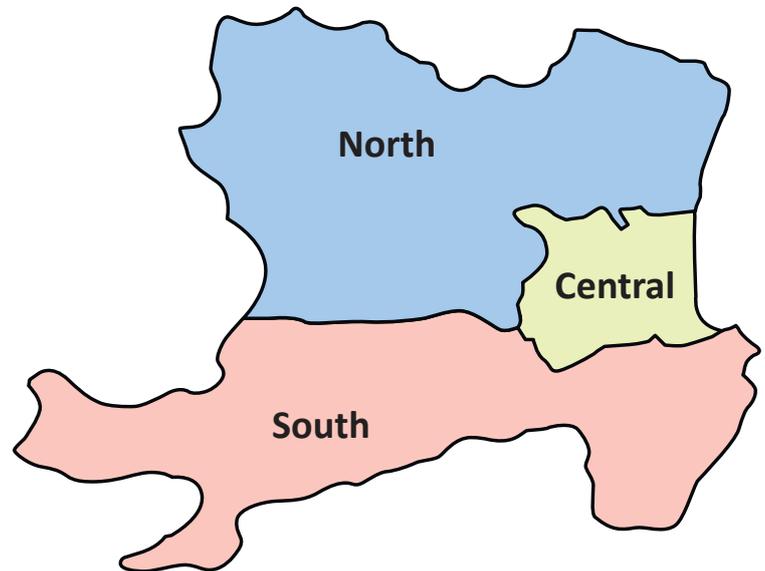

- During February four workshops were facilitated on the themes of the Local Outcome Improvement Plan (LOIP); people (adults), people (children and young people), place and economy where locality data was shared and citizens were asked what the priorities should be and potential ideas for action, the workshops were attended by 45 people from North locality.
- During March staff workshops were held for each locality where locality data was shared along with feedback from community sessions to seek feedback from frontline staff on what the priorities should be and suggested ideas for actions, the North workshop was attended by 21 members of staff.
- For staff unable to attend the workshop (it was recognised these workshops were taking place during the highest level of civil contingency in response to COVID therefore making it challenging for frontline staff to attend) a survey was developed based on the themes of the workshop, 26 members of staff shared their views.
- An additional survey was tailored to capture views of children and young people and sent to all schools for completion, 130 children and young people completed the form.
- A session was facilitated with the youth council to capture views on priorities and suggested actions.
- An online simulator was developed to enable citizens to express what was important and of value to them and their community and this was open from 1-30 March 2021. The simulator was completed by 713 people in North. Full results are available here [CP Simulator Summary results and Appendix \(2\).pdf](#) The top five priorities identified in the simulator were shared with members of the Locality Empowerment Groups (LEGs) and incorporated in discussions to identify the six overarching themes for the North locality plan. The results were also incorporated within the plans.
- The Health and Social Care Alliance Scotland (the ALLIANCE) provided support with the process by facilitating a number of workshops throughout April including; a visioning session, an evening session and workshops for each of the three localities, the purpose of these workshops were to turn the ideas into actions, the sessions were attended by 17 people in North.
- A workshop providing an overview on Community Planning Aberdeen and consultation on the locality plan template was held in April, this was attended by 14 people.
- LEG and Priority Neighbourhood Partnership Meetings took place throughout January – April to check in with the process and gain feedback to inform the development of the plans.
- On-going actions from Locality Recovery Plans have been incorporated within this plan.
- During this process the findings from the People at the Centre Engagement which took place nationally in late 2020 have also been considered and incorporated as appropriate.

LIVING IN THE NORTH

Central Locality is made up of 14 neighbourhoods including:

1. Dyce
2. Danestone
3. Oldmachar
4. Denmore
5. Balgownie & Donmouth
6. Bucksburn
7. Heathryfold
8. Middlefield
9. Kingswells
10. Northfield
11. Cummings Park
12. Sheddocksley
13. Mastrick
14. Summerhill

Based on analysis from the Scottish Index of Multiple Deprivation (SIMD), we have identified some of these neighbourhoods to be priority neighbourhoods. That means they need additional support to benefit from the same opportunities to thrive and succeed as other neighbourhoods within the North Locality. Our priority neighbourhoods include: Heathryfold, Middlefield, Northfield, Cummings Park and Mastrick.

The North area of the City covers a large area of the city from suburban areas bordering Aberdeenshire to more populated urban housing estates. Many of these neighbourhoods run alongside the River Don. Aberdeen airport lies within North locality resulting in people regularly travelling to the area for employment and recreation purposes. The oil boom in the 1980s gave way for a number of new housing developments as well as a number of oil and gas companies establishing bases within the area. Within the area, there are many green spaces, a community Hub, Aberdeen Treasure Hub, community centres, schools and places of worship providing a range of opportunities. New additions to the area include the P&J Live – a multipurpose indoor arena as well as the connecting Aberdeen Western Peripheral Route.

This is how people living in North described the community they live in:

Complicated **Safe**
Leafy **Villagey**
Growing **Huge**
Active

VISION FOR NORTH

The Vision for Aberdeen City is a 'Place where all people can prosper'.

We asked communities in the North Locality to break this down into what this means for them.

PRIORITIES
Do you agree with priorities?
 - Priorities do NOT apply to Bridge of Don
 - HUGE community large population
 - Focus on regeneration
 - LOPSIDED North sub-groups?
 - Should apply to full North
 - Change language around poverty
 - Differs depending on demographics of specific North communities
 - Physical health important across communities
 - Danestone & Bridge of Don
 - Need for local employment
 - Affected by oil
 - Older people Funding?
 - Digital access is key

What's working well?
VOLUNTEERING OPPORTUNITIES
 - Full sense - not just post covid
 - Battalion of volunteers - how to best use?
 - Asset mapping - priorities may change
 - Park generates lots of people from all areas
 - clean up & gardening
 - Outreach programme in sheltered housing - older volunteers - post covid support
DIGITAL INCLUSION
 - Connecting Scotland delivering technology to households
 - Council looking to expand wifi for sheltered complexes
 - Donestone Community centre busy - community wants
 - Scotland's Service Directory - what's out there? up to date
REDUCING POVERTY
 - Food & fun established holiday hunger programme
 - Parents involved in cookery prep & on committees
PHYSICAL HEALTH & WELLBEING
 - Silver Surfers

What needs to change?
 - Grow confidence of volunteers - post covid
 - Crossroots - meetings dominated by professional staff
 - Professionals in communities - listen & find out what has changed
 - Capitalise on appetite for volunteering
 - Professional help to recruit
 - Share volunteers across communities
 - Share resources too
 - Volunteering as a step into employment
 - How to create spaces, get better at connecting & sharing
 - e-consult
 - Transparency, honesty & listening

PRINCIPLES/VALUES TOP 3
 1. Empowered & connected communities
 2. Focus on prevention, early intervention & reducing inequalities
 3. Build on what we already have

Other suggestions:
 - Happy & active community
 - Rewarded & valued community
 - Listening, transparency & honesty

VISIONING NORTH LOCALITY
 Aberdeen City Health & Social Care Partnership
 A caring partnership

During one of the workshops participants were then asked to vote on what was most important to them and this is what they said (the words in largest font were voted for the most with the words in smaller font receiving the least votes):

Using a combination of data as well as insight from community members and front-line staff, six priorities were identified to ensure that all people living in North locality, including those people living in our most disadvantaged communities, have an equal chance to prosper. These include:

Locality Priorities	Link with city wide LOIP Priority Themes
Reduce the number of people living in poverty through the creation of local employment, training and apprenticeship opportunities, and create solutions to tackle food poverty	Economy
Increase digital access and skills across the locality	
Improve the physical health and wellbeing of people	People
Support local volunteering opportunities beyond the pandemic	
Early intervention approach targeted at those who are involved in, or at risk in offending behaviour (domestic abuse, substance misuse, anti-social behaviour)	
Maximise use of disused outdoor space to increase food growing opportunities	Place

Above and throughout this document we have made the links between our priorities and the work of the wider Community Planning Aberdeen Partnership being delivered through the city wide LOIP. This is essential to ensure we are working collaboratively on common priorities, supporting each other by sharing knowledge and experience and testing out our ideas together to ensure they have the best chance of success, scalability and sustainable results.

THE NORTH ECONOMY

What we know about the North

From what the data tells us:

Earnings In 2017, median annual household income ranged from £18,596 in Middlefield to £59,162 in Kingswells. 7 of the datazones in the North locality are in the 20% most income deprived areas in Scotland, with 3 in both Mastrick and Middlefield and 1 in Northfield.

Universal Credit 30.1% of people in Aberdeen on universal credit live within the North Locality. Numbers are highest in Bucksburn (783), Heathryfold & Middlefield (766), Northfield (628) and Mastrick (538) and lowest in Danestone (129).

Covid Impact There was a 124% increase in people on universal credit and 145% increase in claimants between March and November due to Covid.

Food Poverty In 2020, when asked about food security, 3.6% of respondents from the North Locality to the City Voice reported being worried they wouldn't have enough food to eat; 5.5% reporting they were hungry but didn't eat and 1.8% going without eating for a day. As at 12 December 2020, 13% of calls to the crisis line requiring food assistance were from Cummings Park, Heathryfold, Mastrick, Middlefield, Northfield.

Digital Connectivity In 2020, 75% of respondents from the North Locality (95.5%) to the City Voice reported having basic digital skills (based on answering 'yes' to questions about foundation skills), this is lower compared to respondents from the South and Central Localities.

From what you have told us:

The link between all areas is poverty – it connects to everything. There is lots of stigma around poverty.'

'Job losses in the oil industry and impact of Covid means more people are claiming benefits and needing support than ever before but there is stigma and shame associated with taking support when needed.'

'Covid has had a significant impact on people with disabilities – accessing benefits, training and future employment opportunities.'

'There is an increase in use of food banks and more demand for emergency food provision. Food & Fun continues in the locality so food poverty remains a challenge.'

'More apprentices and opportunities for people of all ages to seek new skills regardless of their qualifications.'

'Digital connectivity is extremely important for people. Being isolated is a big issue facing many vulnerable people currently.'

Our priorities for partnership working

There is already a wide range of activity already taking place by community groups and organisations across the locality and within our priority neighbourhood partnerships to tackle the issues highlighted above.

This Locality Plan includes the areas where we can bring added value by working more collaboratively - communities, public, private and third sector organisations working together in partnership to test new ideas which we believe will improve outcomes.

The table below includes the two priorities we have identified for partnership working in the North Locality which can be linked to the Community Planning Partnership theme of Economy.

North Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Reduce the number of people living in poverty through the creation of local employment, training and apprenticeship opportunities, and create solutions to tackle food poverty	SO1 - Poverty SO2 – Employability
Increase digital access and skills across the locality	SO3 – Upskill/Reskill

The following tables set out the improvement projects that we believe can help us achieve our priorities.

Our Improvement Plan

Reduce the number of people living in poverty through the creation of local employment, training and apprenticeship opportunities, and create solutions to tackle food poverty.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Income and Employment				
Increase employer sign up to the Real Living Wage by 5% year on year to 2023 to achieve Real Living Wage City Status by 2026.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Encourage employers in the locality to sign up to the Real Living Wage. 	Locality wide	Shmu
Support 50 people into sustained, good quality employment by 2023, and 100 by 2026, with a particular focus on; those from priority neighbourhoods and people over 50.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Develop locally designed services that reflect needs of the community. Promote information available on ABZ works. Develop volunteering pathways to lead into local employment. Promote job opportunities through new Northfield/ Cummings Park nursery as well as childcare options to support local families. Encourage opportunities to reskill local people into new employment sectors Ensure linkage to low-cost childcare options in the area. Promote and offer employability workshops delivered by Farrans. Promote the kickstart programme as well as seek opportunities to support individuals beyond kickstart. 	Heathryfold, Middlefield, Northfield, Cummings Park & Mastrick	Shmu Farrans Middlefield Community Project ACVO
Supporting 50 people to start a business in Aberdeen who will be coming off the benefits system or significantly reducing their benefits through starting a business by 2023 and 100 by 2026.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Explore opportunities and provide ongoing support to grow and sustain local social enterprises which contribute to building communities; local relationships and reducing isolation. 	Locality wide	

Support 15 care experienced young people progress to employment through public sector funded employability programmes by 2023.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Support and develop employment opportunities for young people by giving them placements and support on how to do interviews. 	Middlefield	Middlefield Community Project Shmu
Increase to 30 in total, the no. of individuals who are on a custodial sentence, Community Payback Order with a Supervision Requirement, on Unpaid Work Orders, on Remand or who have been Diverted from Prosecution who are being supported to make progress on the Employability Pipeline by 2022.	Skills Development Scotland, Community Justice Group	<ul style="list-style-type: none"> Build on learning from Community Payback Order project in Aberdeenshire and test in North. Auchmill golf course to offer local apprenticeships. 	Cummings Park Mastrick Middlefield	Shmu Auchmill golf course
Training and Apprenticeships				
80% of young people successfully complete their Modern Apprenticeship programme by 2023.	North East Scotland College, Aberdeen Prospers Group	<ul style="list-style-type: none"> Encourage young people into a range of local apprenticeship opportunities, i.e., Police Scotland; Housing; Bon Accord Care etc. Build on pilot with Hazlehead Academy and Mastrick Community Centre offering young people progression to employment within childcare sector. Promote apprenticeship opportunities at Auchmill Golf Course. Foundation apprenticeships offered by Shmu. 	Locality wide	Mastrick Community Centre Bon Accord Care Auchmill golf course Shmu
Increase the number of Modern and Graduate Apprenticeships by 5% by 2022.	North East Scotland College, Aberdeen Prospers Group	<ul style="list-style-type: none"> Promote housing modern apprentice and graduate trainee schemes. Share positive stories from local young people and employers that have benefitted from apprenticeships. 		Aberdeen City Council Shmu
Improve the overall impact of partnership wide community benefits by increasing the number of projects which involve community co-design activities from 0 to 5 by December 2023.	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> Strengthen and build on relationships with local businesses as part of their Corporate Social Responsibility – e.g., Farrans – Haudagain. Build on projects such as STEM ambassadors at Northfield Academy. Work with local oil companies in Bridge of Don/ Dyce offering volunteering time. Work with local academies to increase uptake of virtual work experience scheme with Farrans. 	Locality wide	Farrans

Increase the number of vulnerable learners entering a positive and sustained destination by 7% by 2023.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> • Map what is already going on to support vulnerable learners into positive and sustained destinations, e.g., Northfield Academy cycle maintenance, Training Academy (Shmu). • Build on Men's shed model – develop an approach which is suitable for young people and linked to a local school. • Build on learning from projects such as AMPED which is based around trail bike maintenance. • Build on test with Hazlehead Academy and Mastrick Community Centre offering young people progression to employment within childcare sector. 	Locality wide	Mastrick Community Centre Shmu
---	--	--	---------------	---------------------------------------

Poverty

Increase the number of people using community pantries by 20% by 2023.	CFine, Anti-Poverty Group	<ul style="list-style-type: none"> • Ensure that services are more joined up and wrap around the whole family/person. • Increase volunteer involvement in community pantries. • Support families beyond crisis support, i.e., budgeting; cooking skills, etc. • Use community pantries to break down barriers around poverty and stigma. • Learn from Best Start in Life pantry – opportunity to test in North. 	Locality wide	Family Learning Team - North Fit Like Hub
--	---------------------------	--	---------------	--

Increase the uptake of unclaimed benefit across Aberdeen City by 2023 (TBC).	Department for Work & Pensions, Anti-Poverty Group	<ul style="list-style-type: none"> • Ensure that services are more joined up and wrap around the whole family/person. • Roll out benefits awareness/financial literacy training to community members; volunteers and staff to avoid people reaching out only at crisis point. • Support families who experience language barriers to navigate support and benefits available. • Need to explore bold approaches to tackling poverty, i.e., buying debt. • Support families in poverty who are on low income or on furlough to access appropriate support. 	Locality wide	Community Pantry (the Cubby) North Fit Like Hub Shmu
--	--	--	---------------	--

Decrease the number of households in extreme fuel poverty in Aberdeen by 54% by 2023; and reduce the rate of socially rented households in fuel poverty in Aberdeen by 108% by 2023.	Scarf, Anti-Poverty Group	<ul style="list-style-type: none"> • Raise awareness of support available, e.g., Scarf. • Encouraging volunteers to be trained to support local households with insulation advice. 	Locality wide	Local volunteers
Increase support for those who have been most disadvantaged through the pandemic.	Aberdeen City Council, Anti-Poverty Group	<ul style="list-style-type: none"> • Ensure that support is available for families that do not qualify for benefit assistance. • More support for people with disabilities – including better access; tackling discrimination/hate crime and better opportunities for disabled people to participate. • Increased support for individuals wellbeing beyond the pandemic. • Raise awareness of poverty across the locality to break down the barriers around poverty and stigma. • Share learning from pop-up TSB services at Danestone. • Promote Pathways employability programme. 	Locality wide	Danestone Community Centre

Page 89

Increase digital access and skills across the locality.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
<p>By December 2022, increase by 10% the number of people in Aberdeen who:</p> <ul style="list-style-type: none"> • Have digital access; and • Feel comfortable using digital tools. 	Aberdeen City Council, Aberdeen Prospers Group	<ul style="list-style-type: none"> • Ensure that sheltered housing complexes have wifi to allow digital connection. • Increase support available for digital champions as part of Connecting Scotland programme. • Promote Connecting Scotland programme and distributing devices amongst new parents to connect to social support. • Promote places where people can access digital devices and support, e.g., community centres and libraries. Could people lend out a laptop? • Ensure Wifi is available in community centres and libraries so that people can take their own devices and access free data. • Promote digital inclusion course via Farrans and Shmu. • Improve wellbeing with a group of individuals at Dominies Court through digital support. 	Locality wide	<p>Farrans</p> <p>Shmu</p> <p>Libraries</p> <p>Aberdeen Health and Social Care</p> <p>Sport Aberdeen</p> <p>Bon Accord Care</p> <p>Middlefield Community Project</p>

THE NORTH PEOPLE

What we know about the North

From what the data tells us:

Child Health Child Health The % of primary ones with no obvious tooth decay varies across the Locality, being highest in Oldmachar (89%) and lowest in Heathryfold/Middlefield (58%), compared to the city rate of 69.7%. Balgownie and Donmouth West have the highest proportion of children at P1 with a healthy weight in the Locality 92%. The lowest proportion of P1s with a healthy weight in the locality is Heathryfold/Middlefield at 72%.

Positive Destinations In 2018/19, positive destinations varied across the Locality, being highest in the North Locality at Dyce Academy at 95% and lowest in Northfield Academy at 81%.

Mental Health The rate of probable suicide (2014-2018) in the North Locality increased to 13.3 from 11.7; similar to the city rate of 13.8; 18.9% of people were prescribed drugs for anxiety, depression or psychosis (2019/20)

Life Expectancy Heathryfold/Middlefield has both the lowest life expectancy (F:76.9/M: 71.8) and highest death rates in the Locality (1,446), more than double the lowest rate in the Locality of 692 in Kingswells.

Drugs and Alcohol The rate of alcohol related deaths is lowest in the North Locality at 16.9 per 100,000 in 2014/18, compared to the city (19.9). Heathryfold & Middlefield has the highest rate (1,348) of alcohol related hospital admissions (19/20) in the Locality, nearly double the city rate (710.6) and more than 6 times the rate of the lowest neighbourhood of Balgownie and Donmouth West (281). The rate of drug related hospital admissions in the North Locality increased to 168 per 100,000 population in 2016/17-2018/19, from 156. This is lower than the city rate (182) and the Central Locality (222), but higher than in the South Locality (147).

From what you have told us:

'Concerned that the lack of social activities and social development during Covid will have a lasting impact on all children and their parents.'

'We are particularly worried about the impact of Covid on the transition from P7 to S1 in our priority neighbourhoods.'

'There's been an increase in people exercising indoors and outdoors. But a decline in those shielding and people feeling anxious to go out.'

'People are eating more but more people are also cooking from scratch.'

'Social isolation continues to be a contributing factor to mental health issues.'

'We need more facilities such as skate parks in each community, youth clubs, evening classes etc. Classes to meet and engage with likeminded people will help with mental health and feelings of loneliness.'

Health & Wellbeing In 2019, 89% of respondents from the North Locality to the Health & Social Care users Survey agreed that support helps them live as independently as possible, similar to responses from South (91%) and Central (90%) Localities. 59% said it was hard for them to get motivated to look after their own health, lower compared to the city response (68%) and South (73%) and Central (71%).

Crime In 2019, crime rate per 1,000 population in the North Locality is 22.9, lower than the city rate of 35.3, the rate for the South (23.5) and Central (57.6) Localities. Crime rates vary across the Locality with a high of 56 in Cummings Park, compared to a low of 4.8 in Denmore. The 3 highest rates are all priority neighbourhoods and all higher than the city rate of 35.3. The majority (12 of 16) of neighbourhoods in the North locality have a lower crime rate than the city.

‘Encouraging people to use the outdoors and to exercise by providing the environment to make this easier for them to do so safely will do more for public health than any health initiative telling them what to do.’

‘There is a link to the increase in alcohol use and isolation.’

‘We are concerned about harm due to drugs in the locality, both the causes and consequences.’

‘Shop lifting and petty crime is on the increase.’

‘Increase in domestic abuse – raised through Northfield Partnership Forum from schools.’

Our priorities for partnership working

The table below includes the three priorities we have identified for partnership working in the North Locality which can be linked to the Community Planning Partnership theme of People.

North Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Improve the physical health and wellbeing of people	SO 5 – Child Mental Health SO8 – Child Friendly City SO 11 – Healthy Life SO 14 – Sustainable Travel
Support local volunteering opportunities beyond the pandemic	SO 11 – Healthy Life SO13 – Climate Change
Early intervention approach targeted at those who are involved in, or at risk in offending behaviour (domestic abuse, substance misuse, anti-social behaviour)	SO 10 – Community Justice SO12 – Alcohol & Drugs SO13 – Climate Change

The following tables set out the improvement projects that we believe can help us achieve our priorities.

©Ross McMahon photography

Our Improvement Plan

Improve the physical health and wellbeing of people.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Physical Health				
Increase % of people who walk as one mode of travel by 10% by 2023.	Nestrans, Sustainable City Group	<ul style="list-style-type: none"> Build on interest in cycling learning during lockdown – cycle classes; bike storage; adaptable bikes encourage more “walk and talks” encouraging others from across the locality to adopt a similar approach. Encourage more buggy walks and similar approaches across generations. Promote facilities on walking routes, i.e., accessible for wheelchairs; toilets on route, etc in local area. Promote and upgrade local path network paths, e.g. Whitestripes Avenue., Northfield to Bucksburn. Work together to promote all the walking/jogging groups in the local area. Promote Aberdeen bike hire scheme once in place new walking routes around Haudagain development. Promote local walks in community magazines. Development of Heathryfold woodland area. Offer Paths for all training to build on network of Health Walks. Work together to promote all the walking/jogging groups in the local area. (Health Walks/Over 50s network) Develop a ‘Park Walk’ for those not keen on the Park Run. 	Locality wide	Farrans Shmu Heathryfold Woodland Paths for All Stay Well, Stay Connected NESTRANS Health and Social Care Partnership Middlefield Community Project
Increase % of people who cycle as one mode of travel toby 2% by 2023.	Nestrans, Sustainable City Group	<ul style="list-style-type: none"> Build on interest in cycling during lockdown – cycle classes; bike storage; adaptable bikes. Promote and upgrade local path network, e.g., Whitestripes Avenue. Promote Aberdeen bike hire scheme once in place. Ensure community involvement in Kingswells to Westhill development. Promote new cycling routes around Haudagain development. 	Locality wide	Farrans Shmu Paths for All NESTRANS Middlefield Community Project

Refer 20% of people living with COPD or other respiratory conditions into specific PR physical activity and other support programmes delivered in community settings by 2023.	NHS Grampian, Resilient, Included and Supported	<ul style="list-style-type: none"> • More health and social care services to be available within community centres. • Expand sites providing specialist support activities for long-term conditions. • Promote referral to online and face to face condition specific classes at Sheddocksley, Jesmond, Alex Collie and the Beacon Sports Centres. • Build a network of volunteers to deliver strength and balance classes – both indoor and outdoor across the locality. • Expand use of physical activity exercise cards at Fairley Den and Len Ironside Centre. 	Locality wide	<p>Sport Aberdeen</p> <p>Bon Accord Care</p> <p>Local volunteers</p> <p>Aberdeen Health and Social Care Partnership</p>
Reduce tobacco smoking by 5% overall by 2023.	Aberdeen City Council, Resilient, Included and Supported	<ul style="list-style-type: none"> • Create a smoke-free generation where young people smoking, vaping or using e-cigarettes is not culturally acceptable. 	Middlefield	
Wellbeing				
Increase to 80%, the number of staff who feel confident about how to directly support, or refer a child for support, and signpost to appropriate services by 2022.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> • Training for staff in understanding ASD and how to support families. • Training to support anxiety in young people. • Identify who would benefit from training locally and advertise widely, i.e., uniformed organisations, community centres, volunteers, youth clubs, etc. • Ensure information is readily available to support parents. • Provide support to ensure that people understand the process for referral and who to contact. • Youth hub to support young people to develop life skills and confidence in their ability and deal with any issues affecting their wellbeing. • Share practice amongst organisations about being a Trauma-Informed workplace. • Promote MindU mental health recovery support programme aimed at ages 12-25. 	Locality wide	<p>North fit like hub</p> <p>Local Schools</p> <p>Local community groups</p> <p>Mastrick Community Centre</p> <p>Middlefield Community project</p> <p>Shmu</p>

Increase by 80% the use of digital wellbeing resources for children and young people's mental health and wellbeing by 2022.	NHS Grampian, Children's Services Board	<ul style="list-style-type: none"> Promote and increase a range of online wellbeing sessions for children and young people. Use community media platforms as a way for young people to share their views on mental health and wellbeing. 	Locality wide	North fit like hubs Shmu
100% of children and young people have increased free access to physical activity which improves mental health and wellbeing by 2022.	Aberdeen City Council/ Sport Aberdeen, Children's Services Board	<ul style="list-style-type: none"> Encourage outdoor play using green spaces across the locality. Promote local community groups and activities run by Play Forum and rangers. Use reach of community planning partners to promote and market local organisations. 	Locality wide	Community-based organisations – uniformed org, etc.
Reduce the rolling 3-year average number of suicides in Aberdeen to below 26 (2019) by 2023.	Police Scotland, Resilient, Included and Supported	<ul style="list-style-type: none"> Develop buddy scheme to support people out of lockdown. Roll out of suicide prevention training/promote suicide prevention app. 	Middlefield Locality wide	SAMH
Increase the number of unpaid carers feeling supported by 10% by 2023.	Aberdeen Health and Social Care Partnership, Resilient, Included and Supported	<ul style="list-style-type: none"> Increase the number of informal opportunities for unpaid carers across the locality. Co-design local unpaid carers resources and support. Explore opportunities to support unpaid carers with their wellbeing post lockdown. Increase support for dementia sufferers and their carers. 	Locality wide	Quarriers
Support 100 people to feel confident to promote wellbeing and good health choices by 2023.	Aberdeen City Council/ Aberdeen Health and Social Care Partnership, Resilient, Included and Supported	<ul style="list-style-type: none"> Have local noticeboards (near parks) with information about what's available in the local area. Use local Facebook pages (e.g., community councils) to get key messages out to the local community. Test approach with Bon Accord Care signposting individuals to local community opportunities through use of iPads. 	Locality wide	LEG members Bon Accord Care

<p>To support 50 low income families in priority neighbourhood to improve eating behaviours and adopt positive lifestyle choices to help towards a healthy weight by 2023.</p>	<p>NHS Grampian, Resilient, Included and Supported</p>	<ul style="list-style-type: none"> • Support breastfeeding peer supporter locally. • Promote Best Start/Healthy Start vitamins. • Improve access to fresh food locally. • Support families to cook and prepare food from scratch on a budget. • Establish outdoor gym equipment for adults to encourage physical activity, improved wellbeing and to bring the community together. • Ensure playparks are accessible for all. • Adapt exercise cards developed for people in sheltered housing to be used for families to ensure that finance is not a barrier to being active. • Improve safety in parks e.g., lighting. • Influence local shops to provide affordable healthy produce. 	<p>Heathryfold, Middlefield, Northfield, Cummings Park & Mastrick</p>	<p>Local businesses Sport Aberdeen Aberdeen City Council - Education</p>
<p>Build social connections across North locality.</p>		<ul style="list-style-type: none"> • Focus on building social connections – develop links locally - what is on in the local area, i.e., community centres; libraries; green spaces; church halls, etc. • Develop community hub model beyond priority neighbourhoods. • Improve awareness of local services from Aberdeen and refer people to this. • Spread awareness of what is available locally via ALISS. • Revisit Total Learning Offer information. • Revisit asset mapping process. • Host a series of ‘Getting to know you’ sessions – with local community groups and front-line staff. • Ensure that there is a conduit between community planning partners and local communities and continuation when staff move on. Build on neighbourhood lead model in place during pandemic. • Utilise community media outlets to promote what is on in the local area. 	<p>Locality wide</p>	<p>Shmu LEG members Neighbourhood Leads</p>

Support local volunteering opportunities beyond the pandemic.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
<p>Increase opportunities for people to increase their contribution to communities by 10% by 2023.</p>	<p>Aberdeen City Council, Resilient, Included and Supported</p>	<ul style="list-style-type: none"> • Explore different ways to develop intergenerational working post-lockdown. • Encourage people to continue volunteering beyond pandemic. • Explore how community assets can be used as community resources, e.g., churches, care homes, etc. • Involve more young people in volunteering leading to career opportunities, e.g. Bon Accord Care; Police Scotland. Opportunity to build connections with local schools. • Promote Saltire Awards with young people. • Provide incentives to business and organisations to provide volunteering or internships. • Develop a similar model to men’s shed for women or young people. • Identify time-banking opportunities in conjunction with Farrans. • Encourage volunteers to get involved in Friends of Heathryfold Park/Auchmill Community Woodland Group. 	<p>Locality wide</p>	<p>Shmu ACVO Community Councils in North. Farrans Friends of Heathryfold Park Auchmill community woodland group Middlefield Community Project</p>
<p>Community led resilience plans in place for areas most vulnerable to flooding by 2023, leading to resilience plans in place across all areas of Aberdeen by 2026.</p>	<p>Scottish Fire and Rescue Service, Sustainable City</p>	<ul style="list-style-type: none"> • Build on learning from pandemic - continue to develop community connections—build on community spirit. Has to be local and led by local people. • Continue to develop the Heathryfold flood alleviation scheme. 	<p>Locality wide</p>	<p>Shmu</p>

Early intervention approach targeted at those who are involved in, or at risk in offending behaviour (domestic abuse, substance misuse, anti-social behaviour)

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
Reduce instances of public space youth anti-social behaviour as a result of appropriate and effective interventions in targeted areas by 10% by 2022.	Police Scotland, Children's Services Board	<ul style="list-style-type: none"> • Increase priority family interventions. • Develop diversionary activities which lead to job skills development. • Build a network of volunteers trained by youth work team. 	Heathryfold, Middlefield, Northfield, Cummings Park & Mastrick Summerhill	Police Scotland
Increase by 50% the number of 10 to 16 year olds in target areas of the city who access youth community activity by 2023.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> • Develop a process where police can signpost young people to other activities in the community as opposed to criminalising? e.g Streetsports; project at Tesco Lang Stracht. • Have a safe place for teenagers to come and go during the week and also on a Friday and Saturday night • Develop skate park/BMX track in Dyce • Co-produce a range of activities available for young people across the locality. Young people to be actively involved in the development. • Build on learning from projects such as AMPED which is based around trail bike maintenance. • Development of outdoor forest programme. 	Locality wide	Police Scotland Young people Middlefield Community Project Street Sport AFC Community Trust
Increase number of young people who need support in relation to trauma and bereavement having access to such support by 50% by 2023.	Aberdeen City Council, Children's Services Board	<ul style="list-style-type: none"> • Roll out evidence-based resilience training to community members; staff and volunteers across the locality. 		
Decrease number of incidents of domestic abuse reported to the Police by 15% by 2023.	Aberdeen City Council, Community Justice Group	<ul style="list-style-type: none"> • Increase support for families where English is not the first language to protect children and to ensure that families can access appropriate support. • Northfield ASG project – Promotion of new domestic abuse policy and signposting information. 	Northfield Partnership Forum	Aberdeen City Council Shmu

Substance Misuse				
Increase % of the population who feel informed about using alcohol responsibly and increase by 10% the percentage of adults in Aberdeen City who are non drinkers or drink alcohol in a low risk way by 2023.	Aberdeen Health and Social Care Partnership, Alcohol and Drugs Partnership	<ul style="list-style-type: none"> Promote more non-alcoholic products and alcohol-free social options. 	Heathryfold, Middlefield, Northfield, Cummings Park & Mastrick	
Increase the uptake of alcohol treatment by improving access to alcohol services and ensuring they are local, integrated and targets areas of greatest need by 10% year on year by 2023.	Aberdeen Health and Social Care Partnership, Alcohol and Drugs Partnership	<ul style="list-style-type: none"> Restart outreach services (Northfield/Mastrick) paused by pandemic. Work with those with lived experience to share positive messages about their journeys, including how local services have played a role in their recovery – leading to a greater awareness of alcohol services locally. Increase uptake of drug treatment and specifically within Locality Areas by 10% each year by 2023.	Aberdeen Health and Social Care Partnership, Alcohol and Drugs Partnership	<ul style="list-style-type: none"> Substance misuse Youth Worker to work with individuals and families. 	Heathryfold, Middlefield, Northfield, Cummings Park & Mastrick	Middlefield Community Project
Increase number of people undertaking recovery from drug and alcohol issues who are being supported to maintain drug / alcohol free lives in their community by 2023.	Aberdeen Health and Social Care Partnership, Alcohol and Drugs Partnership	<ul style="list-style-type: none"> Support recovery through physical activity, music, film and other creative experiences. Support recovery through peer support and developing media skills. 	Cummings Park	<p>Aberdeen City Council, Community, Learning and Development.</p> <p>Byron Boxing Club</p> <p>Auchmill Golf Club</p> <p>AiR</p> <p>Shmu</p>

THE NORTH PLACE

What we know about the North

From what the data tells us:

Priority Neighbourhoods Aberdeen has 29 datazones in the 20% most deprived areas in Scotland. 8 of these are in the North locality with 3 in both Mastrick and Middlefield, 1 in both Heathryfold and Northfield. Based on SIMD, our priority neighbourhoods in the North Locality are: Mastrick, Middlefield, Northfield, Cummings Park and Heathryfold.

Place Standard In March 2020, when asked about different aspects of their neighbourhood, respondents from the North Locality scored availability of green space (5.3) and feeling safe in your neighbourhood (5.3) as the highest. Lowest scoring areas were economy and access to jobs (2.5) and the ability to participate in decisions and help change things for the better (3.2).

Community Safety In 2018/19, the rate (per 100,000 population) of accidental dwelling fires in the North Locality ranges from a low of 0 in Kingswells, Bucksburn South, Dyce, Balgownie & Donmouth East and Denmore, to a high of 234 in Summerhill (more than double the city rate of 115.10). The rates for Heathryfold and Middlefield, Cummings Park and Mastrick have all increased substantially in 2018/19.

Active Travel In 2020, respondents from the North Locality to the City Voice reported using the following modes of transport at least once a week to travel into the city – car (59.6%), bus (41.3%), walk (23.9%) and cycle (6%).

From what you have told us:

'Locality Empowerment Groups and Priority Neighbourhood Partnerships have a vital role here.'

'More green spaces, community gardens and allotments for citizens.'

'The redevelopment of Haudagain offers greenspace.'

'Demand for food growing initiatives is increasing so requires support.'

'Lighting in parks would be an asset and make it safer to use.'

'Community facilities and Housing Office has been impacted by Covid.'

'Flood alleviation scheme in place at Heathryfold.'

'Increased trend on shopping crime.'

'Home fire safety campaigns have been disrupted by the pandemic.'

Our priorities for partnership working

The table below includes the last priority we have identified for partnership working in the North Locality which can be linked to the Community Planning Partnership theme of Place.

North Priorities	Link with city wide LOIP Stretch Outcomes (SO)
Maximise use of disused outdoor space to increase food growing opportunities	SO 13 – Climate Change SO15 - Nature

The following tables set out the improvement projects that we believe can help us achieve our priorities.

Our Improvement Plan

Maximise use of disused outdoor space to increase food growing opportunities.

Improvement Project Aim	Project Lead	Community Ideas for Improvement we might test	Where we might test them	Community Connector
<p>Increase community food growing in schools, communities and workplaces by 12 by 2023.</p>	<p>Aberdeen City Council, Anti-Poverty Group</p>	<ul style="list-style-type: none"> Promote train the trainer for food growing within communities. Share learning from other food growing projects across the locality, i.e. One Seed Forward, Dyce community Garden & Orchard run by Dyce Gardening Club. Grow vegetables at community gardens and sell at local schools. Work with young people at Northfield Academy to develop community growing space/creative area. Share how people can apply to the council for the establishment of allotments. Make growing spaces easier and more accessible for the community. Develop lifelong habits by encouraging young people to get involved in outdoor nurseries. Define and clarify process for individuals/organisations - requesting a piece of land – Aberdeen City Council to share with communities. 	<p>Heathryfold, Middlefield, Northfield, Cummings Park & Mastrick</p> <p>Locality wide</p>	<p>Farrans</p> <p>Danestone Community Centre</p> <p>Dyce Community Garden and Orchard</p>
<p>Increase the number of community run green spaces that are organised and self-managed for both people and nature by a minimum of 8, of which at least 4 will in priority neighbourhoods, by 2023, particularly in priority neighbourhoods where the diversity, quality and satisfaction of green spaces and health and wellbeing outcomes tend to be lower.</p>	<p>Aberdeen City Council, Sustainable City Group</p>	<ul style="list-style-type: none"> Share learning across Aberdeen of similar initiatives, e.g. Bonnymuir Community Garden. Identify unused pieces of land to develop food growing/ community green space. Potential connections to be made between the land at Granitehill with the community hub; Sheddocksley, Middlefield triangle and Cummings Park garden. 	<p>Heathryfold, Middlefield, Northfield, Cummings Park & Mastrick</p> <p>Locality wide</p>	<p>Danestone Community Centre.</p>

HOW COMMUNITIES CAN GET INVOLVED

What resources are currently available?

- Churches
- Community Centres
- Community hub
- Community organisations
- GP practices, pharmacists, link practitioners
- Parks
- Libraries
- Schools and nurseries
- Transport connections
- Local businesses

What do we already have?

- Bridge of Don Community Council and Friends of Westfield Park. Getting together with other groups (scouts, brownies etc) – hoping to restart following Covid
- Park generates lots of people of all areas for park clear up and gardening (**volunteering and green spaces**)
- Danestone Community Centre – busy because that’s what the community wants
- Middlefield Hub – Middlefield Community Project and Healthy Hoose
- Mastrick Community Centre
- Cummings Park Community Centre – “The Cubby”
- Northfield Community Centre
- Manor Park Learning Centre – Fit Like Hub
- Outreach programme in sheltered housing – volunteers are older – it’ll be like starting again, how will people want to get back to programmes after Covid – more work to be done
- Dyce & Stoneywood Community Association (based in Dyce Community Centre) which runs an extensive programme of groups mainly for Older People to meet the needs and wishes of the high proportion of Older People living in Dyce and including Dyce Men’s Shed within its programme.
- Sheddocksley Baptist Church – Wellbeing cafe
- **Reducing poverty** – established holiday hunger programme in place (Food & Fun)
- **Digital Inclusion** – Connecting Scotland – staff currently delivering digital support to households
- **Green Space** – successful projects well underway with community groups at the forefront
- Scotland’s Service Directory – people don’t know what is out there – grassroots people need this at their fingertips – how to get this info and how is it kept up to date
- Council looking at expanding wifi accessibility for sheltered complexes – silver surfers in partnership (**digital inclusion**)
- Battalion of **volunteers** – how to make best use of that resource
- Holiday hunger aimed at children – parents involved in cookery prep – and then parents became members of management committees (**reducing poverty**)

Get Involved

Locality Empowerment Groups

Locality Empowerment Groups (LEGs) are made up of local people interested in improving outcomes with Aberdeen City. LEGs members will use their knowledge and experiences to influence priorities and help determine solutions. There are groups for Central, North and South of Aberdeen, however they also focus on needs that may be Citywide e.g. sharing your experience as a person living with a disability.

The role of a LEG member is intended to be as flexible as possible. People can contribute in several ways including; getting involved in activities to improve your community; attending LEG sessions; through participation in surveys or on-line forums. There are no set time commitments expected and involvement can be as little or as much as suits people's circumstances.

We are currently recruiting members to ensure we have a wide representation of communities across Aberdeen. We have a range of opportunities available for people to get involved. If you would like more information please visit our website www.aberdeencityhscp.scot/our-delivery/locality-empowerment-groups or email LocalityPlanning@aberdeencity.gov.uk

Cummings Park, Heathryfold, Northfield, Mastrick and Middlefield

Priority Neighbourhood Partnership

Northfield Partnership Board is a well-established and well supported partnership group within the CPA structure. We work together to achieve improvements for the area around the themes of people, place, technology and economy and to ensure it is a place where all people can prosper.

Membership

- 4 Community Representatives
- 2 Community Council Representatives
- 1 Community Project Representative
- 1 Community Centre Representative
- 1 Aberdeen City Council
- 1 AHSCP Representative
- 2 Police Scotland Representatives
- 1 ACVO / Third Sector Representative
- 1 Deputy Head Teacher
- 2 Elected Members

Community Planning Aberdeen

Progress Report	Socio-Economic Rescue Plan 2020/2021
Lead Officer	Richard Sweetnam
Report Author	Richard Sweetnam
Date of Report	11 June 2021
Governance Group	CPA Board – 7 July 2021

Purpose of the Report

The purpose of this report is to provide a final update to Committee on the delivery of the Socio-Economic Rescue Plan 2020/21.

Summary of Key Information

1 BACKGROUND

- 1.1. The [Socio-Economic Rescue Plan 2020/2021](#) was approved by Aberdeen City Council (ACC) and CPA on 30 June and 1 July respectively.
- 1.2. An Implementation Group was formed to oversee the delivery of actions across the Business, People and Place themes. The Implementation Group met monthly and was attended by officers of Aberdeen City Council and representatives of Community Food Initiatives North East (CFINE), Federation of Small Businesses (FSB), Aberdeen and Grampian Chamber of Commerce, VisitAberdeenshire, Scottish Enterprise, Business Gateway, Skills Development Scotland, ACVO, Aberdeen Inspired, North East Scotland College (NESCOL) and Culture Aberdeen.

2 CURRENT POSITION

- 2.1 The rescue plan was intended to be a short term 'rescue response' to the immediate effects of the economic crisis as a result of Covid-19, and was scheduled to end on 31st March 2021.
- 2.2 As the crisis continued, and lockdown was extended, the impact on the city's economy was deteriorating. Going beyond 31st March 2021, the need and demand has remained, and in this sense, the focus has shifted from 'immediate response' towards medium and longer term recovery actions.
- 2.3 Following the conclusion of the action plan on 31st March 2021, the 75 actions in the plan were categorised as one of the following:
 - Complete
 - Continuing

- Closed
- Integrated with an existing CPA Improvement Project
- To be considered for a new project as part of the LOIP refresh

Appendix 1 shows the next steps for each of the actions. The status of the 75 actions on 31st March 2021 was:

Complete	23
Continuing	30
Closed	5
Integrated with existing LOIP project	14
To be considered for a new LOIP project	3
Total	75

2.4 The Rescue Plan was split between three themes of ‘business’, ‘people’ and ‘place’, aligning to the three main themes of the LOIP.

Business Theme

2.5 Of the 21 actions in the business theme, 7 of these were completed, 9 are continuing, 2 closed, 1 is being integrated with an existing improvement project and 1 will be considered for a new improvement project.

Key outputs from the business theme have included:

- Development of an Aberdeen City Council Business Charter;
- Implementation of a ‘Shop, Visit, Eat’ local campaign, used by a number of partner organisations, particularly during the festive period;
- Development of an ‘Aberdeen Gift Card’, which can be used in retail and hospitality venues throughout the city with over 3,618 gift card sales to date totalling £149,490 (as at 31st March 2021);
- In-depth, tailored support provided to 40 local tourism businesses through the Tourism Business Recovery Programme and a series of tourism recovery business webinars were run with 773 attendees in total, through 36 webinars;
- Running of ‘Redundancy to Recovery’ and ‘Emerging Minds’ webinars as part of the Business Gateway Recovery Programme to provide an insight into how to start a business, with 550+ attendees so far.

People Theme

2.6 There were 36 actions in the people theme, 8 of these were completed, 11 are continuing, 3 closed, 12 are being integrated with an existing improvement project and 2 will be considered for a new improvement project.

Key outputs include:

- Delivery of Positive Destination Planning Sessions to support young people at risk of leaving school without a positive destination;
- Maximising the use of the Hubs in three priority areas Dee - Tullos Community Wing, Don - Tillydrone Community Hub, West - Cummings

Park Community Centre – to provide wrap around support including financial resilience, employability and positive mental health;

- Ongoing workforce and employability schemes such as the development of an Energy Transition Skills Academy, the creation of AbzWorks, a one-stop-employability shop and jobs portal for the City Region, a partnership promotional campaign for learning opportunities in the city, and a campaign and associated support to encourage workers to move into the care sector;
- Administration and ongoing delivery of the Kickstart Internship programme, Aberdeen City Council has secured 155 internal Kickstart posts contributing towards 348 posts throughout the city (as of March);
- Use of the Crisis Line as a single access point for vulnerable people including support to people experiencing food insecurity and maximising uptake of free school meals;
- Roll out of a Mental Health Support programme and Mental Health First Aider scheme across public sector partners and ALEOs, the development of The Prevent Suicide App, and the delivery of suicide prevention training;
- Delivery of a benefits take-up campaign to encourage people to access money they are entitled to, which will continue throughout Q2 and Q3 of 2021;
- Partnership working between Community Planning Aberdeen and Business in the Community, directing offers of support from the business community via their corporate social responsibility activities, to those in need in our communities. This has included donations of digital devices which have then been distributed to the digitally excluded, enabling them to access a variety of supports including employability.

Place Theme

2.7 The place theme had 19 actions in total, of which 8 have been completed, 10 are continuing and 1 is being integrated with an existing LOIP project.

Key outputs from the people theme include:

- Delivery of the Spaces for People project to allow people to safely move around the city during the pandemic;
- Ongoing work to develop best practice and national recovery plans for the Aberdeen Event Guide;
- A review of Aberdeen Archives, Gallery and Museum to allow venues to reopen safely, when restrictions allow;
- Expansion of Gallery Retail Space with the new 'Shop at the Top' as part of the 'Shop, Visit, Eat' local campaign to increase retail space for local designers;
- Additional cycle parking, at locations identified by members of the public, officers and schools, to encourage active travel;
- Development of the Go ABZ web app – a Smart Journey Planning Tool;
- Tracking of ongoing delivery for various Energy Transition activity - including the Net Zero Vision and Strategic Infrastructure Plan, the Energy Transition Zone Business Case, and H2 Aberdeen Business Case.

2.8 During the last Implementation Group meeting, positive feedback was provided from the partner organisations on the response by the Council and the delivery of the Socio-Economic Rescue Plan. In particular, the collaboration with the Implementation Group organisations, has been strengthened through working together to deliver the Socio-Economic Rescue Plan. To maximise these benefits, all members of the Implementation Group have been invited to join Aberdeen Prospers, the Outcome Improvement Group for the Economy section of the LOIP, either as a full member of the group or to join individual project groups, as appropriate.

3 NEXT STEPS

3.1 It was agreed at the CPA Board Meeting on 22nd February and at the ACC City Growth and Resources Committee on 11th May that the Socio Economic Rescue Plan be integrated with the LOIP and the CPA structure. Any outstanding medium to longer term recovery actions, which are not currently linked with existing improvement projects, have been considered as part of the refresh of the LOIP and potential new improvement projects have been created, as required.

Recommendations for Action

It is recommended that the Board:

- i) Note the completion of the Socio-Economic Rescue Plan in its current form and integration with the LOIP and CPA structure.

Opportunities and Risks

The Plan and Governance provided an opportunity for a coordinated city-wide Partnership response to the impact of Covid-19. The actions aimed to provide as much support to businesses in the immediate response to Covid-19 and to mitigate where possible against permanent job losses in the city. The initial Covid-19 response work has to evolve into medium to long term recovery actions.

Consultation

The following people were consulted in the preparation of this report:
Socio-Economic Rescue Plan Implementation Group

Events delivered in-line with best practice around social distancing and hygiene factors to ensure public confidence.	Complete
1.6	Review management and maintenance of green/ open spaces for social distancing, wildlife & costs (review grass cutting regimes / tree planting / biodiversity / etc.)	Protect / improve physical & mental health with safer access to outdoors and connection to nature Increase wildlife. Reduced costs of management.	Complete
2	Transport		

2.1	Bike Hire Scheme	Health Benefits, Lower emissions higher air quality Encourage use of green transport. Allow access to active travel opportunities for all our citizens	Links to active travel projects 15.1
2.2	Tourism Car Parking Ticket – new product to support domestic tourism and hotels	Capitalise on likely mode of travel for inbound tourists	Continuing
2.3	Additional Cycle Parking / hubs	Encourage active travel into the city centre and to key locations 10 locations have been identified	Complete
2.4	Smart Journey Planning Tool	Can investigate gamification which in turn can potentially encourage purchase of local food and beverages, as well as advertisement of local events. Investigate inclusion of digital trails to encourage journeys to city centre and local shopping. (Would require additional budget to implement) Longer-term development of connected vehicles and Mobility as a Service (MaaS) which could allow purchase of ticketing through app and encourage multi-modal journeys.	Continuing with link to Active Travel Projects 15.1
3 Shop, Visit, Eat Local			
3.1	Campaign to maximise opportunities from local market – Aberdeen as a safe destination	1. Promotion of local creative practitioners – eg creative space for artists 2. Buy AAGM and local independent produce using mobile device & pick up at Art Gallery shop 3. Drive footfall to gallery and establish as hub for independent arts community 4. Increased footfall and dwell time in city centre 5. Physical distancing compliant product development – Marketing campaign highlighting how to spend a day safely in Aberdeen	Continuing
3.2	Conversion of Digital uptake into footfall at the Art Gallery – streaming services eg Cowdray Hall	Promotional Visits	Continuing
3.3	Gallery retail space expanded (eg Top Level in cafe area) – managed inhouse	Shop local, Gallery visits - Link to 4.2	Complete

3.4	Develop digital City Centre & Open Space Tours – eg Nuart, heritage walking tours, coast & country, talking statues (convert offer planned for guided walks to digital offer)	Promotional; Footfall to different city centre precincts	Continuing
4 Economic Strategy			
4.1	Net Zero Vision & Strategic Infrastructure Plan – Governance	Lobby and promote the Vision and the ambition of the city ‘as one’ to the UK Government and the Scottish Government, making clear the scope and scale of the transition opportunity in Aberdeen and its contribution to UK and Scottish climate change targets.	Continuing with links to Aberdeen Prospers employment projects
4.2	Scotland’s Energy Transition Zone Business Case – including the ETZ Training & Jobs Plan	Business case for phase 1 of ETZ	Continuing with links to Aberdeen Prospers training / skills projects
4.3	H2 Aberdeen Business Case	Business case for H2 Hub and Bus Projects	Continuing
4.4	Review the pilot projection City Centre Living and the affordable housing waiver.	Increase in city centre living opportunities and increased city centre population to support activity and retail.	Continuing
4.5	Events 365 / AAGM Exhibition Programme – spread out of events – curation of events & exhibitions to different zones of the city, including open spaces	Manage and control external event bookings in order to ensure that there is a balance of the City. Centre returning to businesses as (almost) usual whilst the event industry looks to recover.	Continuing

Community Planning Aberdeen

Progress Report	Locality Rescue Plans 2020/21
Lead Officer	Derek McGowan, Chief Officer – Early Intervention and Community Empowerment
Report Author	Neil Carnegie, Communities and Housing Area Manager Colin Wright, Development Manager (Torry) Paul Tytler, Locality Inclusion Manager (Woodside, Tillydrone, Seaton) Martin Smith, Locality Inclusion Manager (Middlefield, Cummings Park, Heathryfold, Northfield and Mastrick)
Date of Report	14 May 2021
Governance Group	CPA Board – 7 July 2021

Purpose of the Report

This report presents a monitoring update on the Locality Rescue Plans 2020/21 to support the Rescue of our priority localities.

Summary of Key Information

1 BACKGROUND

1.1 The COVID-19 pandemic is having a profound effect on the overall health and wellbeing of the city, its citizens and families. It has also coincided with an unprecedented fall in hydrocarbon prices and further significant implications for the city's economy and will continue to create considerable harm for our citizens. Covid-19 and the consequent public health crisis has fundamentally changed how the economy will respond as the city adapts to new operating models as lockdown is phased out.

1.2 Locality Rescue Plans follow the development of the Socio-Economic Rescue Plan and were approved by CPA Management Group on 29th October 2020 and CPA Board on 3rd December 2020.

2 NEXT STEPS

2.1 The relevant priorities and actions included in the Rescue plans are included within the refreshed Locality Plans for each North, South and Central.

Recommendations for Action

It is recommended that the Board:

- i) Note the completion of the Locality Rescue Plans in their current form and integration with the Integrated Locality Plans and CPA structure.

Opportunities and Risks

The Plans provide the opportunity for a coordinated locality level response. The plans aim to provide as much support to communities in the ongoing response to Covid-19 and to mitigate where possible against further poorer outcomes in localities. The priorities and outcomes will be included as appropriate in the refreshed Priority Neighbourhood Plans under development in line with the review of Locality Planning.

Consultation

1 All our young people need supported towards their individual best opportunity					
1.1	Support provision of Positive Destinations for all young people	ACC	Development of Fit Like Hubs continue with Manor Park Centre possible venue for small group work and 1-1 work. Work with families and children referred continues virtually and with meetings outside.	New locality plan	
		Middlefield Project	The Youth Hub has continued working with a small group of young people over the lock down period. Issues have included dealing with bereavement, high levels of anxiety and isolation. Completing school work has also been supported. Sessions are now being opened up to a small group of young people 5 days per week. Staff have undertaken out reach work. An application for chrome books for children and young people in the area was successful and has proved a great help along with access to wifi. Packs from Northfield Academy have been distributed to young people. Lunches have been provided to children and young people over lock down. The younger children were given nursery packs and the Under 11's group members received activity packs. They also had some zoom sessions for their clubs. The Project has worked with Street Soccer to put out funding for clothes and other resources for 30 children and families. The Youth Hub also applied and received funding from Northsound and 12 young people will get clothes, or top up for their phones.	New locality plan	

		Police Scotland (& range of partners)	This project continues to be developed and funding has been secured from Fairer Aberdeen fund, Wider Northfield Partnership and pending from Youthlink Scotland. Aberdeen City Council and Police Scotland Youth Workers will be working alongside the partner organisations Street sport and AFC community trust staff to provide quality youth work support using a person centred approach to develop opportunities to fit with the needs of the young people. organically grow the project developing youth led activities. Street Artist (Fresh Paint) has been secured to work with the young people to create a mural in the outdoor hub.	New locality plan	
1.2	Support to Young Carers - establish real picture of the need in the area.	SHMU/ACC	Initial discussions to progress project held rep-Covid have yet to to be rescheduled.	New locality plan	
1.3	Support Positive Mental Health	AHSCP/Localities Team	Targetted and responsive approach to Connecting Scotland programme	New locality plan	
1.4	Deliver outdoor learning	ACC Family Learning Team	Family Learning Team have introduced One -to- One Walk and Talk sessions with Parents and coontinue to arrange to meet families in Parks. A Wellbiing Walking Group for Northfield/Mastrick Parents started first week of May.	New locality plan	

<p>1.5</p>	<p>Deliver continued Family Learning support</p>	<p>ACC Family Learning Team</p>	<p>Canna Dine Oot – an online budget cooking class has been delivered to 15 participants over 6 weeks at Heathryburn School. An online Sleep Workshop has been delivered to 7 parents in the Northfield/Mastrick area. This was the first course that Family Learning have run online using Microsoft Teams rather than Google-meets and has been very well received. Participants found they learned a lot by sharing experiences, that they were not alone and by trying out tips including reducing screen time and particularly just before bed. On the success of this course further courses are planned and start in May. 'Northfield Natter' has been introduced. An online, agencies and services are invited to present to parents and have included Healthy Minds, CFine, One Stop Shop Aberdeen – support for children with Autism. Police Scotland are due to provide a session on social media safety. Wellbeing Workshops, supported with funding from Northfield Partnership Forum, have been delivered to 10 families across the area. Sessions with a practiced facilitator were based around calming techniques for families to use including mindfulness, breathing and yoga.</p>	<p>New locality plan</p>

Community Planning Aberdeen

Progress Report	<p>Project End Report: Improve the Health and Wellbeing Outcomes for at least 50% of homeless people/program participants (30 individual participants) in the Housing First Pathfinder Program in Aberdeen City by Dec 2021</p> <p>Project Manager: Mike Burns, Chair of the HF Consortium Board & CEO Aberdeen Cyrenians Project Charter Approved December 2019</p>
Lead Officer	Sandra McLeod, Chair of the Resilient, Included and Supported Group
Report Author	Mike Burns, Chair of the City of Aberdeen/Shire Housing First Pathfinder Program
Date of Report	21/03/2021
Governance Group	CPA Board – 7 July 2021

Purpose of the Report
<p>This report presents the results of the LOIP Improvement Project Aim to [Improve the Health and Wellbeing Outcomes for at least 50% of homeless people/program participants (30 individual participants) in the Housing First (HF) Pathfinder Program in Aberdeen City by Dec 2021] and seeks approval to end the project.</p>

Summary of Key Information
<p>1, BACKGROUND</p> <p>1.1 The Scottish Government established the Homeless and Rough Sleeping Action Group, HARSAG in 2017 to commission ‘Scotland’s Transition to Rapid Rehousing, Market Analysis, Legislative and Culture Review’, Indigo House 2017. The report noted in relation to the City of Aberdeen that; ‘Of note is the number of rough sleepers in the city who do not have access to housing benefit (around 15 provided with temporary accommodation Winter 2017/18). In Aberdeen City in 2016/17, 120 people making homeless applications said that they had slept rough in the last three months (26% of the total Hub figure)’. This report was the foundation for the establishment of the Housing First national pathfinder program and the move for all local authorities towards establishing Rapid Rehousing Transition Plans. The City of Aberdeen’s HF program set out to work with 120 people over the following 3 years and commit to improving the Health and Wellbeing* Outcomes for at least 50% of homeless people/program participants (30 individual participants) in the Housing First Pathfinder Program in Aberdeen City by 2021 Note: Wellbeing (sometimes referred to as ‘Health & Wellbeing’) comprises aspects of feeling good and functioning well (Dept. of Health, 2014) It is understood in two dimensions; 1, subjective wellbeing, which is self-reporting of an individual’s experience of their life; and(2) objective wellbeing, which is based on comparisons of life circumstances with social norms and values.</p>

2, IMPROVEMENT PROJECT AIM

- 2.1 Against this background, on [December 2019] the CPA Board approved the [project charter](#) for the initiation of an improvement project which aimed to [Improve the Health and Wellbeing Outcomes for at least 50% of homeless people/program participants (30 individual participants) in the Housing First Pathfinder Program in Aberdeen City by Dec 2021].
- 2.2 This project aim is linked to Stretch Outcome 11, Healthy Life Expectancy (time lived in good health) is five years longer by 2026; against the key driver to support vulnerable and disadvantaged people, families and groups. The scope of the project specifically targeted those with multiple complex needs (MCN) who had a history of cyclical homelessness, chaotic mental health and substance misuse often entwined with repeat offending and custodial periods. The number of those with MCN and cyclical homelessness across the City of Aberdeen is identified within the Indigo House, Homelessness HUBs Scotland report (2017) as being approx. 216 individuals. The HF program set to engage with 60 of this population segment over 2019/21. The target group for the LOIP 19/21 = 30 HF program participants.

3, WHAT CHANGES DID WE MAKE?

- 3.1 We gave participants a home, in some cases for the first time, not temporary 'steppingstone accommodation', a tenancy they can maintain. Tenancy sustainment is one critical measurement to achieving change in the HF individuals previously chaotic lives, with complex needs and multiple episodes of cyclical homelessness this is a critical change target along with those health and wellbeing targets set out below. The HF program board and operational team have set out their achieved tenancy sustainment rates in the attached national tracker. (Ref National Tracker Appendix 1) We have achieved to date, consistently, the highest tenancy sustainment rates of any of the 5 national pathfinder programs, 93%, this is also considered to be a high level of tenancy sustainment internationally across Housing First programs, with 80+% considered internationally as a successful change measurement.
- 3.2 We provided intensive support to the participant(s) to work through their own issues with a view to reducing their level of chaos and complexity and ultimately seeing the individual maintaining their own wellbeing and tenancy. Further targeted change ideas are grouped under support and were deployed as appropriate to the participants circumstances and priorities below :
- **Substance (Drug and/or Alcohol) Use** – commencement of a managed drinking programme aimed at reducing alcohol consumption, engagement with SMART (peer) recovery groups
 - **Self-care and nutrition** – goal setting around healthy weight management, one-to-one cooking and meal prep tuition.
 - **Relationships** – support to re-engage with positive social networks, support in development of new social support network
 - **Physical Health & Wellbeing** – Ensure participant is enrolled with a GP practice that is appropriate to their circumstances and accessible, support to access initial health check, development of health literacy abilities to enable self-care
 - **Mental Health and Wellbeing** – ensure participant can access and engage with mental health treatment where appropriate, engagement with appropriate mental health therapeutic interventions, support to develop positive coping mechanisms, development of self-awareness around triggers and deployment of coping mechanisms
 - **Occupying Time and Achieving Goals** – keeping a daily and weekly planner to encourage appointment keeping and build a pattern of meaningful activity, development of personal goal setting abilities

- **Housing and Independent Living** – development of personal household management skills,
- **Offending** – support to reduce offending behaviour, support to engage with CJ interventions
- **Money Matters** – development of budgeting skills
- **Children** – support to maintain / (re)develop relationship with participant’s children (if applicable)

4, HAVE OUR CHANGES RESULTED IN IMPROVEMENT?

4.1 The aim of at least 50% of participants (30 individuals) achieving improved health and wellbeing outcomes has been achieved and is evidenced below on the basis of the recorded outcomes for the first 30 participants, the total population of the HF program at April 21 is 117 participants. The programme uses the Outcome Star framework to place a numerical value on a scale of 1-10 on the health and wellbeing outcomes for each individual. (1 being low and 10 being high) This number is arrived at as part of a discussion between worker and programme participant. The outcomes measured are those the participant rates as most important to them. The outcome is then measured over an extended period and improvements tracked.

4.2 All of the first 30 programme participants reported improvements over time with individual improvements ranging from 1 to 5 points as demonstrated in Fig 1 below. All relevant data sharing protocols have been followed and agreed.

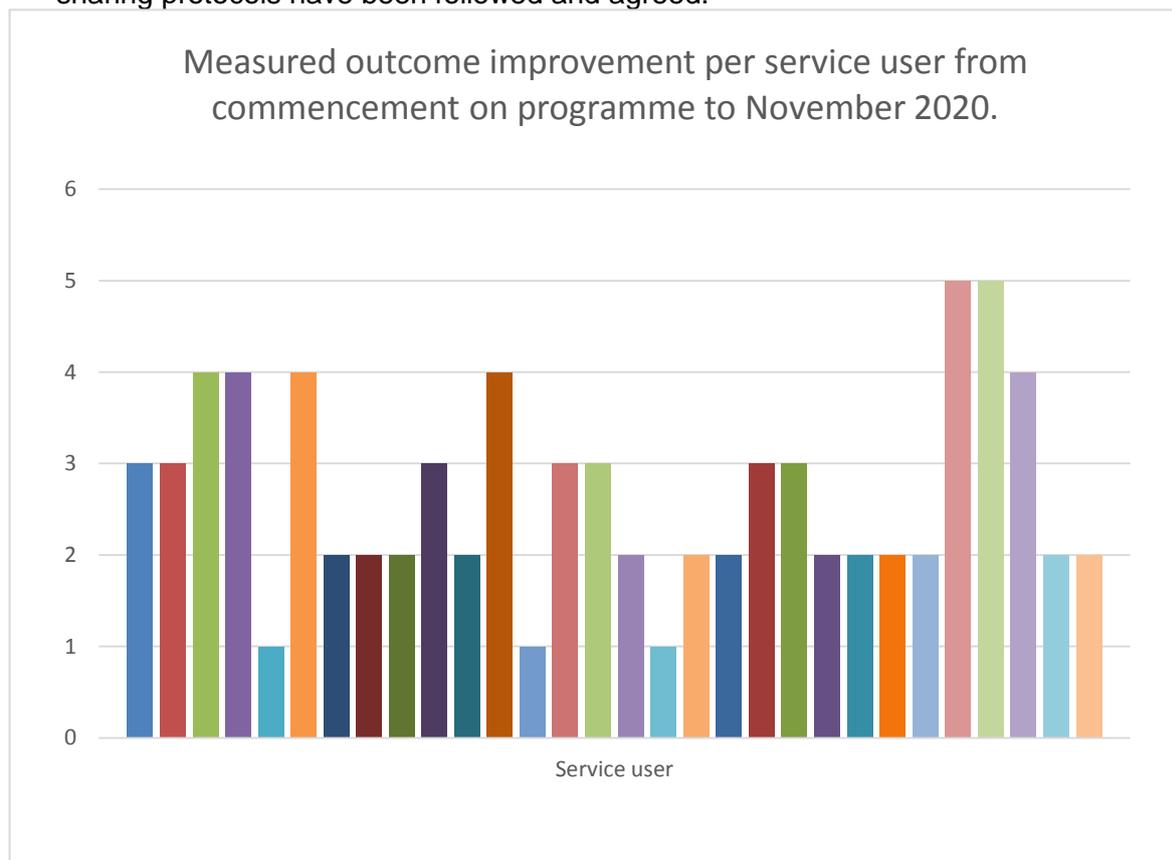

Figure 1 - Individual improvements in Outcome

4.3 Figure 2 below is an aggregated view of participants scoring over the course of the programme. The graph, while busy, shows a strong improvement trajectory for programme participants while at the same time shows regression in outcome scoring around the festive period and also around the first Covid Lockdown. The chart also demonstrates really quick

and substantial improvements in outcome scoring for individuals in June-August 2020 also corresponding the relaxing of Covid measures.

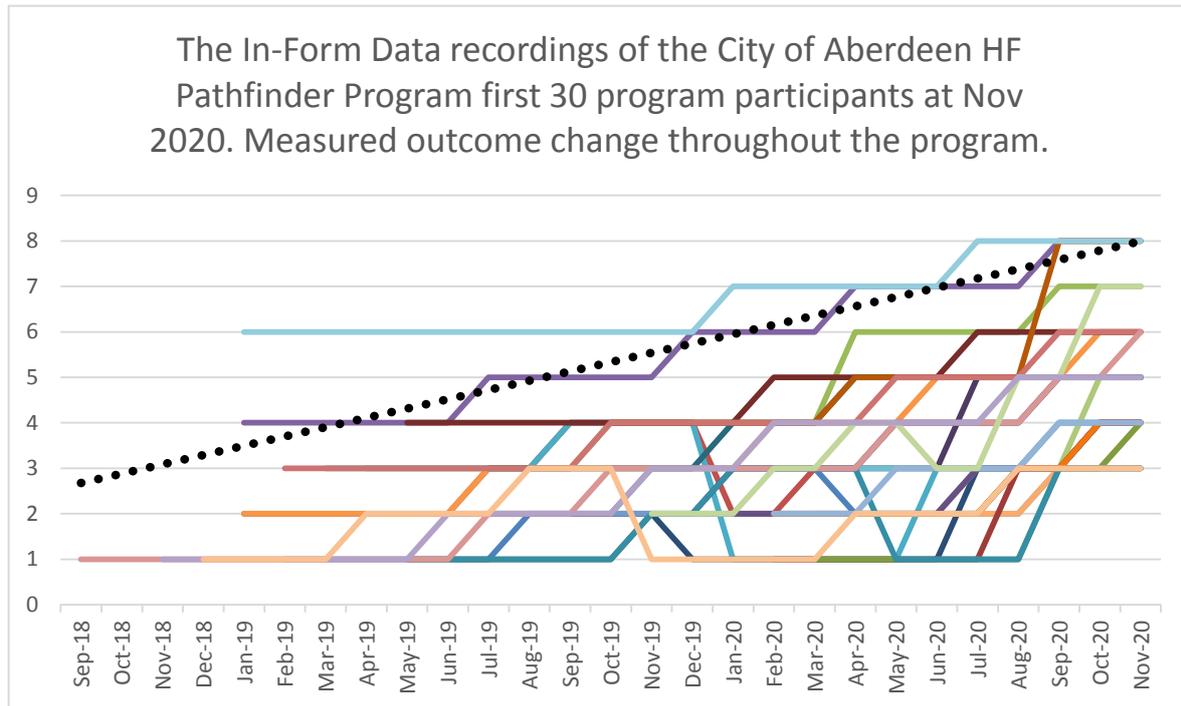

Figure 2 - Collated scoring of participants for Outcomes over time

4.4 Whilst all individuals have improved in terms of scoring on their most important outcomes, we have been able to track some quite startling personal improvements. The graph below charts one participants contacts with Health and Social Care and shows a trend from chaotic and unplanned interactions towards a more planned and less chaotic pattern of attendance. It is clear that the potential of this programme could have considerable impacts for health and social care. The impact analysis is the next stage of investigation at a national and local level. Carried out by Heriot Watt University who have been commissioned by the national housing first board.

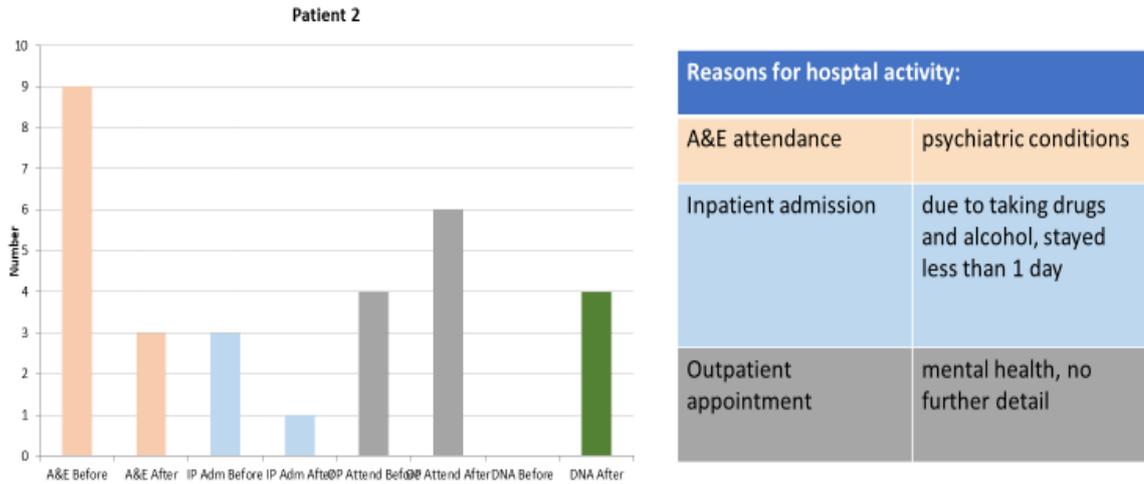

Figure 3 - Programme Participant's interaction with services

5, HOW WILL WE SUSTAIN THESE IMPROVEMENTS?

5.1 The programme having now been extended from the initial target of 60 to 120, of whom 92 have identified improved health and wellbeing, we have proved locally and nationally that Housing First works for those with the most complex needs. The fidelity of the model provides the intensity of support required and how the relationship key worker roll, is vital to achieving these outcomes. The roll out of Rapid Rehousing Transition Planning in the City of Aberdeen, RRTP along with Housing First being mainstreamed, the support to those currently on program and future program participants will be implemented permanently from Oct 2021.

5.2 The RRTP refresh an extract from the Joint Delivery Action Plan ACC 9/06/2021, showed under sections 2.4 and 2.5 improvements in some key indicators;

2.4- Reduce repeat homelessness within 12 months, this key measurement figure was 5.1%, at 9/06/21 it had reduced to 4.5%.

2.5- Increase the % of households previously homeless that have sustained their tenancy for more than one year, this key measurement figure had increased from 87.4% to 90.6% at the 9/06/21.

5.3 These are key indicators that highlight the contribution of the Aberdeen Housing First pathfinder program to achieving the ACC RRTP targets.

Potential risks and/or barriers to success & actions to address these

5.4 There is a risk that we cannot get enough properties / tenancies to house programme participants. This will be mitigated by working with all partners in the consortium, including Aberdeen City Council Housing, PRS and RSLs to identify properties earmarked for the HF programme – this may be achieved in part by addressing identified lags and delays within

current processes and the introduction of the RRTP. The risk was mitigated throughout the programme through the support of ACC, RSLs and the PR sector providers, providing sufficient homes to complete the programme.

6. OPPORTUNITIES FOR SCALE UP AND SPREAD

6.1 The Housing First program reflected in this project is being scaled up nationally and our project aims are spreading to achieve a national target. The critical learning from the national housing first pathfinder and this local LOIP project is applicable and beneficial to other areas of work and business. The intensity of support provided and the fidelity to the international model of Housing First programs, has proved that when delivered as such, it works for those most vulnerable and challenging of clients, in relation to mainstream health and social care services.

Recommendations for Action

It is recommended that the CPA Board

- i) Agree that testing is concluded and that this Improvement Project is brought to an end on the basis that it has achieved its outcomes target earlier than predicted and the Housing First model has now been accepted locally and nationally as the most appropriate intervention for those with multiple complex needs who experience cyclical homelessness.
- ii) There should be ongoing monitoring and evaluation of the local and national picture as reflected in the National Pathfinder Tracker attached, the purpose of this would be to establish a national KPI system to evidence the outcomes established through the Pathfinder programme and ensure that the fidelity of the Housing First model is maintained nationally.

Opportunities and Risks

The key opportunity is that we have now developed nationally and locally a model that works in relation to tenancy sustainment and improved life, health and wellbeing outcomes for those with the most complex needs and chaotic lifestyles. The biggest risk to Housing First will be a step back to historic ways of working, the staircase model which demands evidence of tenancy sustainment prior to the allocation of permanent accommodation. This historic model seen many of those currently on program evicted and placed back into the cycle of homelessness, long term temporary accommodation and reduced life opportunities and outcomes.

Welcome to the Monthly Tracker for Scotland's Housing First Pathfinder

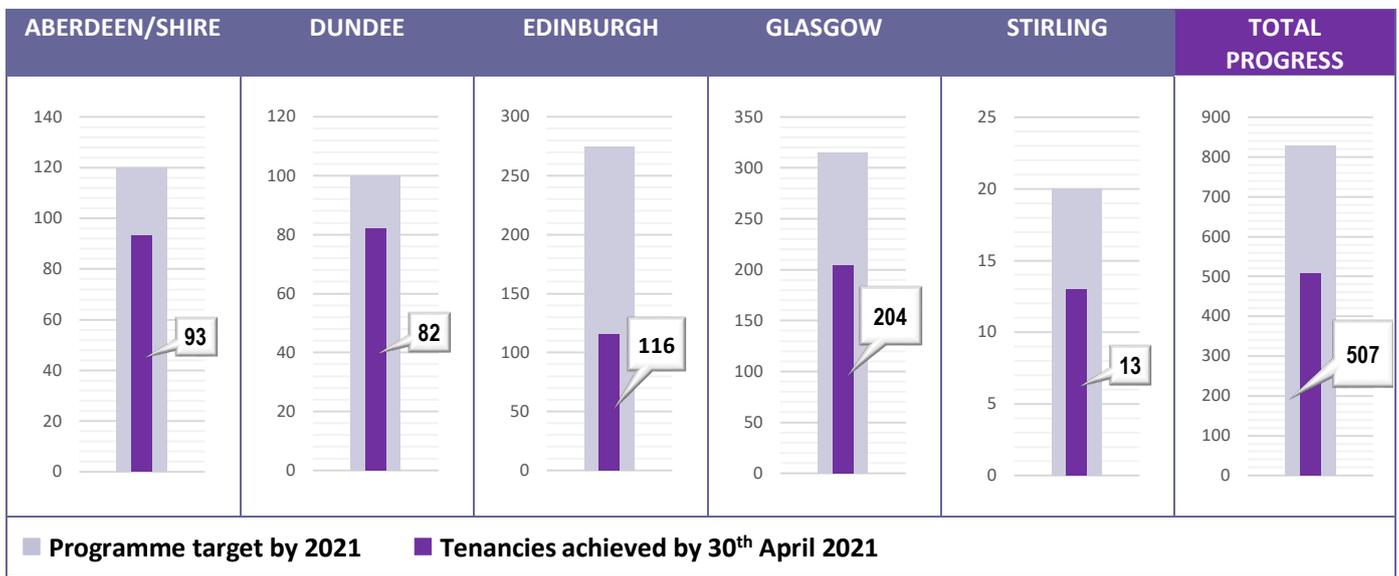

Scotland's Housing First Pathfinder is led by cross-sector partnerships in Aberdeen/shire, Dundee, Edinburgh, Glasgow and Stirling. The Pathfinders are leading while learning how to scale up Housing First on a local authority-wide basis. This tracker summarises headline progress made by **30 April 2021**, reflecting the different restrictions in place across the country in response to the coronavirus pandemic.

KEY POINTS

- The number of new Housing First tenancies starting during April was **25**, bringing the Pathfinder total to **507***
- **435** people (**86%**) are still in their tenancies, including 6 people who have transferred to another Housing First tenancy
- Of the **71 tenancies (14%)** that have ended, **32** were instances of the tenancy not being successfully sustained (e.g. abandonment, eviction); this is 45% of ended tenancies and **6% of all tenancies**. **39** tenancies were ended for other reasons (e.g. the death of the tenant or a long-term prison sentence); this is 55% of ended tenancies and **8% of all tenancies**.
- **4** tenancies ended during April: 1 planned move to supported accommodation, and 3 due to the death of the tenant.
- To date **nobody** has been evicted from their home.
- For tenancies starting in April, the average time before moving in was **263 days**, bringing the average time for the Programme to **170 days**.

* the numbers in the tracker have been revised in line with the most up to date local reporting

Housing First is normal, it's fairer, it works – and we all benefit

Housing First Scotland belongs to everyone who is helping Housing First become the *first* response for people whose homelessness is compounded by experiences such as trauma, abuse, addictions and mental ill health. It is part of Homeless Network Scotland and funded by the Corra Foundation to work across all parts of Scotland.

Scotland's Housing First Pathfinder is led by cross-sector partnerships in Aberdeen/shire, Dundee, Edinburgh, Glasgow and Stirling. 15 services are delivering support, with a lead support provider in every area: Aberdeen Cyrenians, Transform Community Development, Cyrenians, Turning Point Scotland and Loretto Care.

Catalysed by Social Bite and Scottish Government, the Pathfinder is fund and project managed by Corra Foundation and Homeless Network Scotland and funded by Scottish Government, Social Bite and The Merchants House of Glasgow.

Date of Report	16 June 2021
Governance Group	CPA Board – 7 July 2021

Purpose of the Report
This Report covers the presentation of the Scottish Fire and Rescue Service Long Term Vision (LTV) Consultation to the CPA Board by Group Commander Chay Ewing, for information and noting by Members.

Summary of Key Information
<p>1. BACKGROUND</p> <p>1.1 In July 2020 and, in light of the Scottish Fire and Rescue Service experiencing unmatched external change pressures, the Service committed to begin planning for the future evolution and development of the Service.</p> <p>1.2 In developing a long-term vision for the Service, SFRS designed a process to engage in a fully, open and honest manner with staff and stakeholders.</p> <p>1.3 A three-month staff engagement exercise was undertaken from September to November 2021 and this was used to inform the first draft of the long-term vision (LTV)</p> <p>1.4 SFRS is now undertaking an engagement exercise with key partners, stakeholders and the wider public to capture their views on the future direction of SFRS.</p> <p>2. SUMMARY OF THE LONG-TERM VISION</p> <p>2.1 The LTV sets out SFRS’ ambition for the next decade. It re-iterates our mission and purpose and sets out our long-term strategic intent and principles to support our evolution over the next 10 years.</p> <p>2.2 What Scotland requires from its fire and rescue service is different than it was a decade ago. The number of household fires in Scotland has continued to reduce significantly year-on-year. Change in our weather patterns largely driven by climate change has resulted in more wild fires and increased flooding, endangering both lives and livelihoods. Scotland’s ageing population has increased significantly and so too the demand on all of us to support the needs of our elderly people. The threat from</p>

terrorism remains substantial and unlikely to reduce in the foreseeable future and we must be prepared to respond to that. We also need to do more work to prevent the circumstances that give rise to many of the incidents that we respond to.

2.3 The LTV is not just about how we respond to change it is also about how we can evolve to continually improve what we do and deliver the best possible fire and rescue service for the people of Scotland.

2.4 The new vision is our route map for the future direction of the SFRS. Our vision represents the beginning of a new journey for the SFRS but our mission remains the same – working together for a safer Scotland.

2.5 Our priority is to work with our staff, communities and partners, to evolve and transition as an organisation. As an employer, the wellbeing of our staff is a key priority and we want to do more to promote equality, diversity and inclusion, not just in our workforce but across the communities we serve as well.

2.6 We can also play an active role in the Scottish public sector’s response to climate change. We want to push the boundaries on where we can take that and achieve Carbon Zero status.

2.7 We see opportunities to improve the Service through advanced technology that will enable us to work smarter, increasing innovation and improving performance. We see possibilities to expand the services we offer, working even more closely with our emergency service partners to achieve better health and wellbeing outcomes for all, and particularly for those living in areas of deprivation to help tackle inequality.

2.8 We now want to ensure our vision meets the needs of our partners and communities and are seeking feedback on our draft long-term vision document.

2.9 This feedback will be used to prepare a final long-term vision for SFRS. The vision will then be delivered through our strategic plans over the next 10 years.

3. NEXT STEPS

3.1 We would like to encourage everyone to participate and share their views on the SFRS long-term vision.

3.2 An online survey can be accessed from the SFRS website www.firescotland.gov.uk

3.3 Responses can also be emailed to SFRS.OurVisionConsultation@firescotland.gov.uk or mailed to FREEPOST, Scottish Fire and Rescue Service, Westburn Drive, Cambuslang, Glasgow G72 7NA

Recommendations for Action

It is recommended that members of the CPA Board:

- i) Note the SFRS Long Term Vision consultation attached
- ii) Participate in the consultation.

Working together for a safer Scotland

SFRS – Long-term Vision Cover Report

Safety. Teamwork. Respect. Innovation.

Background

In July 2020 and, in light of the Scottish Fire and Rescue Service experiencing unmatched external change pressures, the Service committed to begin planning for the future evolution and development of the Service.

In developing a long-term vision for the Service, SFRS designed a process to engage in a fully, open and honest manner with staff and stakeholders.

A three-month staff engagement exercise was undertaken from September to November 2021 and this was used to inform the first draft of the long-term vision (LTV).

SFRS is now undertaking an engagement exercise with key partners, stakeholders and the wider public to capture their views on the future direction of SFRS.

Summary of the long-term vision

The LTV sets out SFRS' ambition for the next decade. It re-iterates our mission and purpose and sets out our long-term strategic intent and principles to support our evolution over the next 10 years.

What Scotland requires from its fire and rescue service is different than it was a decade ago. The number of household fires in Scotland has continued to reduce significantly year-on-year. Change in our weather patterns largely driven by climate change has resulted in more wild fires and increased flooding, endangering both lives and livelihoods. Scotland's ageing population has increased significantly and so too the demand on all of us to support the needs of our elderly people. The threat from terrorism remains substantial and unlikely to reduce in the foreseeable future and we must be prepared to respond to that. We also need to do more work to prevent the circumstances that give rise to many of the incidents that we respond to.

The LTV is not just about how we respond to change it is also about how we can evolve to continually improve what we do and deliver the best possible fire and rescue service for the people of Scotland.

The new vision is our route map for the future direction of the SFRS. Our vision represents the beginning of a new journey for the SFRS but our mission remains the same – working together for a safer Scotland.

Our priority is to work with our staff, communities and partners, to evolve and transition as an organisation. As an employer, the wellbeing of our staff is a key priority and we want to do more to promote equality, diversity and inclusion, not just in our workforce but across the communities we serve as well.

We can also play an active role in the Scottish public sector's response to climate change. We want to push the boundaries on where we can take that and achieve Carbon Zero status.

We see opportunities to improve the Service through advanced technology that will enable us to work smarter, increasing innovation and improving performance. We see possibilities to expand the services we offer, working even more closely with our emergency service partners to achieve better health and wellbeing outcomes for all, and particularly for those living in areas of deprivation to help tackle inequality.

We now want to ensure our vision meets the needs of our partners and communities and are seeking feedback on our draft long-term vision document.

This feedback will be used to prepare a final long-term vision for SFRS. The vision will then be delivered through our strategic plans over the next 10 years.

How to participate

We would like to encourage everyone to participate and share their views on the SFRS long-term vision.

An online survey can be accessed from the SFRS website www.firescotland.gov.uk

Responses can also be emailed to SFRS.OurVisionConsultation@firescotland.gov.uk or mailed to FREEPOST [INSERT CODE HERE], Scottish Fire and Rescue Service, Westburn Drive, Cambuslang, Glasgow G72 7NA

1. FOREWORD

- 1.1 The Scottish Fire and Rescue Service (SFRS) was established in April 2013. Since then we have built upon the work of our legacy Services from which we were formed. We are also proud to walk in the footsteps of all those firefighters and other Fire Service staff who served Scotland over the last 200 years. As we look forward, we will maintain our values and traditions while ensuring their ongoing relevance to Scotland's future. In doing this we will be bold in the choices that we make for our Service and critically in how we support our communities. We will do this in the knowledge that some of those choices may be challenging but they will be the right things for us to do; just as the choices of our predecessors were the right things for their time.
- 1.2 The vision for Scotland's public services, embodied in the Commission on the Future Delivery of Public Services (Christie Commission), is at the heart of the SFRS. We are dedicated to improving the quality of our Service; to keep improving people's lives; improving the safety and wellbeing of the communities we serve; to continue to focus on the prevention of risk of harm and to work in collaboration with our partners and communities. We are also fully committed to respecting people's opinions regarding how we design and deliver our services and to ensuring that their voice helps us shape what we do. Working together with our staff, communities and partners we will evolve and transition as an organisation, ensuring that we remain central to keeping Scotland's communities, businesses and visitors safe. In realising our Vision, we will also continue to deliver the Scottish Government's priorities as set out in the National Fire and Rescue Framework for Scotland. We will set out the specific details for delivering our Vision in our Strategic Plans over the period covered by this Draft Vision.
- 1.3 We are conscious that we launch our Draft Vision for the Service at a time when Scotland is emerging from the impacts of the worst pandemic for a century. As the full consequences of COVID-19 become clear we will offer our full support to communities across Scotland to help them recover socially and economically. We are also committed to working with our staff, partners and communities directly to help address the underlying social and economic challenges that the pandemic has exposed. If anything, this experience has taught us that by working together we can deliver major change to better support our communities. We will maintain that focus and apply the lessons we have learned to sustain our commitment to change as we advance our 10-year vision into action. We also launch this vision in the knowledge that we are building on a strong foundation. Our staff are committed, respected by their communities, partners and government and highly valued by the Board of the SFRS. It is this foundation that allows us to progress. What we set out below is our ambition and the pathway to our future.

2. HOW WE DEVELOPED OUR VISION

- 2.1 Our Draft Vision was initially fashioned by working together with our staff through an extensive set of engagement activities to ensure that as many as possible could work with us in building this vision for the Service. In doing so we sought to build a common understanding of the key challenges facing us and how we should adapt in response to them, whilst continuing with those things we currently do well. In consulting with our stakeholders and engaging with our communities we are equally committed to hearing and responding to their views as we shape our final Long-Term Vision for the Service. But we know the change journey that we are committed to will take time. It will require thoughtful consideration and detailed planning; but it will also require speed of action when that is needed. It will require us to be brave while equally being mindful of the views of others about why, how, where and when we change.
- 2.2 Our Draft Vision represents the beginning of a new journey for the SFRS. We welcome all of those who work within the Service, those with a connection to the Service, our communities and our partners to continue to work with us to shape our journey's detail. Together we can embrace the challenges ahead and ensure our continued success in being a public service that truly is at the heart of Scotland's future.

3. HOW MIGHT SCOTLAND CHANGE OVER THE NEXT DECADE

- 3.1 As we saw with the rapid onset of the COVID-19 pandemic, trying to predict what may happen in the future is extremely challenging. We also know that new technologies will continue to emerge at pace and impact upon our lives and that new opportunities will arise that we could not forecast. Therefore, what we set out below is not a prediction of the future but our understanding of some of the factors that will shape Scotland's future and what that in turn will mean for SFRS.
- 3.2 Over the next decade Scotland will have a stronger focus on addressing the factors that improve people's wellbeing. Simultaneously, there will likely be ongoing political debates about Scotland's constitutional future, which will inform the nature of Scotland's political dialogue and the context within which all public services will function. Scotland will also be managing the social and economic consequences of the COVID-19 pandemic plus the impact of people living with the long-term consequences of the virus. While the drive will be to improve the quality of life for people, the biggest challenge will be to improve it for all, not just for some. Therefore, a focus on addressing the social, health and economic conditions that lead to inequality will be a key feature in how all public services will be designed, directed and resourced.
- 3.3 At the same time climate change will increase its impact on our weather patterns. We will experience an overall warmer but wetter climate and will see more extremes periods of wind and rain. The push to decarbonise our economy, make greater use of renewable energy and change our means of travel means the greening of Scotland's and our future will increase at pace. Meeting the challenges of climate change is something that Scotland will address and we must play our part.
- 3.4 There will be ongoing developments to ensure the resilience and safety of communities in order to safeguard the people who live there. We will continue to experience the threat of potential acts of terror within our communities. This will necessitate strong cross public service working to meet the challenge and to protect our staff as they work to keep our communities safe.
- 3.5 Stronger, more sustainable and more connected communities make for safer and more cohesive communities. The development in digital and other technologies means new communities will be formed. These will also be communities of interest and experience, not only place. We will see communities where more people work from home or their local area and where they commute less to major towns and cities. Safeguarding the most vulnerable people in their homes with digital technologies will become the norm. New outreach and community support services will be built to use that technology to protect and enhance the lives of those who are the most vulnerable. At the same time support and care for people will increasingly become personalised and built around their needs. People's expectations of more tailored public services will increase, meaning all public services, including the SFRS, will need to adapt how they work to deliver what people will increasingly expect of them.
- 3.6 The culmination of these and other changes will mean that place, where people live and where they perceive they live their life in a digital context, will increasingly be of importance. The physical community that someone is born into, is raised in and in which they live has profound impacts on their likely life chances, but so too will the digital communities that people are increasingly part of. Over the next decade we will see a reshaping of Scotland's physical and increasingly digital places and the reshaping of public services that support those communities. How those communities are supported and how public services are resourced to support them will be a feature in the public service reform agenda. Creating more opportunities for individuals to make their own lives better will be a key feature in this. There will be a profound shift in how society thinks of public services and their role in supporting communities change and prosper.
- 3.7 The decade ahead presents profound but exciting challenges to Scotland and to all its public services. The onus will be to adapt, thrive and prosper as a public service that helps meet the challenges ahead and the reward for so doing will be a country and communities that thrive. For the SFRS, Scotland's future offers enormous potential. We already add huge value to the communities we serve. But we can add further value by adapting to our context, by deepening our commitment to meet the changing needs of communities and by continuing to engage with our staff, partners and communities on how we do this. Our potential is unbounded as is our desire, intent and commitment to realising that potential.

4. WHY MUST SFRS KEEP EVOLVING

- 4.1 The SFRS must evolve, not for the sake of change, but because Scotland and our communities are changing in new and complex ways. We are committed now, and will continue to be so in the future, to protecting the safety of our communities, to preventing harm to people where we can and to supporting our economy to flourish. While we evolve we are also acutely aware that some of what we do will remain steady and resolute in meeting the continuing needs of communities. Where changes in communities occurs, this will alter established patterns of risk for those communities, our country and our economy. As a Service focused on doing the right things, it is incumbent upon us to respond to those risks in new and innovative ways while retaining our current strengths. Innovation in the design and delivery of our Service, in the technology and information we use and how we work with our partners and communities will be the key to our success.
- 4.2 Notwithstanding the impact of the COVID-19 pandemic, over the next decade and beyond we will see Scotland's population alter as more people live into older age. As they do so, many will live alone and with multiple frailties that will require all public services to work together to support them in staying safe, healthy and free from harm. We will also see internal migration of people as the economy and patterns of work change. New communities will grow and existing ones will reduce in size. There will be growth and change in the number and types of businesses operating throughout the country. New technologies will profoundly change how people live their lives and how they interact with wider society. Climate change will alter our weather patterns with the frequency and severity of major risk events such as flooding and wildfires increasing. These challenges facing Scotland are profound, multi-faceted and are impactful on us.
- 4.3 We will continue to evolve ensuring that we remain the Service that Scotland needs us to be; designed and built to face the challenges of the third decade of the 21st century and beyond.

5. OUR MISSION

- 5.1 In our engagement with staff in drafting our Vision it was clear that while we are committed to changing, we will never lose sight of who we are. We will rise to meet the challenges presented to us and to the communities we serve and we will continue to learn and adapt to those challenges. In doing this we aspire to be the best Service that we can possibly be; because we know that is the right thing to do. We also want to be among the best fire and rescue services in the world and to be held in that esteem by our peers, partners and communities. We will share our experiences, insights and learning with others about what we achieve and how we achieve it. We know that a Service that is strong in its commitment to its communities, is as equally strong in its commitments to its staff, can be confident that others will wish to hear what we have to say regarding issues relevant to our sector and to the wider public service context.
- 5.2 As a confident, outward looking, learning organisation, that is open to sharing with others our mission remains clear. We are:

'Working Together, for a Safer Scotland'.

We are committed to working together as a single organisation in pursuit of our common mission. Working together to secure the ongoing safety of our staff and those we serve throughout Scotland. As we deliver our mission, we will continue to evolve, adapt, grow and transition into whatever it is that is required of us to secure the safety and wellbeing of our communities. But we will never lose sight of what our mission means to us. It represents who we are and it is what we stand for.

6. OUR PURPOSE

6.1 At the core of any successful organisation is an understanding of why it exists and what it is set up to deliver, that is, its purpose. When the SFRS was established the overarching purpose for the Service was set:

“.... to work in partnership with communities and with others in the public, private and third sectors, on prevention, protection and response, to improve the safety and wellbeing of people throughout Scotland.”

6.2 Throughout our engagement with staff in drafting our Vision it was clear that this purpose should remain at the core of our Service now and into our future. It commits everyone in the SFRS; Board, management and staff, to achieving all that we can for the communities we serve. Not only does it mean we work to keep people safe from fire, our historic mission, but that we work to build improvements in their overall wellbeing in life. It commits us to responding to emergencies, when needed, and to preventing harm to people and communities before it arises. Our purpose defines who and what we are. But, it is down to all of us who are connected to and part of SFRS to continue to define how we will bring our purpose to life in ways that meet the changing needs of our communities and country.

6.3 Since 2013 the SFRS has deepened our understanding of our purpose, we have strengthened our work to prevent fires and other accidents occurring. It has led us to work with partners to protect the most vulnerable members of our communities while continuing to respond when people are at some of the most perilous points in their lives. It has led us to work to support safety in our businesses so that they may continue to grow our economy. It has led us to educate our children and young people in all issues relating to safety to help keep them free from harm and it has led us to face the growing consequences of changes in our climate. In short, we redefined how we had to evolve because that's what our communities and Scotland needed of us. We will continue to drive our evolution to ensure that over the next decade and beyond we remain the Service that Scotland needs us to be.

7. OUR STRATEGIC INTENTIONS

- 7.1 To shape the delivery of our Draft Vision and to realise our aspirations and ambitions we have set four long-term strategic intentions for the Service. We have not ordered the strategic intentions in priority order, each of them is of equal importance to the Service in achieving our long-term success. We will use our strategic intentions to determine our direction of travel and to continually steer the organisation over the next decade. They will guide our ability to adapt, to develop new capabilities and to exploit future opportunities as we realise our purpose and meet our mission and allow us to correct any drift from that as we are buffeted by any unexpected changes in our organisational environment.

8. OUR PRINCIPLES

- 8.1 Our Draft Vision is also set in line with the values that permeate our Service. We will continually support changes in behaviours across the organisation to ensure that our values remain live and are visible in all that we do as we turn our vision into a series of plans and programmes of work. We will adopt the following operating principles to how we will work and how we will develop the work plans and programmes that will deliver our Vision.
- 8.2 First, we will be a progressive organisation. As a progressive organisation we continue to embrace change and improvement over time, to help keep us successful. We are fully committed to securing best value in all that we do and we will innovate and find new solutions to old and intractable problems as well as find solutions to the new challenges that lie ahead. We will improve how we respond to emergency situations and critically work ever harder to prevent those situations arising where we can. We will equally look to make all that we do more efficient ensuring our resources are redirected to priority areas within the Service. As a public service we are committed to achieving fairness and equality for all those who work with the Service and for those that we serve. Our progressive commitment will be embedded in how we make decisions on what we will do, what we will prioritise and how we will act. We will connect our business systems and processes in ways that we previously could not by exploiting new technologies and the capacities they offer. We will automate and connect the data and information we and our partners hold to help build insight into how well we are performing and what more we can achieve. We know that by working in this way we will be stronger and because of that we will be able to ensure our communities are too.
- 8.3 Secondly, we will be people centred in all that we do. This means we are committed to enabling everyone working within the SFRS to contribute to and help shape the progression of our future direction. We will continue to work in a transparent manner so that those who wish to contribute to what we do and how we do it are enabled to do so. We also commit to ensuring that as we develop our existing services or build new services those developments will be built around meeting people's needs; the needs of our staff, partners and communities. When we change we will do so by taking people with us on our journey. This will mean we will work to get change right for people and to ensure that we work with them in ways that help us to achieve that. We will also look to work in new and smarter ways to further build and unleash the full talents of those who work for us and the talents of our communities to support our change journey. We will support people by both working smarter and making greater use of the data and information that we and our partners possess. We are determined that meeting people's needs will be at the centre of our ways of working.
- 8.4 Thirdly, we will be an organisation that embraces inclusiveness and difference. We will reflect the needs of our communities in what we do and we will value the unique characteristics within each of them. We will be relevant to all their futures and will help them meet their local challenges. We firmly believe an organisation that is as diverse as the communities that it serves is stronger. Moreover, differences of viewpoints, understandings and insights makes us more welcoming, tolerant, aspirational and respectful of the value that difference itself brings to our Service. Critically we believe this will make us more creative and stronger going forward in addressing the challenges we face. Through these changes we will unleash our talent, passion, commitment and a desire to help make communities safer, more resilient and consequently more prosperous. By making our organisation more inclusive we will increase our chances of success in what we do. We will also work ever more closely with our existing partners and seek out new ones to help us achieve what we set out to accomplish. We know there is no single monopoly on insight and understanding in keeping communities safe and improving their wellbeing. We will ensure everyone who wishes to offer their insight, opinion, guidance and support, as we realise our ambitions, will be able to do so.

8.5 Fourthly, in recognition of the importance of place in shaping the lives of the people of Scotland we will remain vigilant to how our communities are changing. We will deepen our understanding of their needs and use that insight to help support how we will change over time. We also know that we can achieve more by working with others and utilising their insights, talents and resources than if we operate alone. We will work with our partners and communities in addressing the needs of our changing environment and to help ensure a more sustainable Scotland. In doing so we will reshape how we operate and how we work to achieve greater organisational sustainability and to reduce our environmental impact and improve the quality of life within communities. We will also ensure the internal connectivity of the people who work for SFRS is improved while reducing our carbon consumption as we work together over a country as geographically diverse as Scotland. We know by addressing our own organisational sustainability we can help Scotland achieve its ambition to be a more sustainable, prosperous and inclusive society.

9. OUR PRIORITIES

9.1 To deliver our Vision we propose eight overarching priorities for the Service. By focusing on these priorities over time we will transition our organisation to what Scotland needs us to be. Over time as our Vision is realised, through the work that we do, we will revisit these priorities to ensure they remain relevant to our strategic intentions and operating principles and to the needs of the communities we serve.

9.2 Our priorities are presented below to show how they connect most strongly to our operating principles. While each priority is listed against one principle, in reality they serve all our principles and strategic intentions.

Progressive	People-Centred	Inclusive	Connected
Our service delivery model will meet Scotland’s changing needs	We will be an organisation that works in agile and smart ways	Partnership working will be at the core of how we work	We will be driven by a deeper understanding of the needs of our communities
We will be innovative in our use of technology, data and information to change how we work	We will invest in developing leaders throughout the Service and train our staff to the highest standards	We will value difference, of views, experiences and backgrounds within our organisation	We will be a more environmentally sustainable organisation

10. WHERE OUR VISION WILL TAKE SFRS

- 10.1 As we develop our Draft Vision through our approach and the delivery of our priorities we will reshape key elements of our Service. We will target our resources more intelligently by using a more rounded understanding of risk to ensure we have the right resources in the right place to meet the different needs of communities across Scotland. We will work ever more closely with partners to prevent the circumstances that give rise to harm in households and communities from occurring. In doing this we will help make the transition of our services as seamless as possible. We will also refocus our energies on building more resilient and stronger communities who are able, willing and motivated to work with us in keeping their community safe. In doing all this, we will demonstrate the breadth of support we bring to communities and build their understanding of the many ways in which we touch and improve their lives. Community needs will define, shape and govern our actions.
- 10.2 For our operational services, our Vision means we will evolve the scope of our support to communities to keep them safe from harm. We will continue to develop our Service Delivery Model to better manage the peaks and troughs in demand for our existing services. This will mean we can use our resources in ways that are more beneficial to communities when the demands for emergency responses reduce. We will increase our role in providing life enhancing responses across Scotland in meeting the needs of communities. Our future workforce will work in more agile ways, using time and skill in ever more innovative ways to keep people and communities safe from harm. We will evolve new roles and duty systems to ensure we continue to employ people with the right skills and knowledge appropriate to the risks of the community they serve. While doing this our role as an emergency responder will remain a vital element of our support to communities. We will reshape our property, fleet, equipment and training to support our transition and ensure they act as enablers of our ongoing success in meeting the needs of communities. We will change our approach to Unwanted Fire Alarm Signals while continuing to safeguard people and property in a manner proportionate to risk. By doing this we will free up capacity and resources within the Service and dedicate these to further improving our training capability and to critically resource new service developments in meeting the needs of our communities. In support of those communities who are supported by our Retained and Volunteer Duty Systems, or on-call colleagues, we will implement new and flexible ways of working to allow more people to join the Service while still fulfilling their other work and life commitments.
- 10.3 We will always be a Service that responds when required, it's in the very core of who we are, but in changing we will increase our focus on preventing circumstances that require that response in the first place. We know that investing in the prevention of damaging circumstances for people and communities is a truly better and safer approach. By evolving our operational model, we aim to reduce the incidences that cause harm within our communities while offering a more dynamic response capability. We will develop blended work teams throughout the Service ensuring that we can better utilise a wide range of skills that map to the future demands facing the Service. Teams who work together, value everyone's contribution and who are dedicated to the safety and wellbeing of our communities will remain the cornerstone of how we work.
- 10.4 Changing our operational model means, we will need to support and help those who work within the Service to change with us. That means we will invest further in training, including making more use of technologies such as virtual and augmented reality to enable us to train to the highest standards while ensuring our staff are safe but also continuing to use live training exercises too. We will increase our joint training with relevant partners to improve how we work together in meeting the ever more complex demands we collectively face. We will increasingly adopt technologies that will keep our staff safe when on operational duty, including wearable technology that monitors the health and wellbeing of staff and using smart connective technology allowing us to better monitor and support teams as they work in the most challenging and dangerous of circumstances. We will ensure our Personal Protective Equipment continues to be of the highest standard as our commitment to the safety of our staff will never diminish.

- 10.5 We will also use new communications technologies to improve our connectivity on the operational incident ground and to help us work better with and in support of other partners when incidents demand it of us. New command and control technology will further enable us to make more dynamic use of our resources in managing incidents including how to make better use of partner information and data and community assets and resources.
- 10.6 Allied to this we will join up the data and information we can access to help us predict where incidents may occur, so that we can respond more swiftly and to better plan where we can take preventative actions. We will increasingly make use, with the proper safeguards in place, of the information generated by new technologies within people's own homes. Smart, integrated home and community technologies offer us new platforms with which to engage with people, understand their needs better and evolve how we can support them to meet their personal needs while meeting the wider needs of the broader community. We will use this complex data to design interventions that influence the behaviour of people to keep them safe. We will make appropriate data and information available on open data platforms and encourage people to engage with us to help us in understanding what the data tells us and we will use home based technologies to enhance the level of fire detection and suppression in homes throughout Scotland.
- 10.7 To help us change we will invest in our people to ensure they work better together in delivering common outcomes. We will invest in maintaining our core skills so that when called upon to respond we will do so with the highest level of skill, dedication and commitment required of us. We will invest in, support and help those who work within the Service to change how they work as the organisation changes and invest further in training to build and maintain the skills we need across the organisation. We will use more virtual and augmented reality to enable us to train to the highest standards while ensuring our staff are safe, whilst recognising the immense value in live training exercises which we will continue to use where appropriate.
- 10.8 We will invest in building the leaders and leadership skills we require to maintain our successes as we change. But the changing requirements of communities mean we will also need to develop new skills and new career opportunities by creating new types of roles within the Service. We will develop new career opportunities and pathways focused on prevention and community resilience building. We will ensure all our staff have good communication skills, the skills to make sense of complex data in decision making and skills that better enable us to influence the behaviour of people in keeping them safe. We will design our training and development procedures to ensure the right blend of skills is available to us where it is required, when it is required and in ways that reflect the particular needs of different communities across the country.
- 10.9 We will strengthen our team approach in co-designing services that meet community needs and we will fully integrate with and support a wide range of local partnerships. We will share property and assets with a wide range of partners across local communities and we will jointly fund posts with partners to ensure we maximise the value of our work in local communities.
- 10.10 We will also continue to build our organisational culture with our staff. We already are an organisation that values people and is respectful of them and we will continue to build a more inclusive culture with our staff. This in turn will make us stronger as an organisation because we value people and are respectful and tolerant of difference and the difference of perspective that different people bring. We will empower managers to make more decisions at the right levels of the organisation and reduce unnecessary bureaucracy and eliminate redundant organisational hierarchies. Our aim is that our people and the work they do will be valued as being at the heart of supporting local communities. We will also continue to ensure we have strong and supportive links to all staff representative bodies and engage them in the delivery of our Vision. Inclusion, collaboration and partnership working with our staff, their representatives, communities and our partners will shape how we work.

- 10.11 Agility will be at the heart of how we operate and we will target our resources more intelligently, ensuring the right resources are in the right place at the right time. Our future workforce will operate more flexibly, using time and skill in ever more innovative ways to keep people and communities safe from harm and design and deliver services in a co-productive way with communities and stakeholders. Ensuring we are a more environmentally sustainable organisation will be a key feature of our future and our aim is to be recognised as a leader in the public sector for our innovative approaches in reducing our carbon consumption. We will use electric and other non-fossil fuel vehicles across the whole fleet and we will modernise energy systems in our buildings to reduce the carbon we consume. We will also strengthen our approach to preventing wildfires to make a significant contribution to reducing the carbon impact of such fires. We will work with our partners to promote innovative and safe building techniques to prevent fires and support sustainable building construction methods. We will also change our operational and training equipment to low carbon equivalents and eliminate the environmental pollution arising from training exercises. We know a greener future for Scotland requires a greener future for the SFRS.
- 10.12 We will encourage all who work within the Service to engage with us in making decisions and to work with us in realising our Vision. SFRS works best when it works as a team and we will continue to build our culture to strengthen our team approach in sustaining our commitment to meeting the needs of our communities. Our reward in doing this will be the knowledge that we are acting as we always have; doing the right things for communities in protecting their safety and promoting their wellbeing.

11. NEXT STEPS

- 11.1 Our Vision marks a new phase in the change journey for the SFRS and it may take us a decade to fully realise. It will shape what we do, how we work, how we engage with people and how we will evolve to meet the challenges facing our communities and Scotland. It is the foundation for how we will build our Service for the future. Set out above are the steps we will take in meeting the challenges ahead. We are further committed to setting out the depth of the work and the detail of the planning that will be required in demonstrating how we will fulfil these ambitions. We will build this detail together with our staff, partners and communities in the months and years ahead. We will be steadfast in realising our Vision and we will work unceasingly to succeed in continuing to enhance the safety and wellbeing of our communities as we do so. Our actions, not simply our words, will bear testament to this. We do this because it is the right thing to do and because that is who we are. We are the Scottish Fire and Rescue Service. We invite you to join us on the journey ahead.

12. PUBLIC CONSULTATION QUESTIONS

As part of our public consultation on a long-term vision for the Scottish Fire and Rescue Service (SFRS), we'd like to hear your views on our plans for how the Service should evolve over the next decade and beyond.

Please take five minutes to complete our short questionnaire below.

You can send us your feedback by completing the consultation questions on pages 12-15 and sending them to:

FREEPOST SFRS Communications
Scottish Fire and Rescue Service
Westburn Drive
Cambuslang
Glasgow
G72 7NA

You can also complete the consultation questionnaire at firescotland.citizenspace.com

To email your views, please contact SFRS.OurVisionConsultation@firescotland.gov.uk

Thank you.

About you

1. To help us analyse all feedback, please tell us if you are responding as a:

- | | |
|---|---|
| <input type="checkbox"/> member of the public | <input type="checkbox"/> local authority |
| <input type="checkbox"/> member of SFRS staff | <input type="checkbox"/> emergency service organisation
(please state which one) |
| <input type="checkbox"/> community group | <input type="checkbox"/> public sector body (please state which one). |
| <input type="checkbox"/> voluntary organisation | |

If you are responding on behalf of an organisation please state the name of the organisation here:

If you are responding as an individual please provide the first part of your postcode e.g G77, EH34:

Survey questions

2. To what extent do you think our Draft Long-Term Vision is the right future vision for SFRS?

- | | | |
|---|--|--|
| <input type="checkbox"/> Strongly Agree | <input type="checkbox"/> Disagree | <input type="checkbox"/> Prefer not to say |
| <input type="checkbox"/> Agree | <input type="checkbox"/> Strongly Disagree | |

What could we do to improve the Draft Vision for you?

3. Looking at the four strategic intents we've identified for achieving the long-term vision, to what extent do you agree with each of them?

	Strongly Agree	Agree	Disagree	Strongly Disagree	Prefer Not To Say
Staff are safer, are better supported, are more satisfied and empowered					
Our communities are safer and their wellbeing is improved					
We are more adaptable in responding to changing risks across and between communities					
Our wider contribution to Scotland and our communities is recognised					

4. Looking at the eight proposed priorities we've identified for achieving the vision, to what extent do you agree with each of them?

	Strongly Agree	Agree	Disagree	Strongly Disagree	Prefer Not To Say
Our service delivery model will meet Scotland's changing needs					
We will be innovative in our use of technology, data and information to change how we work					
We will be an organisation that works in agile and smart ways					
We will invest in developing leaders throughout the Service and train our staff to the highest standards					
Partnership working will be at the core of how we work					
We will value different views and experiences					
We will be driven by a deeper understanding of the needs of our communities					
We will be a more environmentally sustainable organisation					

5. Are there any other comments you would like to make about our Draft Long-Term Vision? (Please enclose your comments on an additional sheet if needed.):

Positive Action

SFRS are committed to positive action to ensure fair representation and participation by those with a protected characteristic under equalities legislation. To help ensure we do this and if you're comfortable, please complete our equalities questionnaire. The questionnaire does not ask for any information that would identify an individual.

13. EQUALITIES MONITORING FORM

We would like to ask a few more questions about you. We have a duty to meet the needs of people across our diverse communities and it would help us to know the reach of our consultation exercise by knowing the range of people who gave us feedback. The Equality Act 2010 requires that we provide our services with equality of access to all of Scotland's diverse communities and one way we can assess and demonstrate this is by collating data.

The information we gather in this part of the consultation exercise will be used to help us understand the different priorities different community groups may have.

We have based our monitoring questions on the categories set for the 2022 Scottish census and have restricted the question set to only those we can use to provide us with information for evaluating the results of the consultation exercise. We will not use this information for any other purpose.

We can also use monitoring to determine whether our services are accessible, whether our policies have a disproportionate, unfair or positive impact on particular groups and whether members of those groups are satisfied with the service they receive. This section is **optional but we would be very grateful for your participation**. Any responses you do provide will be anonymised.

Please select only one answer for each question below.

1. Your Age

- Under 16
- 16-25
- 26-40
- 41-55
- 56-70
- Over 70
- Prefer not to say

2. Your Sex

- Female
- Male
- Prefer not to say

3 Trans - Do you consider yourself to be trans, or have a trans history? (for example, non-binary, trans man, trans woman)

- Yes
- No
- Prefer not to say

4. Your sexual orientation

- Heterosexual
- Gay/Lesbian
- Bisexual
- Prefer not to say

5. Disability

Do you have any of the following, which have lasted, or are expected to last, at least 12 months?

- Deafness or partial hearing loss
- Blindness or partial sight loss
- Full or partial loss of voice or difficulty speaking (a condition that requires you to use equipment to speak)
- Learning disability (a condition that you have had since childhood that affects the way you learn, understand information and communicate)
- Learning difficulty (a specific learning condition that affects the way you learn and process information)
- Developmental disorder (a condition that you have had since childhood which affects motor, cognitive, social and emotional skills, and speech and language)
- Physical disability (a condition that substantially limits one or more basic physical activities such as walking, climbing stairs, lifting or carrying)
- Mental health condition (a condition that affects your emotional, physical and mental wellbeing)
- Long-term illness, disease or condition (a condition, not listed above, that you may have for life, which may be managed with treatment or medication)
- Other condition
- No Condition
- Prefer not to say

6. Caring Responsibilities

Do you look after, or give any help or support to family members, friends, neighbours or others because of either: long-term physical / mental ill-health / disability; or problems related to old age?

- Yes – unpaid care provider full-time
- Yes – unpaid care provider part-time
- No
- Prefer not to say

7. Care Experienced

Care experienced means you are or were formally looked after by a local authority, in the family home (with support from social services or a social worker) or elsewhere, for example, in foster care, residential/secure care, or kinship care (with family friends or relatives) and you have not yet reached your 26th birthday.

- Yes
- No
- Prefer not to say

8. Ethnicity – what is your Ethnic Group?

Please select only one item

A. White

- Scottish
- Other British
- Irish
- Gypsy/Traveller
- Polish
- Roma
- Showman/Showwoman
- Other white ethnic group (Please write below)

B. Mixed or multiple ethnic groups

- Any mixed or multiple ethnic groups (Please write below)

C. Asian, Asian Scottish or British Asian

- Pakistani, Scottish Pakistani or British Pakistani
- Indian, Scottish Indian or British Indian
- Bangladeshi, Scottish Bangladeshi or British Bangladeshi

- Chinese, Scottish Chinese or British Chinese
- Other white ethnic group (Please write below)

D. African, Scottish African or British African

- African, Scottish African or British African (please write below - for example, NIGERIAN, SOMALI):

E. Caribbean or Black

- Caribbean or Black (please write in below - for example, SCOTTISH CARIBBEAN, BLACK SCOTTISH):

F. Other Ethnic Group

- Arab, Scottish Arab or British Arab
- Other, please write below (for example, SIKH, JEWISH)

G. Prefer not to say

-

9. Religion or Belief

- None
- Prefer not to say
- Church of Scotland
- Roman Catholic
- Other Christian (please write in denomination or school below)
- Muslim (please write in denomination or school below)
- Sikh
- Hindu
- Jewish
- Buddhist
- Another religion or body (please write in denomination or school below)

DRAFT/

COUNCIL

21 JUNE 2021

The Council had before it a notice of motion by the Lord Provost in the following terms:-

That Council:

1. Notes the progress of Aberdeen City Council in promoting and encouraging the biodiversity of Aberdeen through the North East Scotland Biodiversity Partnership and further work as outlined in the Council's triennial Biodiversity Duty Report (2020).
2. Agrees Council officers, our partners and our communities have and continue to collectively undertake often extensive, critically important, and highly valued work across the nature agenda in and beyond Aberdeen.
3. Notes that the COVID-19 crisis has demonstrated the critical value of our natural environments and open spaces to the physical and mental wellbeing of the citizens of Aberdeen, especially in times of crisis.
4. Recommends that Community Planning Aberdeen continue to embed the UN Sustainable Development Goals pathway of action to 2030 within their strategies and plans to accelerate action on climate and biodiversity, while delivering the many co-benefits of a sustainable city to our people, place and economy; and
5. Agrees to instruct Chief Officers to work across the Council, with Community Planning Aberdeen, other partners and stakeholders to embed the commitments of the Edinburgh Declaration into their strategies, plans and workstreams.
6. Agrees that the Lord Provost signs the Edinburgh Declaration on behalf of the Council and in recognition of its partnership roles with the North East Biodiversity Partnership.

The Council resolved:-

to approve the notice of motion.
