6.Partner updates DB - Shmu is developing a website with each of the communities it works within. The Woodside website is active: www.connectedwoodside.org The next website will be Connected Torry. We're currently at the stage of reaching out to different community groups to have initial conversations about this, how a Torry website might be useful for them, how the group wants to be involved in shaping the site. At the end of last year the People's Assembly and Friends of St Fitticks had us along to a meeting where we had a really good first exploring around those questions.
